Springfield Public Schools
Bus Pass Electronic Tracking
Opt Out Form

Springfield Public Schools has implemented a Bus Pass program that uses Zonar ZPass Student Ridership technology for students who ride district buses to and from school. ZPass utilizes a passive RFID badge attached to a student's backpack or a lanyard which communicates with the ZPass scanner located on the bus. This system allows Transportation Services and parents (through the use of a secure App) to know when and where each student enters and exits the bus on their assigned route. Springfield Public Schools provides this service at no cost.

The ZPass badge will serve as a bus pass for students using district provided transportation services. However, in accordance with OAR 581-021-0505, parents as well as students 14 and older, have the option to opt out of the electronic tracking capabilities of the Bus Pass program. It is important to note that students who opt out of the electronic tracking portion of the program still need to use their bus pass to get on a district school bus.

If you do not want your student(s) to participate in the tracking portion of the Bus Pass program, complete and return this form to your student's school or to the Transportation Services office, see address above.

If you have questions about this form, the Bus Pass program or the tracking capabilities of ZPass, please contact Transportation Services at (541) 744-6373.

Please note that you will need to complete one opt out form for each school your students attend.

I, _____, as parent or legal guardian of the following student(s), do not want my child(ren) to participate in the ZPass program.

Name of Child(ren) _____

School Attending _____ Student ID Number(s) _____

Signature of Parent or Guardian _____ Date _____
