What is Medicare?

Medicare is a federal health insurance plan for people who are age 65 or older. People who are disabled or have permanent kidney failure can get Medicare at any age.

Parts of Medicare

Social Security enrolls you in Original Medicare (Part A and Part B).

- Medicare Part A (hospital insurance) helps pay for inpatient care in a hospital or limited time at a skilled nursing facility (following a hospital stay). Part A also pays for some home health care and hospice care.
- Medicare Part B (medical insurance) helps pay for services from doctors and other health care providers, outpatient care, home health care, durable medical equipment, and some preventive services.

Other parts of Medicare are run by private insurance companies that follow rules set by Medicare.

- Supplemental (Medigap) policies help pay Medicare out-of-pocket copayments, coinsurance, and deductible expenses.
- Medicare Advantage Plan (previously known as Part C) includes all benefits and services covered under Part A and Part B — prescription drugs and additional benefits such as vision, hearing, and dental — bundled together in one plan.

- Medicare Part D (Medicare prescription drug coverage) helps cover the cost of prescription drugs.
- You have choices for how you get Medicare coverage. If you choose to have Original Medicare (Part A and Part B) coverage, you can buy a Medicare Supplement Insurance (Medigap) policy from a private insurance company. Medicare Advantage plans cover many of the same benefits a Medigap policy covers. This includes benefits like extra days in the hospital after you've used the days that Medicare covers.

Who should use the online Medicare application?

You should, if you:

- Are within three months of turning age 65 or older.
- Want Medicare benefits and don't have Medicare coverage.
- Don't want to apply for monthly Social Security retirement benefits now.
- Reside in the United States or one of its territories or commonwealths.

NOTE: *We automatically enroll people who already get Social Security retirement or disability benefits in Parts A and B; they don't need to complete an application. Residents of Puerto Rico and foreign countries will not receive Part B automatically. They must elect this benefit.*

Why should I apply online for Medicare benefits?

Applying online for Medicare benefits offers several advantages:

- You can start your application immediately — you do not have to wait for an appointment.
- You can apply from the comfort of your home, or from any computer.
- You can avoid a trip to a Social Security office, saving you time and money.

You do not have to complete the application in one sitting. If you need a break, you can stop working on the application and restart it without losing any of the information you entered.
