

CO-CURRICULAR PROGRAM: 2150P

The Associated Student Body (ASB) chartered programs are approved by the Board, and are recognized as part of the Associated Student Body Program. The principal is authorized to approve curriculum-related activities, make school facilities available for them and designate staff members to support and supervise them.

Co-curricular activities will be an extension of a specific program or course offered and shall be supervised by a qualified staff member.

The activities must comply with state and federal requirements which do not discriminate on the basis of race, color, creed, religion, national origin, gender, marital status, sexual orientation including gender identity, or non-program-related physical, sensory or mental disabilities (consistent with RCW 49.60).

All activities must take place on school premises unless an off-campus activity has been approved in advance by the school principal.

The activity must not be secretive in nature.

Activities which operate as an approved Associated Student Body Program must have met all conditions as specified in the ASB Constitution. The school principal shall be responsible for assigning staff to supervise all such approved programs.

When an activity does not satisfy the ASB Program conditions or ASB status would not be necessary or beneficial, interested students and a proposed staff member/sponsor may seek approval and recognition as a curriculum-related activity from the school principal. Each approved group shall operate under the guidelines set forth by the principal, relating (but not limited to) objectives, membership, supervision, proposed activities, and funding.

Recognized curriculum-related and ASB groups shall have the use of school facilities and equipment under terms set forth by the school principal. Groups that are not recognized as a part of the co-curricular program may apply for use of school facilities under conditions set forth in Procedure 4330P – Short Term Community Use of District Facilities and Fields (or 4260P, following revised numbering).
