

Today's Schedule

Today I need to be flexible. I will not be going to school but I will have work to complete at home. I will complete the activities on my daily schedule.

- 1.
- 2.
- 3.
- 4.
- 5.

Break Time

Parents: Please utilize this daily schedule for your child. Break the activities listed on the lesson plans into small pieces based upon what works best for your family. I recommend starting each day's instruction off with a preferred activity or an activity of the child's choice. Write short directions and have your child check off each item as they complete the assignments. When working in class, students are typically given 3 to 5 minutes for a break of their choice. A timer is set and when the timer goes off, the students are to return to work.
