Science Fair

All students in grades 3-5 are invited to participate in the school science fair on May 30. Student projects will be displayed during the Family BBQ. This week, participating students selected a project idea and got their ideas approved by their teacher. Next week, students should plan to conduct their experiment or build their model. Work on display boards should be conducted during the week of May 27. We look forward to seeing the students' work at the Science Fair!
