

Hawthorne School District

Educational Excellence

Dear Parent/Guardian,

In an effort to enhance communication with parents/guardians regarding the CAASPP/CAA results, the Hawthorne School District has created a parent portal accessible in PowerSchool. The PowerSchool parent portal will allow you access to view all of your child's CAASPP/CAA student score reports, in order to view his/her progress over time. Your child's student score report includes an overall score for both ELA and mathematics. It includes an overall score for each subject and information about how he/she did in a variety of skill areas.

In order to access CAASPP/CAA student score reports:

- You must first access PowerSchool-
<https://powerschool.hawthorne.k12.ca.us/public/>
- Sign in to the PowerSchool Student and Parent Portal and select Score Reports.
- Select the assessment and test year.
- Select "Get Report".
- Select "View" to open a PDF of the Student Score Report.

If you do not have a PowerSchool Parent Account please do the following:

- Create an account, before entering access ID and your access Password on the main screen.
- Input your personal information, such as: your name, email, and create a personal password.
- Link your child to your account by inputting the student's name followed by their Access ID and Access password.
- Please select "Enter" on the bottom right hand corner of the screen.

To learn more about how to access your child's CAASPP/CAA results, you will be invited to attend a CAASPP/CAA Parent Workshop at your child's school.

Please contact the school office if you have any questions regarding the PowerSchool Parent Portal.
