

Chair horseshoe

For this game, you need a chair, table, and something to toss on it, like a hat, headband, or shirt. And at least one person.

Turn a chair or a table upside down so that the legs are sticking up.

Take turns tossing your item onto the legs of the chair or table. If you succeed getting the item on one leg, then go get another item and try for another leg. See if you can get all of the legs covered.

(If you don't have a chair or a table, you could even have a person lay down and stick their arms and legs up in the air and use your arms and legs to toss your items onto. Just make sure they aren't heavy!
