

The District recognizes that the goals and objectives of the District can best be achieved by providing a broad offering of purposeful learning experiences, some of which are more appropriately conducted outside of the approved curriculum of the District. Such activities shall ordinarily be conducted wholly or partly outside the regular school day and shall be available to all students who voluntarily elect to participate. This co-curricular program encompasses approved curriculum-related activities, including intramural and interscholastic athletics and events, publications, music, dramatics, school service, Associated Student Body (ASB) activities, and other approved activities.

The District shall evaluate its intramural and interscholastic programs annually to ensure equal opportunities are available to all students. A survey shall be conducted at least once every three (3) years to assure that the recreational and athletic activities program appropriately responds to the needs and desires of both boys and girls.
