Blueprint to 21st Century Achievement

Common Core Standards

Define the knowledge and skills to be mastered by K-12 students that are aligned with college and work expectations; are clear and consistent; include rigorous content and application of knowledge through higher-order skills; build upon strengths of current state standards.

Professional Learning

A collaborative community of educators focused on closing the achievement gap through research-based instruction, depth of knowledge, student engagement and continual professional growth.

Application of Knowledge

Assessment of student learning through performance tasks and constructed responses that measure depth of understanding, research skills and analysis to close the achievement gap.

Educators • Students • Parents

Student Achievement

Students who are College and Career ready and are equipped with the 21st Century Skills necessary to succeed in a global economy.
