Linking Aeries to Google Classroom (Secondary)

You can create your Google Classrooms by opening http://classroom.google.com . Title your classrooms so they are easy to identify. After your classrooms are set up, open and log into Aeries.

Linking Google Classroom to Aeries
- Student rosters will import into your Google Classroom automatically.
- Student rosters in Aeries will be updated (added and dropped) from your Google Classroom nightly.
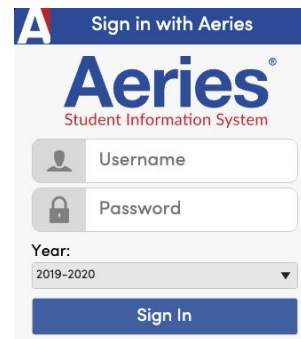

Create your Google Classroom with a title that easily identifies with the course.	**Newhouse-Peer Tutoring 20-21**

Sign into Aeries. Log into sbcusd.asp.aeries.net/teacher to get started.
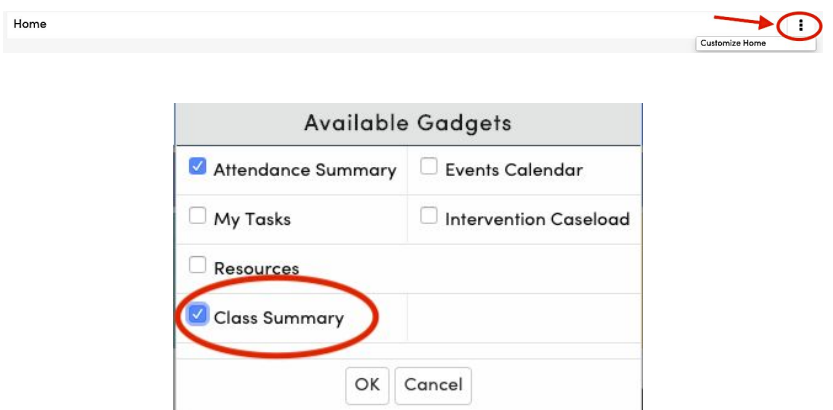

Username:
sbc-district\firstnamelastname

Password:
Your district network/email password

View the **Class Summary** on the Home screen.

*Note: If you do not see the **Class Summary** on the home page:*
*click the three dots in the upper right corner of your Aeries window.*
- *Select **Customize Home***
- *From the **Available Gadgets**, check the **Class Summary** option. Click **OK.***
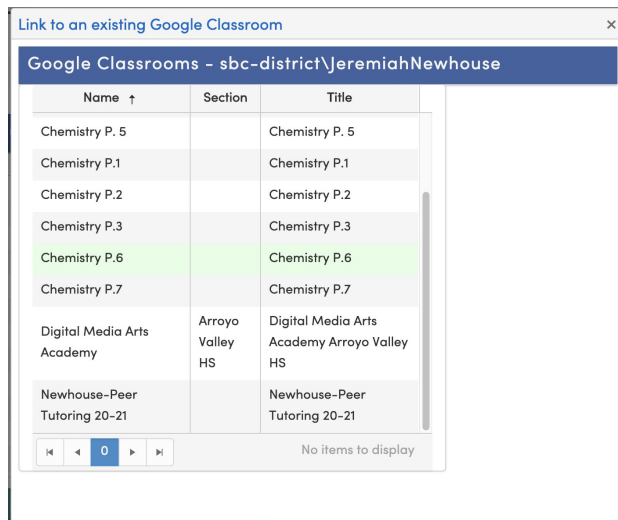

Select the class you would like to import to Google Classroom and click on the **Add Website** button.
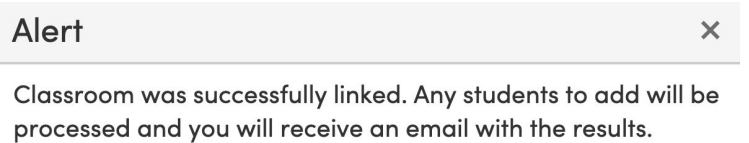

In the popup window, select **Link** to connect your existing Google Classroom to Aeries.	
Select the appropriate Google Classroom from your list of classrooms.	
Once the classroom is created, an alert will let you know that the process is complete.	

New students will be added to your Google Classroom nightly, after they are added to your section in Aeries.
