

GRAPES

- There are many different colors of grapes: green, red, black, yellow, pink, and dark blue.
- Can be eaten right off the vine, or used to make jams, juices, & jellies.
- They grow on vines and in clusters (groups) of 15 - 300 grapes.
- Grapevines can produce grapes for centuries (100's of years).
- Yes, raisins are made from dried grapes!

Oldest grapevine (pictured above) is over 400 years old. It is located in North Carolina and still produces grapes each year.

Did you know???

If you feed your dog grapes or raisins they will get very sick.
