2021/2022 Budget - General Information

Budget Management

The budget is managed through a centralized accounting system where over 2,000 accounts are distributed between ten administrators having budget responsibility. These administrators receive printouts from the business office monthly to update them on the financial position of each of their accounts. It is their decision as to items which merit purchase and inclusion in budget requests. Budget reductions, when necessary, are prioritized by the administrative team and then adjusted in the budget if warranted. The administrative team and School Board have maintained effective control over the district's assets as evidenced by the healthy fund balance maintained for the district.

Legal Requirements

The State of Pennsylvania requires all school districts to prepare budgets for their general fund which account for the day-to-day operations of the school district. The budgets are prepared in accordance with generally accepted accounting principles, and accounting during the year must also meet these standards. Budgets must be approved by June 30 for the fiscal year beginning July 1, and ending June 30 the subsequent year. Expenditures cannot exceed the budget by major function and object during the fiscal year without board approval, and actual total expenditures may not exceed the total budgeted expenditures for the year. Budgetary transfers are presented for the board's consideration no sooner than 90 days after the start of the fiscal year.

An annual audit by a CPA is required at year end and single audit requirement must be met if applicable. State compliance audits are also performed every two years.

Capital Projects Fund

In the past, unexpended funds from the general fund and healthcare settlements have been transferred into this fund to pay for major projects throughout the district. The projected amount of the fund at June, 2021 is approximately \$3,000,000 and some of the major projects that need to be funded are listed below. The board authorizes the uses of this fund to maintain proper controls. The **abbreviated** list of capital projects is as follows:

^{* -} Amount of district fund balance utilized to balance the budget

Opening Balance

- The total fund balance as of 7/1/20 was \$4,817,801 and at this time it is difficult to project ending fund balance for 20/21. The District allocated \$474,886 to balance the budget last year and has the option to utilize additional fund balance this year. For 2021/22, \$680,749 has been allocated from fund balance to offset curriculum allocations, and budgetary reserve. Of the \$680,749 fund balance to be used, \$100,000 is coming from PSERS Reserve and \$100,000 from Healthcare Reserve.

Local Revenue

- 90.3% of local sources is local current real estate tax.
- Total District assessment increased (1.41%).

State Revenue

- The basic subsidy is projected at 20/21 State budget total and the special education subsidy is assumed at the 20/21 levels as well. There are increases in Social Security revenue due to increasing salaries and the increase in Retirement revenue is due to a higher rate set by the Retirement Board.

Also, there is an allocation of \$1,538,941 for property tax reductions from gambling proceeds and Sterling Act credits.

Federal Revenue

- Federal program revenue increased based on previous years' allocations.

^{** -} includes a 0.6703 mill increase to current (20/21) millage rate of 36.7205 mills. (New millage figure is 37.3908 mills)

Lower Moreland Township School District Building Allocation – Zero-Based Budgeting 2021/22 Budget Year

Starting with the 2019/20 budget year, the Lower Moreland Township School District implementing a zero-based budgeting model for building allocations for all three buildings. In previous years, each building was assigned a perp pupil allocation based on projected enrollment for the upcoming school year. Zero-based budgeting changed that philosophy and reflected a more realistic approach to budgeting at the building level. In essence, each principal was asked to review the past 3 years' worth of budgeting and determine what is actually needed in the building as opposed to what was thought to be needed in the building. The results are denoted below as well as the previous years' per-pupil allocation for comparison purposes.

School	2021/22 Zero Based	2020/21 Zero Based
Lower Moreland High School	\$185,700	\$177,010
Murray Avenue School	\$133,104	\$133,010
Pine Road Elementary School	\$189,954	\$190,668

This process will continue in future years.

future births as explained on the preceding page. Since these future birth estimates only begin to impact kindergarten enrollment beginning with the 2020 school year, Figures 24, 25, 26, and 27 offer four variations of grade by grade projections over the next ten years. The first two scenarios are differentiated by the estimates of

lower numbers of the last five years. Option 2 uses a higher birth estimate based on incremental. Option 3 includes the higher birth estimates from Option 2 and makes the first four years, or most of the primary period, are identical for each of the first two scenarios. Option 1 is based on birth activity remaining consistent with the anticipated changes in age cohort demographics and makes the increases

adjustments to account for an expected increase in housing construction compared to the last six years. These adjustments account for public and private school choice along with the type of housing and its impact in terms of school age children. Option 4 expands on the housing adjustment to include all potential development.

Option 3 is the starting point for identifying the most likely scenario, but at least some of the additional development identified in Option 4 is also expected to occur. Therefore, it is suggested that the most likely results are going to be somewhere in between Options 3 and 4. See page 33 for further details on the housing adjustments made.

ENROLLMENT PROJECTION

Enrollment projections were developed after analyzing the data collected in this report. The projections indicate an increase of 350 students (or approximately 15%) from the 2018-19 to the 2028-29 school year. The following tables and graph illustrate projected enrollments by grade and by grade group through the 2028-29 school year.

8000 - Federal Revenue

Highlights of Changes

- All projected federal project grants have been budgeted for on both the revenue and expenditure sides of the budget. If there are shortfalls in any revenue categories, they will be offset by a reduction in federal expenditures. The figures are based on actual program budgets from 2018/19. (Budgeting separately for the Title IV program was new for 2018/19).
- 8732 QSCB Revenue-

The revenue is received from the federal government to offset debt service payments on the 2011 QSCB borrowing.

Summary of Significant Accounting Policies

Reporting Entity

Lower Moreland Township School District is governed by an elected nine member Board of Directors. As required by generally accepted accounting principles, financial statements present the School District (the primary government). Certain potential component units were assessed to determine if the financial relationship with the School District would require inclusion in the reporting entity.

The School District lies completely within the Township of Lower Moreland. The one municipality is a primary government and therefore not a component unit of the School District.

Basis of Presentation

The accounting system of the School District is organized and operated on the basis of fund accounting with each fund or account group being a separate accounting entity with a set of self-balancing accounts which comprise of assets, liabilities, and fund balance/retained earnings, revenues and expenditures as appropriate. School District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped into six fund types within three broad categories as follows:

a) Governmental Funds:

General Fund is the general operating fund of the School District. It is utilized to account for all revenues and expenditures except those required to be accounted for in another fund.

<u>Debt Service Fund</u> is utilized to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest, and appropriate costs arising from general obligation bonds.

<u>Capital Projects Fund</u> is utilized to account for the financial resources to be used for the acquisition or construction of major capital facilities.

<u>Special Revenue Fund</u> is utilized to account for the proceeds of specific revenue sources that are restricted for specific purposes.

b) Proprietary Funds:

Enterprise Fund (Food Service Fund) is authorized under Section 504 of the Public School Code of 1949 to account for all revenues and expenses pertaining to cafeteria operations. The Food Service Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises where the stated intent is that the costs (i.e. expenses, including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

c) Fiduciary Funds:

<u>Trust and Agency Funds</u> are utilized to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Activity funds are reflected as agency funds but are segregated from other agency funds because of legal requirements. They are utilized to account for monies authorized by Section 511 of the Public School Code of 1949 for school athletics, publications and organizations.

<u>Account Groups</u> – In addition to the funds listed above, the School District maintains two account groups – General Fixed Assets and General Long-Term Debt. The account groups are not "funds"; they are only concerned with the measurement of financial position, not the results of operations.

General Fixed Assets – All fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group rather than in governmental funds. Fixed assets related to food services are accounted for in that fund and are considered fund fixed assets.

General Long-Term Debts – General long-term debt represents all long-term debt obligations and other long-term liabilities of the School District that are expected to be financed from governmental funds. General long-term debt is not limited to liabilities evidenced by formal debt instruments (bonds, warrants, notes, etc). It may also include, but is not necessarily limited to, long-term liabilities arising from judgments and claims, and accumulated unpaid vacation, sick pay and other employee benefit amounts. Any long-term liabilities of the proprietary fund are accounted for through that fund and are considered fund long-term liabilities.

Basis of Accounting

Basis of accounting refers to the timing of recognition of revenues and expenditures or expenses in the accounts and in the financial statements, regardless of the measurement focus.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and expendable trust funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

The proprietary fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of this fund are included on the balance sheet. Proprietary fund type operating statements present increases (i.e. revenues) and decreases (i.e. expenses) in fund equity (i.e. net total assets).

Modified Accrual Basis

The modified accrual basis of accounting is followed for all governmental type funds of the School District. Under the modified accrual basis of accounting, expenditures, other than interest, discount accretion and principal payments on long-term debt which are recorded on their payment dates and the liability for compensated absences which is included in the General Fund to the extent that it will be liquidated with expendable available financial resources, are recorded when the fund liability is incurred. Revenues are recognized when they become susceptible to accrual, i.e. measurable and available to finance the School District's operations. Available means collectible within 60 days after fiscal year-end. The modified accrual basis of accounting is used for the General Fund, Debt Service Fund, Capital Projects Fund, Special Revenue Fund, Expendable Trust Fund and Agency Funds as follows:

(i) Property Taxes:

<u>Current Revenue</u> – These are taxes levied as of a specific date with a legal, enforceable claim against the taxpayer and/or property. These taxes are recognizable as current revenue when received by the School District during the fiscal year and also estimated to be received by the School District within 60 days after the close of the fiscal year.

<u>Deferred Revenue</u> – Those currently levied property taxes which are not estimated to be received by the School District with 60 days after the close of the current fiscal year are recorded as deferred revenue.

- (ii) Revenue from State Sources: State subsidies due the School District as current fiscal year entitlement are recognized as revenue in the current fiscal year even though such funds will be received in a subsequent fiscal year.
- (iii) Revenue from Federal Sources: Federal program funds applicable to expenditures for the same program in the current fiscal year but expected to be received in the next fiscal year are accrued as current revenue at the end of the current fiscal year along with the recognition of the federal funds receivable.
- (iv) Tuition Revenue: Tuition is due from other school districts and non-residents utilizing the School District's instruction services. Revenue is recognized for services rendered to the extent they are considered collectible.

(v) Expenditures:

<u>Inventory Items</u> – Inventory type items (e.g. materials and supplies) are considered as expenditures when purchased (purchase method).

Other – Expenditures for insurance and similar services extending over more than one accounting period are accounted for as expenditures during the period of usage. Interest and discount accretion on long-term debt are recognized as an expenditure on the due date of the payment.

Accrual Basis of Accounting

Under the accrual basis of accounting, revenues are recognized in the accounting period they are earned and become measurable; expenses are recognized in the period incurred. The accrual basis of accounting is used for proprietary funds. Also, with the advent of Government Accounting Standards Board Statement #34 (GASB 34), the accrual basis of accounting needs to be applied to all government funds. However, the modified accrual basis is also to be maintained. Therefore, there are conversions done at the end of the year to convert the financial statements from modified accrual basis to full accrual basis and both sets of statements are presented.

Budgets

The School Board approves, prior to the beginning of each year, an annual budget on the modified accrual basis for the General Fund. This is the only fund for which a budget is required and for which taxes may be levied. The Public School Code allows the School Board to authorize budget transfer amendments beginning 90 days after the start of each fiscal year. The School District's management does not have the authority to approve the budget or any budget transfer amendments. The School District expenditures may not legally exceed the revised budget amounts by major function and object. Function is defined as a program area

such as instructional services, and object is defined as the nature of the expenditures such as salaries or supplies.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund.

Classification of Revenue and Expenditures

The Pennsylvania Department of Education has adopted a system for the classification of revenue and expenditures based on generally accepted accounting standards for school entities. The system is used for budgeting, accounting and financial reporting in compliance with Generally Accepted Accounting Principles (GAAP), as established by the Government Accounting Standards Board (GASB).

The classification and coding structure to record financial transactions under the accounting system provides for three (3) basic types of activity: (1) revenue and other financing sources, (2) expenditures and other financing uses, and (3) transactions affecting the balance sheet only. For each type of transaction, the specific account code is made up of a combination of dimensions. Each dimension describes one way of classifying financial activity.

As required by the Pennsylvania Department of Education, the District classifies revenue by fund and revenue source dimensions. Revenues are disaggregated into four (4) sources; (1) Local Sources, (2) State Sources, (3) Federal Sources and (4) Other Sources. Local sources include such receipts as property taxes, interim taxes, delinquent taxes and interest on investments. State sources include monies received by the District from the Commonwealth of Pennsylvania among which are funds to support basic instructional needs and special education services. Federal sources are those funds provided by the federal government, the largest of which includes the Title I and Title II programs. Other sources of revenue would denote funds from sources not classified above such as the sale of fixed assets.

The Department of Education also requires the District to classify expenditures by a combination of dimensions. The required expenditure dimensions include: fund, function, object, funding source, and instructional organization.

The functional dimension is used to classify expenditures according to the principal purpose for which expenditures are made (i.e. Instruction, Support Services, etc.). As used in the expenditure classification system, the object dimension applies to the article purchased or the service obtained (i.e. Salaries, Benefits, Supplies, etc.).

The District is legally required to prepare budgets at the fund, function, and object level of classification. Accordingly, revenue and expenditures are presented herein at the level required by the Department of Education.

GLOSSARY OF TERMS

This Glossary contains definitions of terms used in this guide and such additional terms as seem necessary to common understandings concerning financial accounting procedures for schools. Several terms that are not primarily financial accounting terms have been included because of their significance for school financial accounting.

ACCOUNTING SYSTEM

The total structure of records and procedures which discover, record, classify and report information on the financial position and operations of a school district or any of its funds, balanced account groups and organizational components.

ACCOUNT CLASSIFICATION

The numerical coding structure as developed by the Pennsylvania Department of Education for identifying, classifying and posting financial records. Two of the major components to the account structure are the function codes and the object codes. The major function and object codes are described in the pages following the glossary as Appendix A.

ACCRUAL BASIS

The basis of accounting under which revenues are recorded when levies are made, and the expenditures are recorded as soon as they result in liabilities regardless of when the revenue is actually received or the payment is actually made. See also ESTIMATED REVENUE AND EXPENDITURES.

ACCRUE

To record revenues when earned or when levies are made, and to record expenditures as soon as they result in liabilities, regardless of when the revenue is actually received or the payment is actually made. Sometimes, the term is used in a restricted sense to denote the recording of revenues earned but not yet due, such as accrued interest on investments and the recording of expenditures which result in liabilities that are payable in another accounting period, such as accrued interest on bonds. See also ACCRUAL BASIS.

APPROPRIATION

An authorization granted by a legislative body to make expenditures and to incur obligations for specific purposes. Note: An appropriation is usually limited in amount and as to the time when it may be expended.

ASSESSED VALUATION

A valuation set upon real estate or other property by a government as a basis for levying taxes.

BOARD OF SCHOOL DIRECTORS

The elected or appointed body, which has been created according to State, law and vested with responsibilities for educational activities in a given geographical area. In Pennsylvania, school districts have Boards comprised of nine members elected at large by the voters for four-year terms.

BOND

Most often, a written promise to pay a specified sum of money (called the face value or principal amount), on a specified date or dates in the future, called the maturity date(s), together with periodic interest at a specified rate.

BUDGET

A plan of financial operation embodying an estimate of proposed expenditures for a given period or purpose and the proposed means of financing them.

CAPITAL RESERVE

Funds appropriated for building maintenance and capital projects. A plan is set forth for each project or maintenance item so that appropriate funds may be designated.

COST PER PUPIL

See CURRENT EXPENDITURES PER PUPIL.

CURRENT EXPENDITURES PER PUPIL

Current expenditures for a given period of time divided by a pupil unit of measure (average daily membership, average daily attendance, etc.)

DEBT

An obligation resulting from the borrowing of money or from the purchase of goods and services. Debts of local education agencies include bonds, warrants and notes, etc.

DEBT SERVICE

Expenditures for the retirement of debt and expenditures for interest on debt.

ESTIMATED REVENUE

When the accounts are kept on an accrual basis, this term designates the amount of revenue estimated to accrue during a given period regardless of whether or not it is all to be collected during the period.

EXPENDITURES

This includes total charges incurred, whether paid or unpaid, for current expense, capital outlay, and debt service. (Transfers between funds, encumbrances, exchanges of cash for other current assets such as the purchase and investment of cash in U.S. bonds, payments of cash in settlement of liabilities already accounted as expenditures, and the repayment of the principal of current loans are not considered as expenditures.)

FISCAL YEAR

A twelve-month period of time to which the annual budget applies and at the end of which a local education agency determines its financial position and the results of its operations. Pennsylvania school districts' fiscal year is from July 1 to June 30.

FUNCTION

The part of the account code classification which describes the <u>activity</u> for which a service or material is acquired. Refer to the GLOSSARY - APPENDIX A for a description of the MAJOR FUNCTIONS as defined by the Pennsylvania Department of Education.

FUND

A sum of money or other resources set aside for specific activities of a school district. The fund accounts constitute a complete entity and all of the financial transactions for the particular fund are recorded in them.

FUND BALANCE

The excess of assets of a fund over its liabilities and reserves. During the fiscal year prior to closing, it represents the excess of the fund's assets and estimated revenues for the period over its liabilities, reserves and appropriations for the period.

FUND, GENERAL

The fund used to finance the ordinary operations of the local education agency. It is available for a legally authorized purpose and consists of money not specifically designated for some other particular purpose.

FUND, SPECIAL REVENUE

The fund used to finance special operations of the school district. These operations are legally restricted to expenditures for the special purposes.

LEA

Abbreviation for Local Education Agency; Lower Moreland Township School District is an LEA.

LEVY

(Verb) To impose taxes or special assessments. (Noun) The total of taxes or special assessments imposed by a governmental unit.

MILL

A term used to "measure" the tax rate – one mill of tax generates one dollar for every \$1,000 of assessed value.

OBJECT

The part of the account code classification which describes the <u>service</u> or <u>commodity bought</u>. Refer to the GLOSSARY - APPENDIX A for a description of the MAJOR OBJECTS as defined by the Pennsylvania Department of Education.

SCHOOL

A division of the school system consisting of a group of pupils composed of one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary programs are housed in the same school plant.

SCHOOL, ELEMENTARY

A school classified as elementary by State and local practice and composed of any span of grades not above grade six. Lower Moreland Township School District's grade structure currently includes students in grades K thru 6. This is split between Pine Road Elementary (K-3) and Murray Avenue School (4-8).

SCHOOL, MIDDLE

A school offering the transition years between elementary and high school grades. Lower Moreland's grade structure currently includes students in grades 7 and 8 housed in Murray Avenue School (4-8).

SCHOOL, HIGH

A school offering the final years of high school work necessary for graduation; invariably preceded by a junior high school in the same system. Lower Moreland's grade structure currently includes students in grades 9, 10, 11, and 12.

SCHOOL, VOCATION

A secondary school which is separately organized under a principal for the purpose of offering training in one or more skilled or semi-skilled trades or occupations. It includes such schools whether federally aided or not.

TAXES

Compulsory charges levied by a governmental unit for the purpose of financing services performed for the common benefit. The term includes licenses and permits. It does not include special assessments.
