Panorama Student, Family, & Staff Survey Results

We would like to thank our entire community for your participation in the annual Panorama student, family, & staff surveys. We had 205 participating families, which represents just over 50% of our community who took part in the survey. The information derived from all our stakeholders is very important in planning for the next school year as well as working toward continued improvement in service of our students and families. Please click on the link below

for a letter from Mr. Gooding summarizing the results and laying out the key points in our planning for the 2023-2024 school year.
