TEXTBOOK ADOPTION TIMELINE

September 2014: Publisher presentations to textbook committee

October 2014: Committee selects two programs to pilot

November 2014 - February 2015: Pilot two selected programs

February 2015: Community review of tentative programs

March 2015: Committee recommends one program for adoption

MATH TIPS

- Know that perseverance is key: it takes time to learn new concepts.
- Actively praise and value the effort your child puts forth.
- Help motivate your child to use math to find real world solutions.
- Consult with the teacher for guidance.
- Encourage your child to actively participate in the classroom math lessons.

BOARD OF EDUCATION

Gino Kwok, Esq.	President
Mr. Anthony Duarte	VP
Mrs. Penny Fraumeni	Clerk
Dr. Joseph K. Chang	Member
Mr. Jay F. Chen	Member

SUPERINTENDENT

Mrs. Cynthia Parulan-Colfer

COMMON CORE

The Common Core State Standards (CCSS) provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the skills people need for success in college and careers.

With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy.

STANDARDS FOR MATHEMATICAL PRACTICE

1. Make sense of problems and persevere in solving them
2. Reason abstractly and quantitatively
3. Construct viable arguments and critique the reasoning of others
4. Model with mathematics
5. Use appropriate tools strategically
6. Attend to precision
7. Look for and make use of structure
8. Look for and express regularity in repeated reasoning

STANDARDS FOR MATHEMATICAL CONTENT

K-5: Develop a strong, concrete to conceptual foundation in number and operations, including fractions and decimals
6-8: Develop robust understanding of algebra, geometry, probability, and statistics
High School: Apply mathematics and mathematical ways of thinking in novel situations, as college students and employees are regularly called upon to do

NEXT GENERATION TESTING

What is SBAC? What is CAASPP?

Smarter Balanced Assessment Consortium (SBAC) will administer the California Assessment of Student Performance and Progress (CAASPP).

- Administered in grades 3-8 and 11 in English language arts and mathematics
- Administered online in an interactive, adaptive format
- Assessment items include multiple choice and performance tasks to measure critical thinking and problem solving skills
- The online system will provide clear and timely feedback on student achievement and progress
