

## Today's Schedule

Today I have a change in my schedule. I will not be going to school but I have work to do. I will do my work.

1.

2.

3.

## Break Time

Parents: Please utilize this daily schedule with your child. Break the activities you choose into small pieces based upon what works best for your family. I recommend starting each day's instruction off with a preferred activity or an activity of the child's choice. Write short directions and have your child check off each item as they complete the assignments. When working in class, students are typically given 3 to 5 minutes for a break of their choice. A timer is set and when the timer goes off, the students are to return to work.
