Superintendent's Report:

Dr. Aronstein reported:

- The District's Regents scores have been posted and they are significantly higher than previous years. The progress made by our high school students in the Regents scores, complements the great progress associated with the State assessment scores for grades 3-8.
- Although the District has a bidder, there is not, as yet an approved transportation contract. The proposal process allows for various options to be considered. One of these options involves the potential use by the transportation company of a site on the District's property, commonly referred to as the "bus garage". The company has indicated a possible cost savings of \$310,000 to the District if the property is made available, subsequent to improvements to the site, paid for by the company.
- At the next Meeting of the Board of Education, July 20th, 2009, a representative from the transportation company will be asked to make a presentation regarding the option to use the District's property, and will be asked to address questions from the Board and the members of the community. .

Open Session: During the open sessions the public had an opportunity to ask questions or make comments with regard to items on the agenda as well as any items of their choosing.

Next Meeting will be a Regular Meeting at the Middle School on July 20, 2009 at 7:30 PM.

Submitted By: Mary Armen,
Secretary to the Board of Education
