Introduction to the Crochet Hook:

- **Throat** – The part of the hook that guides yarn into the working area of the project.
- **Point** – Insert this part of the crochet hook into chains and stitches.
- **Grip** – This part includes the thumb rest and the label indicating which size the hook is.
- **Shaft** – This part of the crochet hook determines the hook size. The size of the shaft determines the size of the yarn loops.
- **Handle** – This is where you hold the hook while you crochet.

Take a look at the image above that shows all the **parts of a crochet hook** and what they are used for during crocheting.

BASIC STITCHES

Slip Knot

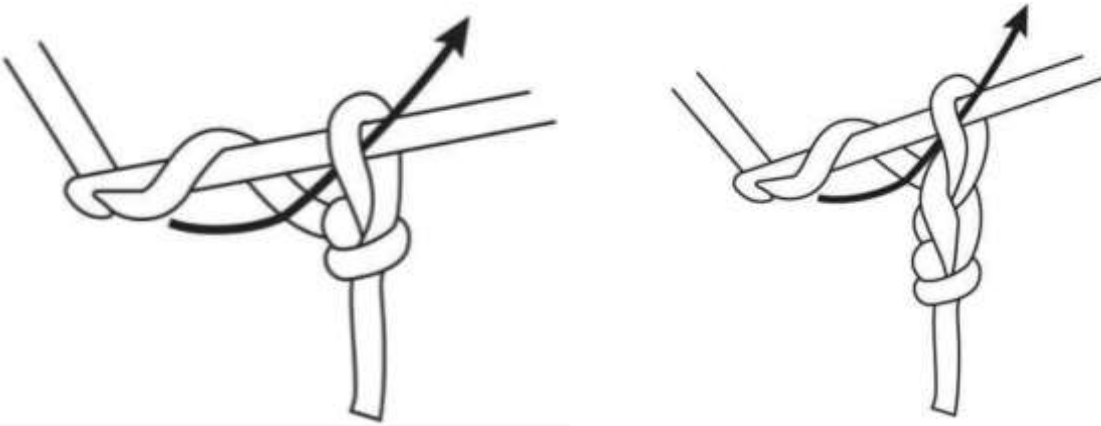

Beginning at least 6" (15 cm) from the end of the yarn, make a loose loop, laying the loop on top of the yarn as it comes out of the ball. Use the crochet hook to grab the yarn, and tighten the loop to fit snugly on the hook.

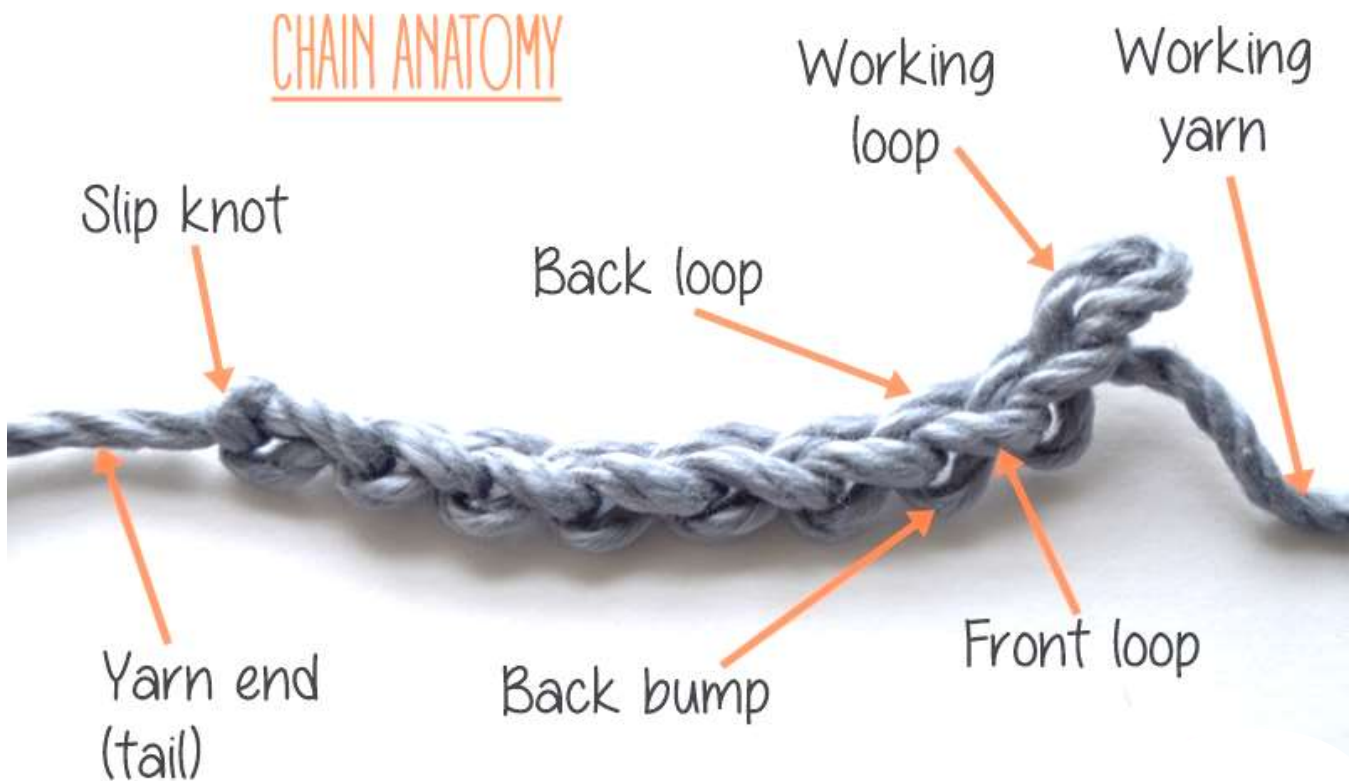

Chain (ch)

Place a slip knot on your hook. Yarn over the hook and draw it through the loop on the hook to form the first chain. Repeat this step as many times as required.

Note: In patterns, the loop on the hook is not included when counting the number of chain stitches.

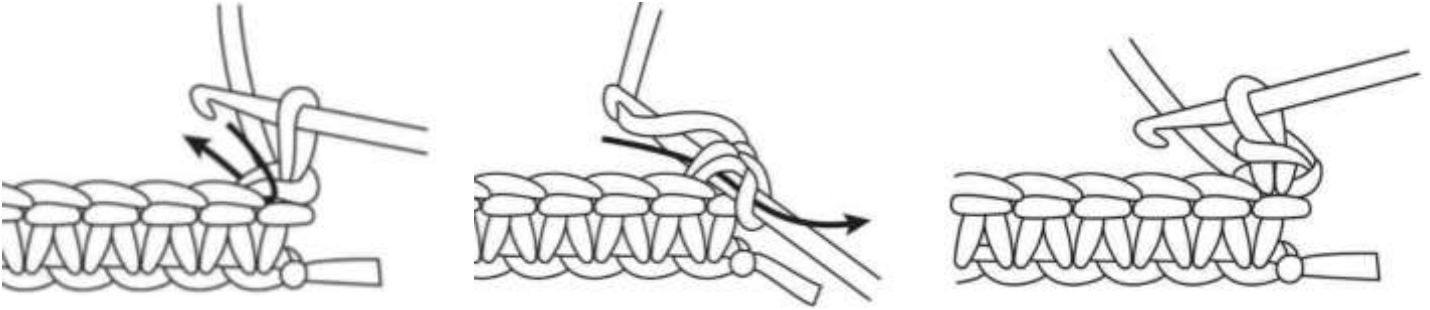

The beginning chain has three loops: top loop, bottom loop, and back ridge loop. The top loop and bottom loop form a “V” shape on the front side of the chain. The back ridge loop is the loop in the middle of the stitch on the back side of the chain.

Slip Stitch (sl st)

Insert the hook in the indicated stitch, yarn over the hook and draw it through both the stitch and the loop on the hook.

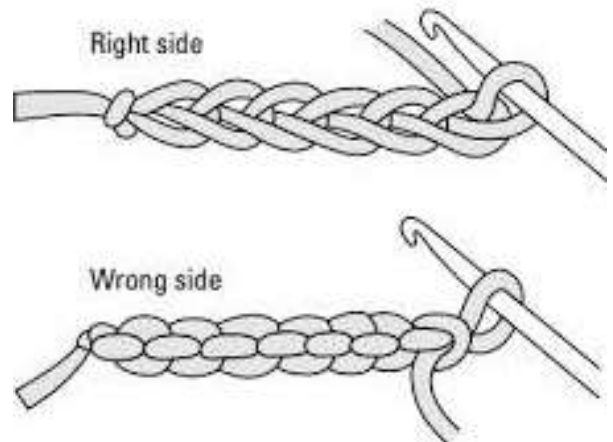

Let's make a cord using the chain and slip stitch!

Step 1: Chain 30

Step 2: Turn the chain over to work with the back bump.

Step 3: Slip Stitch into the 2nd back bump from the hook.

Step 4: continue sl st across

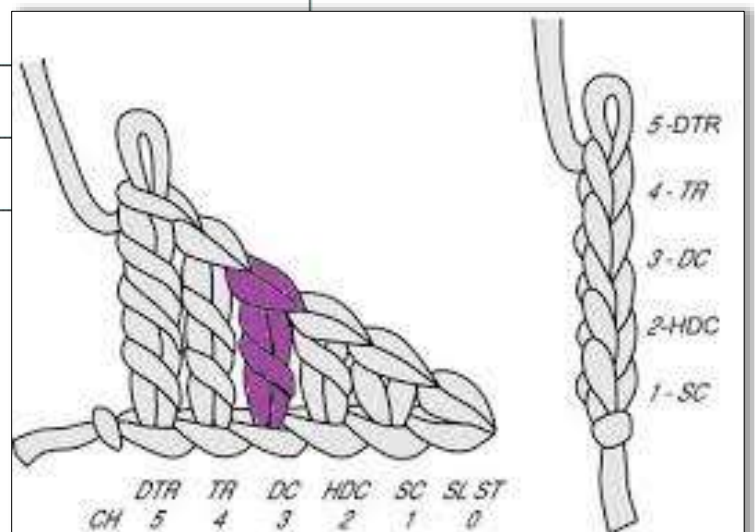

Turning Chains

At the end of each row or round, a turning-chain is used to bring the hook and yarn to the height required for working the next row or round. A row of single crochet stitches, for example, has the same height as a single chain stitch, so before moving from one row of single crochet to another, you must chain one stitch to turn.

In all cases except single crochet, the turning-chain counts as the first stitch of the next row. After chaining three stitches to turn for a row of double crochet, for instance, you would insert your hook in the second stitch of the row; your last double crochet stitch would be worked in the top of the turning-chain-3 at the end of the row.

Refer to the following chart for recommended turning-chain heights:

Crochet Stitch	Corresponding Turning-Chain
Single crochet	Chain one
Half-double crochet	Chain two
Double crochet	Chain three
Triple crochet	Chain four
Double triple crochet	Chain five

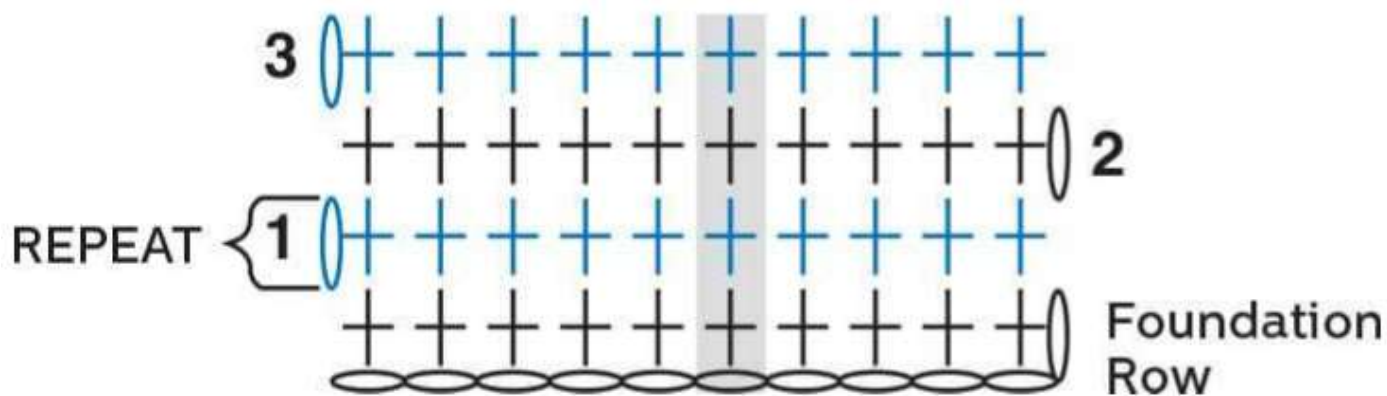

SOLID SINGLE CROCHET

Chain any number of chains.

Row 1: Ch 1, sc in each sc across, turn.

Repeat Row 1 for the pattern.

Rather than working in both loops of the indicated stitch, insert the hook under the back or front loop only, and complete the stitch the ordinary way.

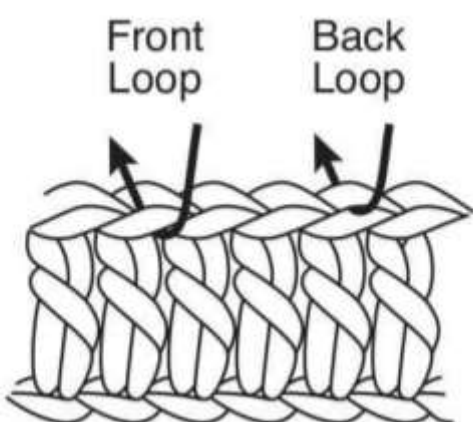

FRONT LOOP SINGLE CROCHET

Chain any number of chains.

Foundation Row (RS): Sc in the second ch from the hook and in each ch across, turn.

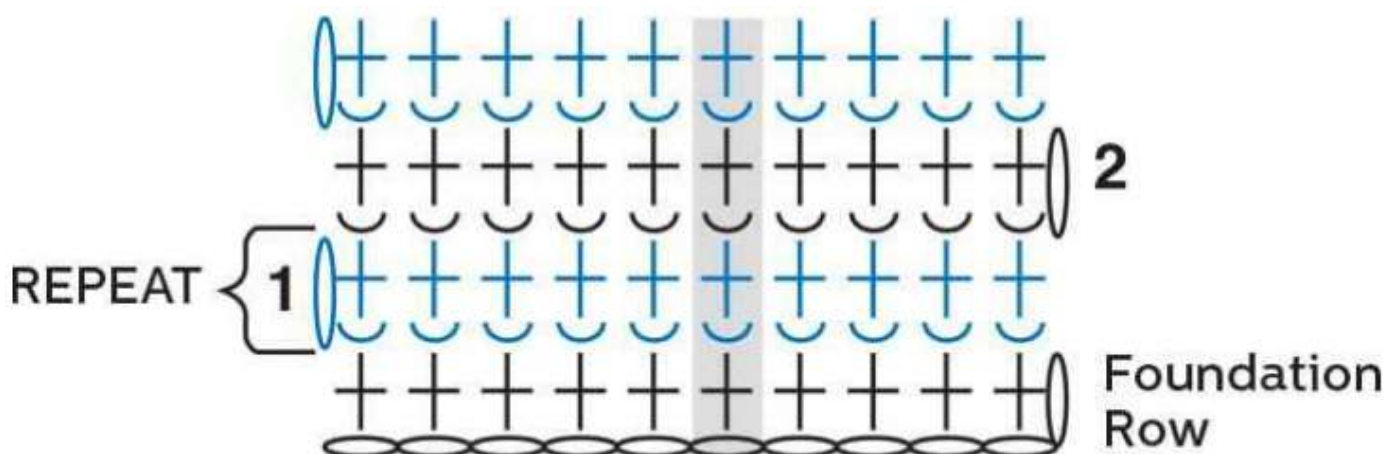

Row 1: Ch 1, sc in the *front loop only* on each sc across, turn.

Step 1: ch 121, make a sl st into into the back bumps on the second ch from hook and each ch across, cut the yarn and weave all the ends.

Step 2: Thread the drawstring into the bag at the side in round 18. Weave the drawstring through each loop all the way around the bag. We will repeat the same with the second drawstring starting from the opposite side so there are drawstrings placed evenly on both sides of the bag. Make sure that the drawstrings are at the sides of the bag, then tie a knot at the ends.

How to make the magic ring

1. Lay the yarn over the index finger.

2. Grab the yarn and turn to make a loop.

3. Pinch the loop where the yarn crosses over

4. Place another finger in the ring to hold it steady as you place your hook inside to yarn over.

5. Grab the yarn and pull through the ring.

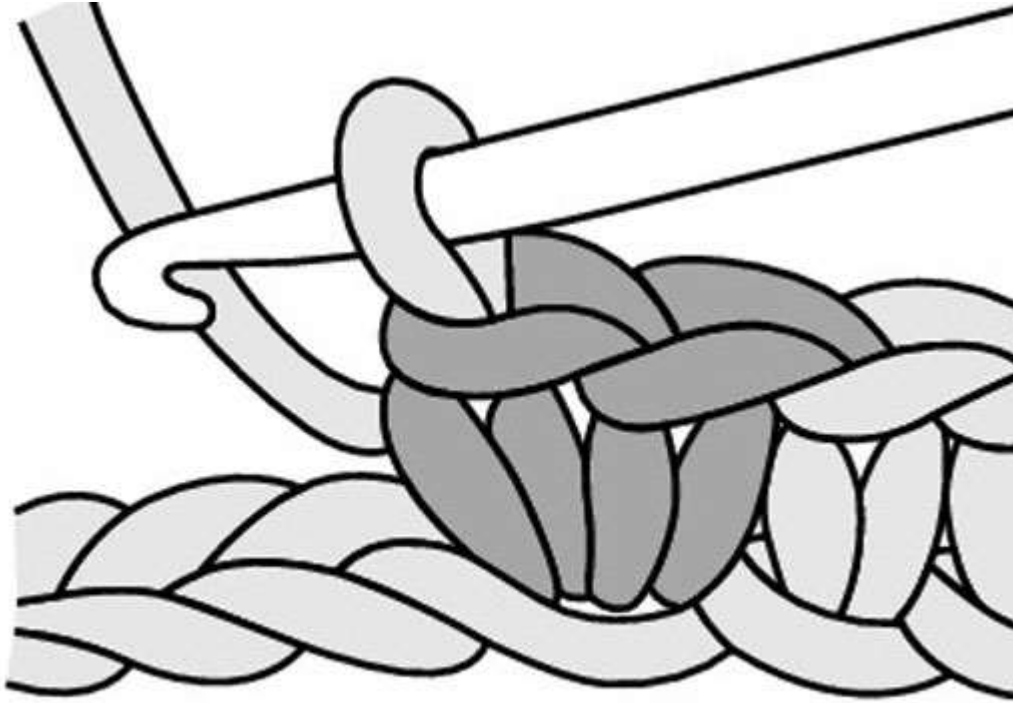

6. Yarn over and pull through the loop on the hook.

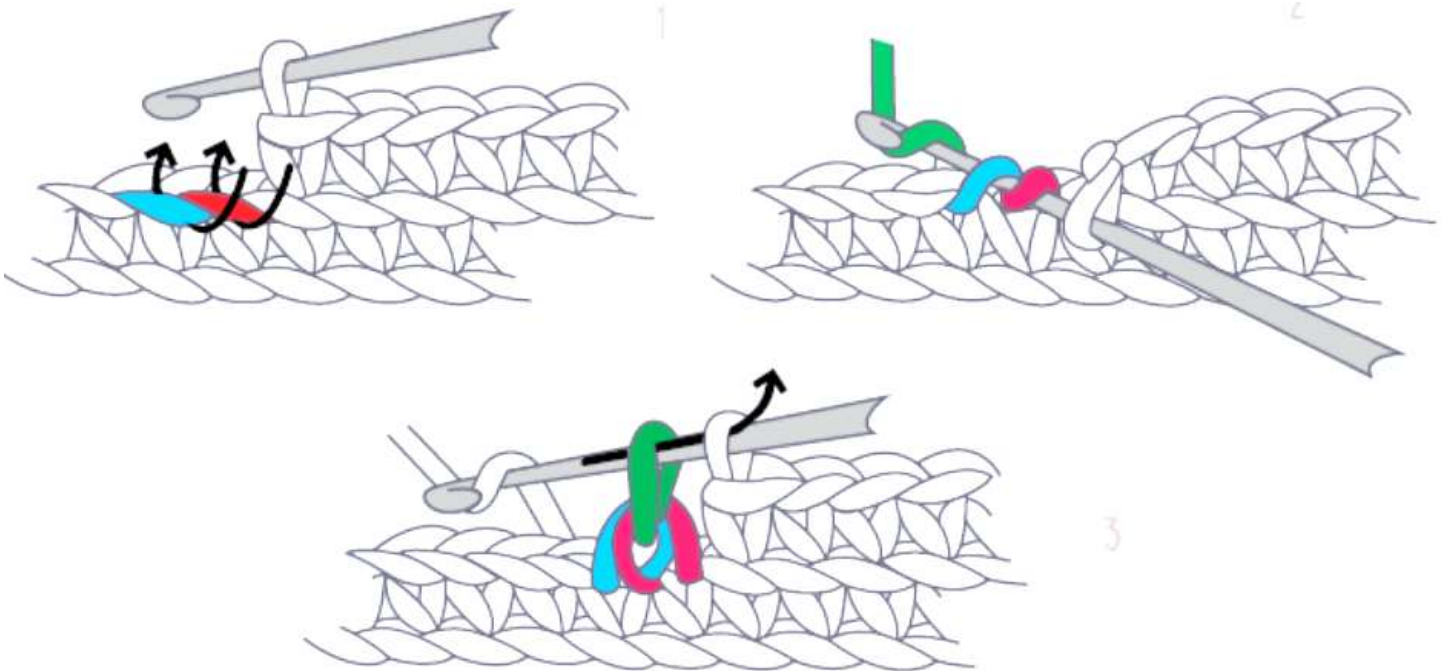

7. You have created the magic ring.

Corner to Corner Afghan

Starting Chain: The first thing you need to do is create a short starting chain of 6. This will be the foundation chain into which you will work row 1, which will be the first corner box.

Row 1: Work into the 4th chain from hook. Make dc stitch into that chain and into the next three chains. The first group of chains counts as the first dc, so you will now have one corner block consisting of four dc stitches. All of your blocks are going to be made from four dc stitches.

Row 2 – Part A: Turn your work and chain 6. This will be the start of diagonal Row 2. Work into the 4th chain from the hook. Similar to Row 1, this is going to create a total of four dc stitches to make the first block of Row 2.

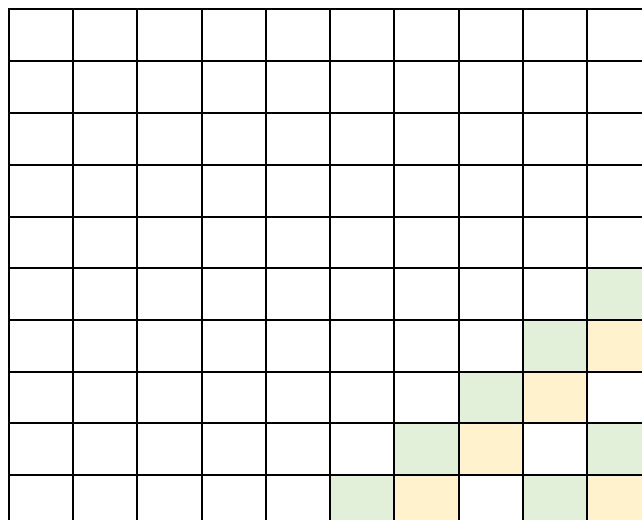

Row 2 – Part B: Now, locate the third and fourth dc stitches from the block in Row 1. Slip Stitch into the space between those two dc stitches. Chain 3. It is going to count as the first dc of the second block of Row 2. Make 3 dc in the same space between the two dc stitches of the block in the previous row, right next to the chain three. This will give you four dc stitches in that space. This creates the second block of Row 2. You now have your first corner block as Row 1 and then two more blocks in Row 2.

Row 3 – Part A: Turn your work and chain 6. This will be the start of diagonal Row 3. Work into the 4th chain from the hook. Similar to Row 1, this is going to create a total of four dc stitches to make the first block of Row 3. *This will be the same thing that you do to begin all the rows while you continue to increase the size of your c2c crochet blanket.*

Row 3 – Part B: Now, locate the third and fourth dc stitches from the block in Row 2. Slip Stitch into the space between those two dc stitches. Chain 3. It is going to count as the first dc of the second block of Row 3. Make 3 dc in the same space between the two dc stitches of the block in the previous row, right next to the chain three. This will give you four dc stitches in that space. This creates the second block of Row 3.

Row 3 – Part C: Slip Stitch into the space between those two dc stitches. Chain 3. It is going to count as the first dc of the third block of Row 3. Make 3 dc in the same space between the two dc stitches of the block in the previous row, right next to the chain three. This will give you four dc stitches in that space. This creates the third block of Row 3.

You will keep growing your work in the same manner, row by row. You add one new block at the beginning of each row. Each row will have the same number of blocks as the row number. (If this is Row 5 and there are five blocks.) Proceed in this same manner until you are satisfied with the size of your diagonal crochet blanket. When your row is as long as you want the midline of your blanket to be, you will be ready to decrease.

Tunisian Crochet

Tunisian crochet is a type of crochet that holds multiple loops on the hook in a similar style as knitting. It differs from knitting in that it uses one crochet hook, not knitting needles. The result is a fabric that is beautifully textured using a technique that combines the best of knitting and crochet.

HOOKS: Tunisian crochet hooks look different than regular crochet hooks. They are long like knitting needles and have a stopper at the end of the hook. Some Tunisian hooks look like a regular crochet hook with a cord attached to the end.

FORWARD PASS AND REVERSE PASS:

When crocheting using a Tunisian stitch, you will never turn your work over. You will always work on the front of the project. Each "row" in Tunisian crochet consists of a forward pass and a reverse pass — pulling up the loops as you work right-to-left collecting loops on your hook and finishing the loops as you work left-to-right releasing the loops from the hook. Together, these two parts make up one row.

HOW TO CROCHET THE TUNISIAN BASIC STITCH:

The basic stitches in standard crochet are things like single crochet, double crochet, etc. The basic stitches in Tunisian crochet are a little bit different. The most important thing to understand is where you will insert your hook. In traditional crochet, we talk about "inserting through the loop" but in Tunisian crochet, we work through the vertical bars.

FOUNDATION ROW: *This is how you begin almost all Tunisian crochet projects.*

Step 1: Crochet a chain the way we normally do.

Step 2: Flip the chain and insert hook into the 2nd bump from the hook.

Step 3: Yarn over and pull up a loop.

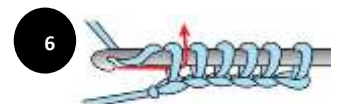

Step 4: Leave that loop on your Tunisian crochet hook.

Step 5: Repeat steps 2-4 across the row. This is your "FORWARD PASS".

Step 6: At the end of the row, do not turn the work. Yarn over and draw through **one loop only**.

Step 7: Yarn over and draw through **two loops**.

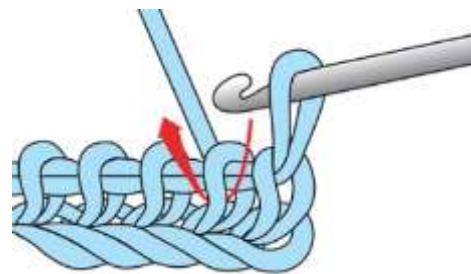

Step 8: Repeat step 7 until there is only one loop left on the hook.

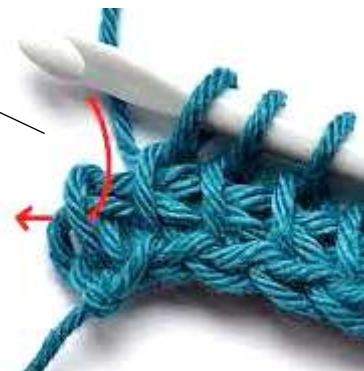

TUNISIAN SIMPLE STITCH (Tss):

Tunisian simple stitch (Tss) is worked through the FRONT vertical bar.

Step 7: Complete the foundation row. Then, insert your hook from right to left, so that the hook goes behind the front vertical bar. With your hook inserted, yarn over and draw up a loop. Leave it on your hook. Repeat across the row.

Step 8: The last vertical bar of the row will be worked differently. Insert the hook through both the front and back bars. This will leave a beautiful edge to your work. This completes the FORWARD PASS.

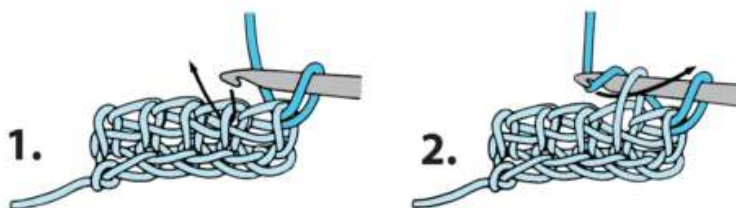

Step 9: Complete the REVERSE PASS the same as the foundation row, meaning that you complete steps 6-8 as described above.

Step 10: Continue the forward pass and reverse pass as described in steps 7-9 until you reach your desired length.

Step 11: To finish your work, you will work a FORWARD PASS in a different way. Insert your hook from right to left behind the front vertical bar. Yarn over and draw up a loop. You should have two loops on the hook. Yarn over and slip stitch through both loops on the hook. Repeat across the row until you reach the end.

Step 12: Fasten off. You can choose to add a border if you prefer.

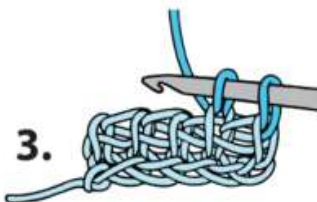

Tunisian Simple Stitch (Tss)

1. Insert hook from right to left behind single vertical thread.

2. Yoh

3. Draw loop through and leave on hook.

Example of the Tunisian Crochet Simple Stitch {Right Side}

Simple Tunisian Crochet Ear Warmer

Step 1: Make a slip knot and chain 17.

Step 2: Follow the steps to making the Foundation Row on pg. 42.

Step 3: Follow the steps for the Tunisian simple stitch on pg. 43 for **55 rows** then finish by completing step 11 on pg. 43. Leave a long tail to sew it together.

Step 4: Turn the work over with the wrong side up. Bring the two ends together and weave in the long tail using a whip stitch. Go under both loops on each end and whip stitch. You should have 17 whip stitches.

THE 5 FACTORS THAT IMPACT YARN USAGE

- 1. Yarn Weight** - Thicker yarn takes up more space within your project, as shown by it's wraps per inch (WPI).
- 2. Size of Project** - The bigger your project is, the more yarn it will consume.
- 3. Types of Stitches** - Certain crochet stitches use more yarn than others. (e.g. A single crochet uses way less than a bobble)
- 4. Crochet Hook Size** - A hook's size determines how close together the stitches will be. (e.g. A smaller hook uses more yarn)
- 5. Tension & Gauge** - Looser personal tension will create fewer stitches per square inch, while tighter tension will create more.

DID YOU KNOW?

A "drape" will allow the blanket to hang down the sides of the mattress anywhere between 8-20 inches (20-50 cm).

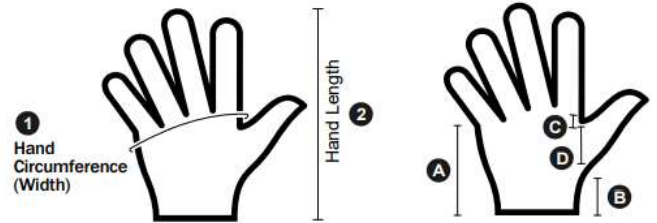

Our blanket sizes include 8-10" (20-25 cm) extra on three sides to account for the drape.
