Engagement

California Elementary

- TK/Kinder pre-enrollment via the online enrollment
- assistance of our dedicated staff and volunteers
- online enrollment went very smooth!

Go Bears!

In an effort to advocate for ASES funding that increases with cost-of living, the Los Angeles County regional After School network collected "Save After School" postcards to deliver to State Legislators from students and families stating why After School is important to them.

In only 3 days, over 600 "Save After School" postcards were collected!

HLPUSD After School Program

After school is important to me because ...

Because its
Fuh

After school is important to me because ...

~~never~~ even if I don't come
with a smile I leave with a smile.

After school is important to me because ...

Coaches keep me safe.

After school is important to me because ...

It helps me to stay
on track to graduate

After school is important to me because ... I never
get help at my house but here I
can learn a lot
and I get to
spend time with
my BFF

After school is important to me because ...

It helps so many students when they
feel like they have no one

After school is important to me because ...

We love the coaches who watch us
and take care of us and help us
learn each day!

After school is important to me because ...

I have made so many friends in ASES that have
changed my life, they made me feel welcome at this
school when I first came here. My parents work
for hours and hours, so ASES is important to them
since they can keep working and get more money for our
family. Overall, it affects everybody.

After school is important to me because ...

It's helping me as a mother with
only one income to go back to college.
I am so thankful for this program. Without
this program that would not be possible.

Mark your calendars...
