

“Random Fun Facts”

- Certification-Elementary Education Grades 1-8 and Mild/Moderate Special Education Grades k-12; Education Leadership with emphasis on Elementary Principalship; Minor in Visual Arts
- This year, I am completing my 26th Year (25th with 4th Grade and 18th year at Lab School)
- Ms. Jeanfreau will check very little email during the month of June, as she will be at summer camp! However, in July, I will check email more regularly (few times per week).
- My email address is- cheri.jeanfreau@selu.edu
- IXL will be available over the summer, and this is what I suggest students use in order to review math. Unfortunately, one of the most difficult modules in Math is Module 1, which is Place Value. Until I get more math data, I suggest working on the 4th Grade Level of Math (Part A). There is no requirement, but every little bit completed will help. (*See the username and password below). While the kids may not have chromebooks, IXL practice can be done on any device.
- Our class website is found in On-Course. It will be update all throughout the summer.
- The Social Studies curriculum is changing drastically!!!! Instead of American History and Geography, 4th Grade will study Ancient Civilizations (i.e. Greeks, Aztecs, etc.). Students will learn American History in Middle School, however, I suggest learning the United States (locations, regions, etc) and basic American History when the opportunity presents itself.
- We will continue to work on learning cursive. It will be expected that students can write their signature (first and last name) when school begins in the fall. Everything else will be addressed as needed.

New students don't have accounts yet.

2023-2024 Summer Reading List

Student's Name: _____

Directions: See the list below, and focus on only the group of titles that has been selected for you based on all of your reading data. **You must read the book that is in bold print and complete the corresponding activities.** Then, you need to select one other book from the titles provided and complete the corresponding activities.
