

Importing Google Classroom Assignment Scores into Aeries

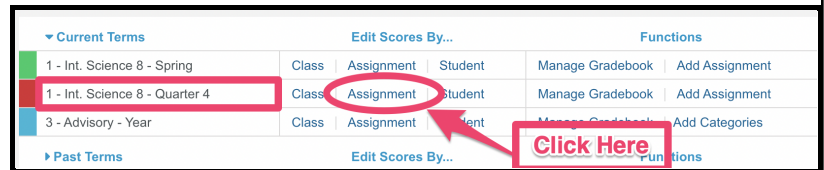

Importing Google Classroom Assignment Scores into Aeries

- Student assignment scores will import into your Aeries automatically.
- Grade all assignments in Google Classroom first, return grades to students, then import them to Aeries.

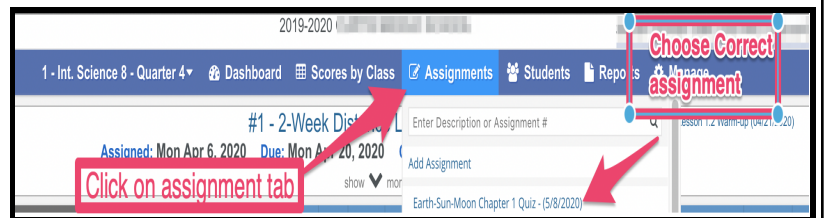

Log into Aeries and open up your gradebook.

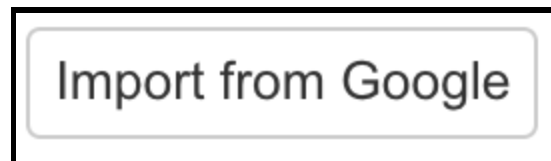

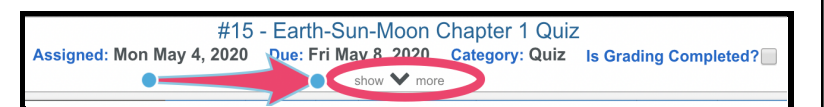

Choose the gradebook you wish to import the scores into and then click on the **Edit Scores By** "Assignment" option.

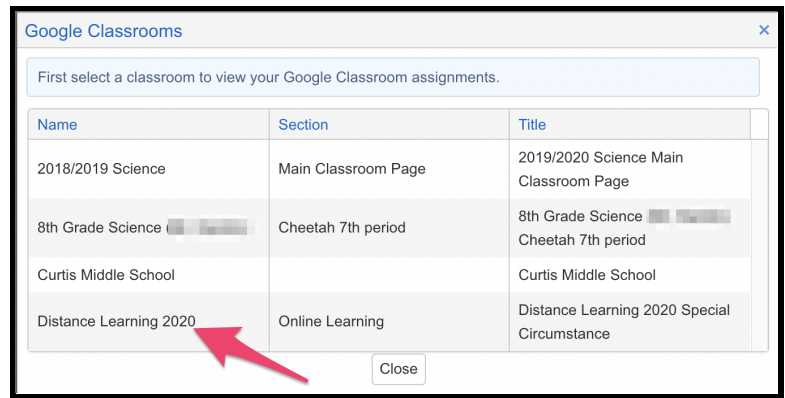

Click the **Assignment** tab and choose the assignment you want to import your scores into.

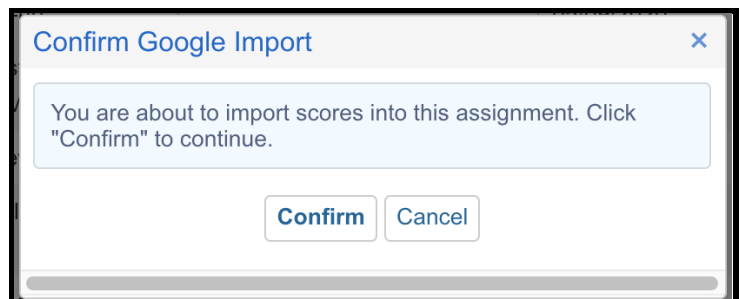

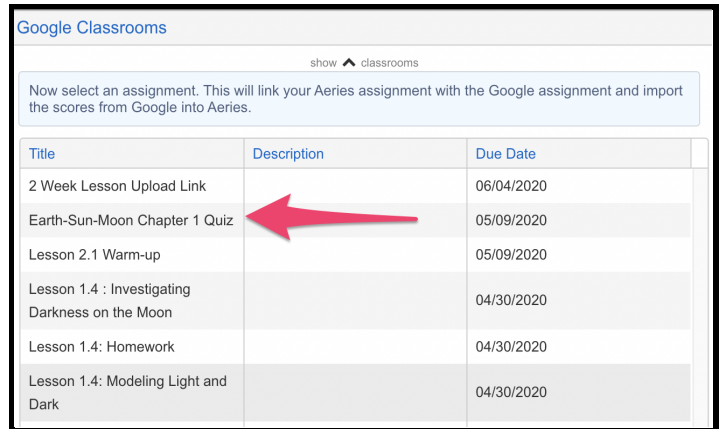

Click the **show more** drop-down arrow and then click the **Import from Google** button.

Choose the Google Classroom class you want to import scores from.

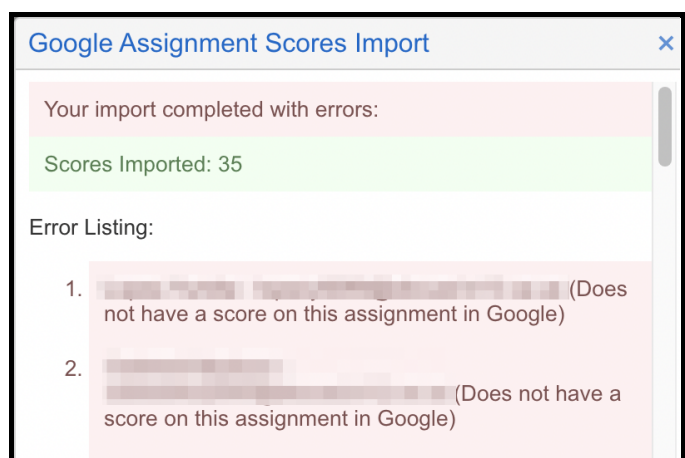

After Aeries loads your Google Classroom assignment, choose the assignment you want to upload and click **Confirm** to continue.

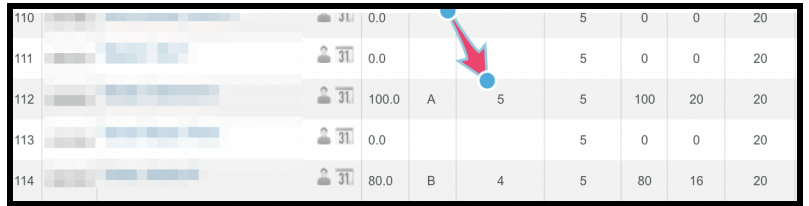

When the grades have loaded, you will get a summary prompt detailing how many grades were imported and any errors that occurred. After analyzing the details press ok.

**Note: The errors indicate students who did not complete the quiz and therefore no grade was uploaded for them.*

You have now successfully imported your quiz assignment from Google Classroom to Aeries.

| | | | | | | | | |
|-----|--|-------|---|---|---|-----|----|----|
| 110 | | 0.0 | | | 5 | 0 | 0 | 20 |
| 111 | | 0.0 | | | 5 | 0 | 0 | 20 |
| 112 | | 100.0 | A | 5 | 5 | 100 | 20 | 20 |
| 113 | | 0.0 | | | 5 | 0 | 0 | 20 |
| 114 | | 80.0 | B | 4 | 5 | 80 | 16 | 20 |

You can repeat this process as students continue to submit their work.
