

CHILDCARE PROGRAMS: 2216

Federal Way Public Schools may approve and/or provide childcare programs to meet the needs of students in the district. The programs shall operate in a manner that is consistent with state licensing requirements. Appropriately planned and supervised activities shall be conducted to meet the developmental and recreational needs of the various age groups served.

- The decision to provide before and after school childcare programs is a school-based decision. When these services are offered, the school shall comply with all State licensing requirements.
- The childcare program should support and enrich the regular school curriculum and provide students with a variety of recreational opportunities.
