

Complete the Putnam to Thompson Air Line Trail Gap Connection Project

- ▶ Goal: Eliminate the 1.8 mile gap between Putnam and Thompson
- ▶ Estimated Cost: \$9-12 Million
- ▶ Previous Air Line Trail Improvement Projects have received funding through CT DEEP in support of completing this state trail system
- ▶ Final section to eliminate trail gaps between Pomfret, Thompson and Putnam to complete a continuous safe and scenic multi-use trail for hikers, walkers, horseback riders, and mountain bikers
- ▶ Connects CT communities to regional trail systems with direct connections to the:
 - Southern New England Trunkline Trail
 - The Hop River State Park Trail/ East Coast Greenway
- ▶ Preliminary Feasibility Study considered possible routes, safety, access, costs, and impacts
- ▶ Selected Route is located mostly off-street and travels along the eastern side of the rail corridor and continues north along the abandoned trolley line with alternate routes outlined
