Issue:

Use of a portion of Wedgeworth site by Hacienda Highlander Little League.

Analysis:

The board of education has had previous informal discussions related to this matter, however, this is the first formal request to come to the board. The plot map enclosed under separate cover shows a possible configuration that would provide the following:

1. Provide for disposal of a portion (approximately 10 acres) of the site per board of education authorization.

2. Allow for future construction of permanent buildings.

3. Provide an area for construction of baseball diamonds.

Since we have not provided the league with any specific dimensions they do not have a formal layout ready for presentation. Any subsequent approval should be in relation to use of a specified area and a formal plot plan.

Recommendation:

No action requested; discussion only.
