**HIGHLANDER 1987**

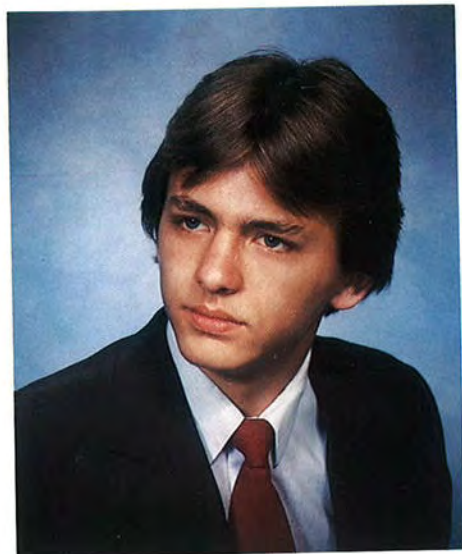

When the night has come  
And the land is dark  
And the moon is the only light we see;  
No, I won't be afraid. I won't be afraid.  
Just as long as you stand, stand by me . . .

If the sky that we look upon  
Should tumble and fall,  
Or the mountain  
Should crumble to the sea;  
I won't cry. I won't cry.  
No, I won't shed a tear.  
Just as long as you stand, stand by me . . .

Whenever you're in trouble  
Just stand by me.  
Stand by me.

**Through the years, you have  
guided and supported us. We, in  
turn, have given you our respect  
and admiration. That is why we,  
the Class of 1987, dedicate our  
yearbook to you, the teachers of  
Perth Central School.**

**TWO** weeks after this yearbook is finally out and people have stopped complaining that this is wrong or that this is missing, the book will be set aside to be just another book that will gather dust. However, five, then, possibly twenty years from now, that book will be removed from its hallowed crypt to take on a new prominence in the annuals of its owner.

At that time, I wonder how many people will recall how many times they were begged to hand in a paper, how much time was lost in arguing about an assignment, what a hard time they gave a particular teacher, and yes, they'll recall the good times. "Yes, those were the good old days at PCS!"

In ten years most of the students at PCS will probably be married and be parents. I wonder what type of guidance that you'll give them in regard to school and how they should behave in school. Whatever the case, this book is going to take on a greater significance as you travel the path of life. Most of you, with the exception of a possible reunion will probably never see another classmate again!! Dad or mommy will be asked, "What was it like back in those ancient days?" As this book goes to the printers, let us take a closer look at 1986 and early 1987. For all of you who despise history, this now becomes your history book.

I think that we should begin reviewing 1986 with some information that reflects some of the lighter aspects of our lives.

1. Video Rental: "Back to the Future" — Do you own a VCR?
2. Video Sales: Jane Fonda's New Workout
3. Box-Office Movie — "Top Gun"
4. Soap Opera: "General Hospital" — What were your favorite soaps at the time? Are they still on? How explicit are they?
5. TV Series: "The Bill Cosby Show" Do you remember his role? What show followed his and was number 2?
6. Single TV Show: Super Bowl — Do you have any Giant posters or win any money on the game?
7. Most copies in print of a fiction work: Stephen King's "It" Just out of curiosity, now you'll read it!!
8. Top Model: Paulina Proizokova — Wow!!

9. Number one purchase of recreational sporting equipment: The dear old bicycle. As this goes to the publisher, the last bicycle tire was just manufactured in the U.S.A. What will be next??

Among some of the best sellers for 1986 we find the following:

1. Fruit: Apple
2. Vegetable: Potato — Have you ever seen "Mr. Food" on WRBG? Do you remember Joe Carricione, "Your Green Grocer?"
3. Frozen Food: Minute Maid Orange Juice. For many of you, your really favorite food was what you stashed in your locker as you had no breakfast and lunch was late in the day.
4. Toy: Cabbage Patch Kids — Do your girls have one?
5. Beer: Budweiser
6. Certified Rock and Pop Album: Whitney Houston

Among Top 10 Concert Tours: Can you remember what you saw at SPAC or Glens Falls in 1986?? Below — Rock Videos

## 10. Journey

One of the alarming stories of 1986 was, and continues to be, AIDS. How many well known Americans have died from this dreaded disease? It obviously affects all walks of life. Two fatalities of the disease were Jerry Smith, former football star of the Washington Redskins and more recently, Liberace. Almost 16,000 Americans have died from this disease and almost 211,000 will be victims by 1991.

Now, to change the subject here are some interesting comparisons:

1. Sylvester Stallone's income per movie: up to \$12 Million
2. U.S. Astronaut's Salary: Approximately \$31,000 to \$75,000
3. Average Baseball Salary — Just over \$4000,000. Don Mattingly just signed with the Yanks for \$1,975,000 per year. He turned down \$1,700,000!!
4. Pres. Reagan's Salary — \$200,000
5. Governor Cuomo's Salary — \$100,000

We have a new national holiday: The third Monday of January is now set aside to commemorate the death of slain civil rights leader Dr. Martin Luther King, Jr. Sadly, we note that 12 states refuse to recognize the holiday.

In 1986, who can forget all the hoopla in regard to the 100th anniversary of the Statue of Liberty. Can you remember who originally gave it to us? New York and New Jersey spent most of the year arguing over it's ownership!! We wonder if Emma Lazarus's words, "Give me your Poor, your tired humble masses yearning to be Free" are still applicable in 1986 and in future years?? Don't forget!! 1987 is the 200th anniversary of our Constitution!! Right On!!

Who were some of the people who left us in 1986??

In politics, the Democrats have dented Pres. Reagan's last two years in office. At this writing, it certainly appears that his last two years will be that of the Lame Duck. We'll see. The Democrats have regained the Senate and now control both houses of Congress. There will certainly be some clashes between the executive and legislative branches. Pres. Reagan's dealings with the Iranians in the arms for hostages deal and continued support for the Contras in Nicaragua will continue to be major news stories for quite some time. He has been politically damaged both at home and abroad. His press conferences have not helped his image as he has stumbled over answers to questions and has changed his mind on his answers to important questions. The arms conference in Iceland was a failure. Let us hope 1987 brings the Soviets and the U.S. to the conference table in a spirit of cooperation.

In 1986, Pres. Reagan appointed Associate Judge, William Rehnquist, to be the new Chief Justice. Chief Justice Warren Burgher resigned at age 79 to work on the 200th anniversary of our Constitution. Also, Antonin Scalia, became the first Italian to serve on the Court. He will be another conservative member of the court.

In international politics, it is interesting to note that Ferdinand Marcos is enjoying retirement in Hawaii and his wife Imelda is searching for much needed shoe apparel. He still maintains his share of influence in the Philippines. We hope that Mrs. Corazon Aquino the best of luck in dealing with the tremendous burdens of the Philippino economy and the Communist terrorism within the islands.

The city of Beirut in Lebanon continues to be a battleground among the different Moslem and Christian factions. Ten years ago, it was one of the most beautiful cities in the Middle East. Hostages from the U.S., France, W. Germany, and Gr. Britain, continue to be held. Pres. Reagan ordered all Americans to leave Beirut.

The U.S. took out some of its vengeance in regard to terrorism by attacking Libya and Omar Kadafy. No doubt, he will remain very active with other terrorist organizations in the Middle East.

American and European corporations continue to pull out of South Africa. That country appears to be well on its own way in escalation toward an eventual civil war. The despicable policy of Apartheid continues unabated.

In regard to the environment, the Chernobly tragedy will be with us for many years to come. It is fortunate that many more lives were not lost. However, what the long term effects will be on the people and environment will not be known for years. At this writing, Laplander society may be totally changed by this incident.

There is no doubt the Challenger Tragedy is etched in Americans memory for all time. Where were you when you were informed of this tragic occurrence? Most of you will remember. Many of us could not believe that such a thing could happen. We became complacent with all of our successes. The one person, who will live on in the hearts of children, however, will be Christa McAulliffe. As a school teacher, she was supposed to tour the country and speak about her experiences!!

On a more positive note, none of us will also forget the flight of the Voyager. For Dick Rutan and Heana Yeager, they were the first to complete a non-stop 26,000 mile journey around the world. Right On! It was a proud moment for all Americans. To the crew; you have Chuck Yeager's "The Right Stuff."

Though it occurred in early 1987, we pay tribute to Dennis Connor and the Stars and Stripes. Millions of Americans stayed up into early morning

hours watching he and his crew defeat the New Zealand's Kiwi Magic and the Aussie 12 Meter, Kokaburra III. Mr. Connors lost the Cup in 1983 to the Australian off the coast of New Port. He had been in the hands of the New York Yacht Club for well over a 100 years. He and his crew spent almost 4 years preparing for their challenge. The Cup will now reside with the San Diego Yacht Club. Where the next Cup Series will be held four years from now has not yet been determined, but will be in the next few months.

As we examine the economy of the U.S. for 1986 and early 1987, the story of the year has to be the stock market. The Bulls were at work and the market went over 2000. In fact, the market is currently over 2250. Where this market tumbles and takes the uneventful plunge cannot be predicted by the experts. There are so many ominous signs that point toward a Bear market that one wonders just how far it can be pushed. There were well over 100 bank failures, the farmers in the farm belt continue to lose their farms, manufacturing jobs continue to increase, and the National debt continues to go by the Two Trillion mark. We were over \$150 Billion in the red in our trade. Even though the U.S. dollar continues to lose against the Japanese Yen and German Mark, it hasn't really helped to sell our commodities in those countries. How do we compete against labor costs in Mexico, Hong Kong, Korea, Taiwan, Sri Lanks, Turkey, Brazil and others?? We now have the Yugo and Hyundai. What will be next? Will the Federal Reserve in 1987 keep interests rates down to spur the economy? Will Americans keep those plastic cards in their wallets and save more money? Americans are spenders, not savers! Because OPEC can't get its act together for myriad reasons in the Mid-East and around the world, the current oil glut continues. For how long? Do we conserve and prevent a 1973 Oil Crisis?? This is no time to let up on conservation measures and new methods of energy. Also, as we continue into 1987, what happens to the Japanese economy. Will they experience the painful American experience of unemployment??

Locally, there will be more layoffs at G.E. in 1987. However, it has also been announced that G.E. is here to stay and that they expect the employment level to be approximately 12,000. That is 15,000 less than what it was 15 years ago. The Ford Motor Company will continue to phase out its

radiator operation in Green Island. Some of the workers have and will have employment available in Michigan.

The leather industry continues to suffer its woes predominantly caused by cheap labor in the orient and South America. They even find it difficult to compete for skins here in the U.S. Also, they must continue to deal with ever increasing pressure from both the State and Federal Government to clean up the toxic wastes from the processing of these skins. Now that the Cabbage Patch craze has passed, what Coleco will emphasize in its local operation remains to be seen. More and more of its work is going to Taiwan and Korea. A good deal of their work here is packaging. As is the case in so many of the areas around the country, this geographic area needs a boost. Saratoga County continues to grow at tremendous rates.

As this is being written, the Broadalbin and Perth School Districts are in the processing of attempting to amalgamate the two districts. Two years ago a merger missed by only a hand full of votes. This time, Broadalbin is attempting an annexation. If successful, the Perth School District will cease to exist. The name of the new district will be Broadalbin-Perth. Each community would have a grammar school. However, the high school would be in Broadalbin and Perth would have a junior high consisting of grades 6, 7, and 8. An enlarged school district would be advantageous to both students and taxpayers. The state offers tremendous tax incentives for a merger. Obviously, there could be a much more efficient use of the teaching staffs and eventually, a greater number of courses offered to students. If the petition drive is successful, by the middle of March, the Commissioner of Education will call for a special election in the two districts. If both districts vote affirmatively, the two will then become a single district. Right now, there are many mixed emotions on both sides, but in particular, on the part of the Perth students. From their perspective, they do not want to lose what they feel is rightfully theirs; their own school. If the annexation does occur, the district would then consist of approximately 1600 students.

We, the very small staff of the 1987 Highlander, want to extend our thanks to the Perth Board of Education. There is no doubt that the Pres. of the Board, Mr. Jack Steenburgh, Mrs. Barbara Singer, Mr. Robert Marotta, Mr. Frank Kozlowski, and Mr. Bill Williams, have diligently worked hundreds of hours this past year. For this, they receive no remuneration in regard to salaries. At times, they must feel that this is a thankless job. It is not an easy job as you are at the forefront of the public's criticisms, and at times, the students themselves. Indeed, we want to thank you for your dedication and devotion to the school district and the student body. Thanks!!!

## LAST WILL AND TESTAMENT

We, the Class of 1987 leave to the Class of 1988 all of our yearbook materials — our typewriters, our grease pencils, and our financial debts.

We, the Class of 1987, predict that by the year 1997, three yearbook editors will have committed suicide, while the others will be living at Bellevue.

## The Noteworthy Company and Ecology

*The Mohawk Valley

America's journey to  
greatness.*

Blessed  
Kateri  
Tekakwitha

ECOLOGY is very much a part of the area's history as well as its present and future. Its roots go back to the Mohawk Indians, people of the soil who called the earth Mother, the sun Father and the animals of the forest their brothers. Their special understanding of nature was divinely personified by Kateri Tekakwitha, who was beatified by Pope John Paul II in 1980. Ecology got its renewed impetus in 1954 with the establishment of The Noteworthy Company, America's first and largest producer of litterbags. Through aggressive and innovative promotions, Noteworthy raised the conscience level of Americans to respect themselves, their communities and country. Through involvement they joined together to address the problems and needs in today's society.
