

# Frozen Hide and seek

## (For any age)

### **Frozen Hide and seek**

This game requires at least 2 people and a space to play.

Choose one player to be “it”

Whoever is it must stand in the middle of your living space and count to 20 with eyes closed.

During this time, the other players will run and hide somewhere in the living space.

The person who is “it” will open their eyes and without moving, must guess where the players are, even if the players are not visible.

If they guess where someone is hiding that person is out and must wait till the next round to play again.

If “it” guesses wrong, they will call out “Can I get a high five?” then they must close their eyes and put up their hand for a high five.

The other players must run out and high five the player who is “it” then run back to their hiding spot.

The person who is it must use their sense of hearing as the other players run toward them and then run back to their hiding spots to figure out where they are.

Keep repeating until everyone is found.
