01 Dr. Doug Sears Learning Center

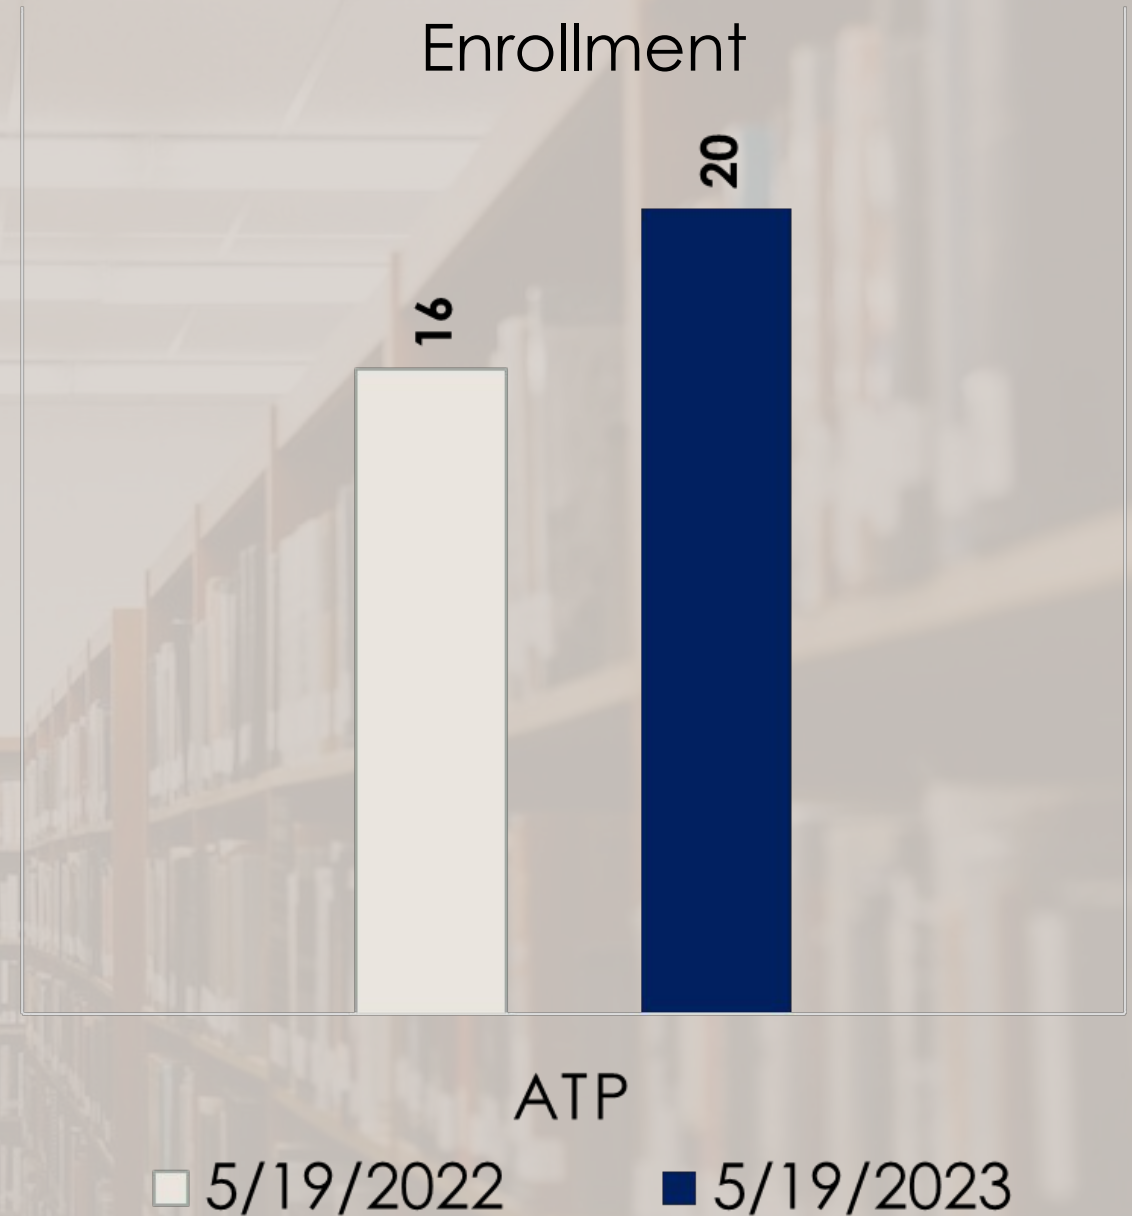

Enrollment

The Dr. Doug Sears Learning Center is designed to give students an opportunity to complete their high school education in an alternative setting, becoming productive citizens and lifelong learners. The program is non-traditional, self paced and utilizes authentic assessment to create a life skills learning experience which assumes more of students, school, home and community interaction.

02 Adult Transition Program

The focus of Temple City Unified School District Adult Transition Program (ATP) is to provide for maximum independence for young adults with differing intellectual abilities (ages of 18-22) in the areas of independent living, vocational experiences, community integration, and recreation/leisure. Additionally, it is within these areas that the young adults and their families work collaboratively with district staff and community stakeholders in determining individual needs, personal interests, and required skills. The team also develops strategic plans for leading independent, productive lives.

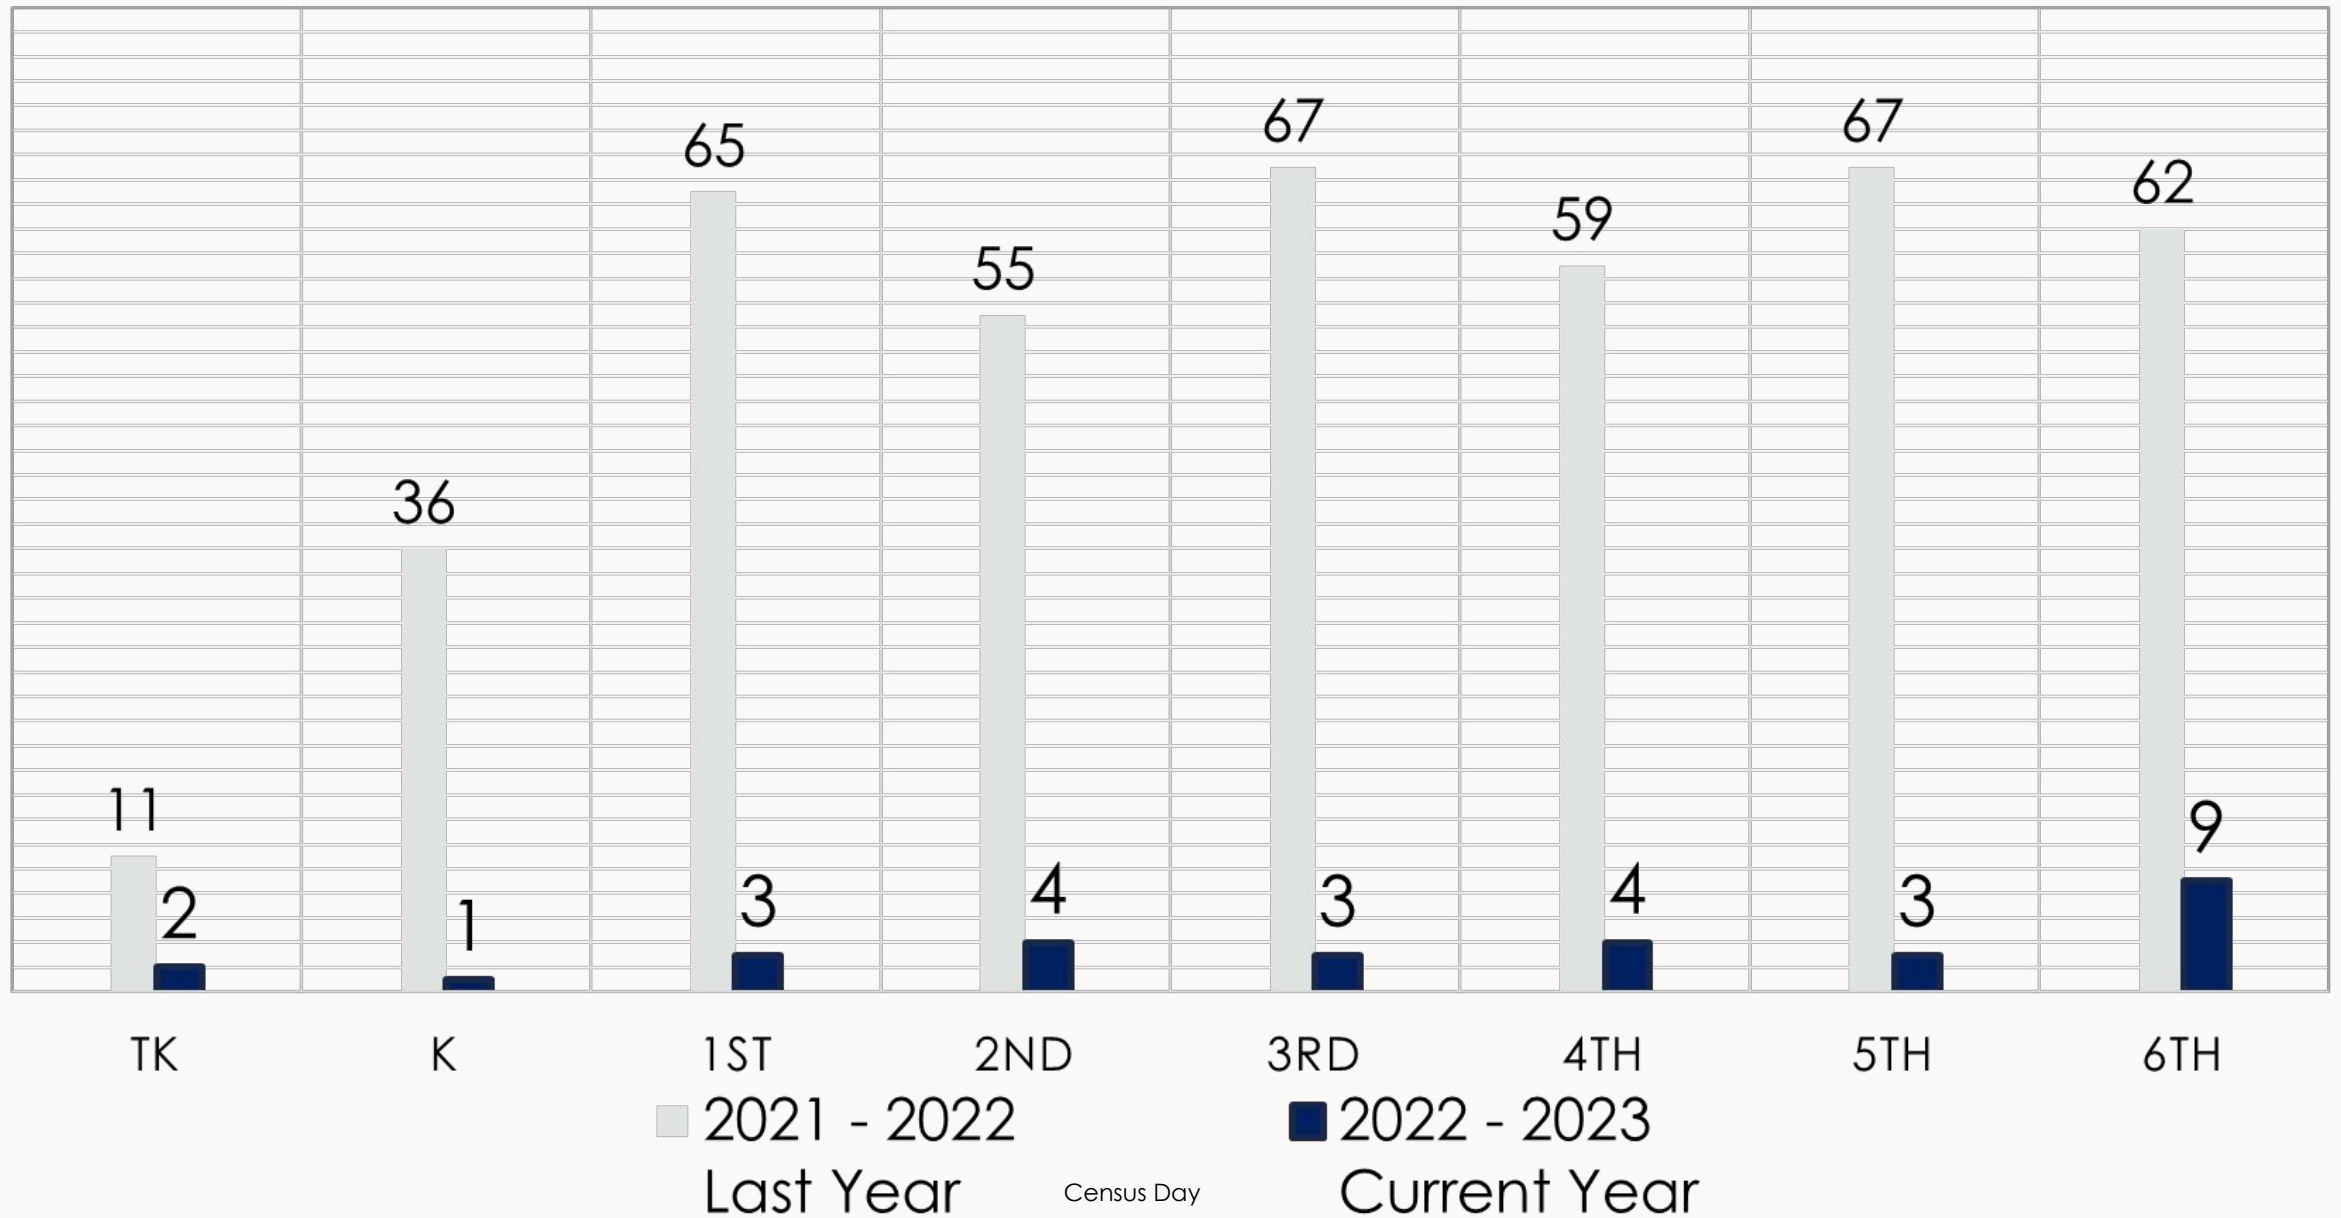

03 Temple City Virtual Academy

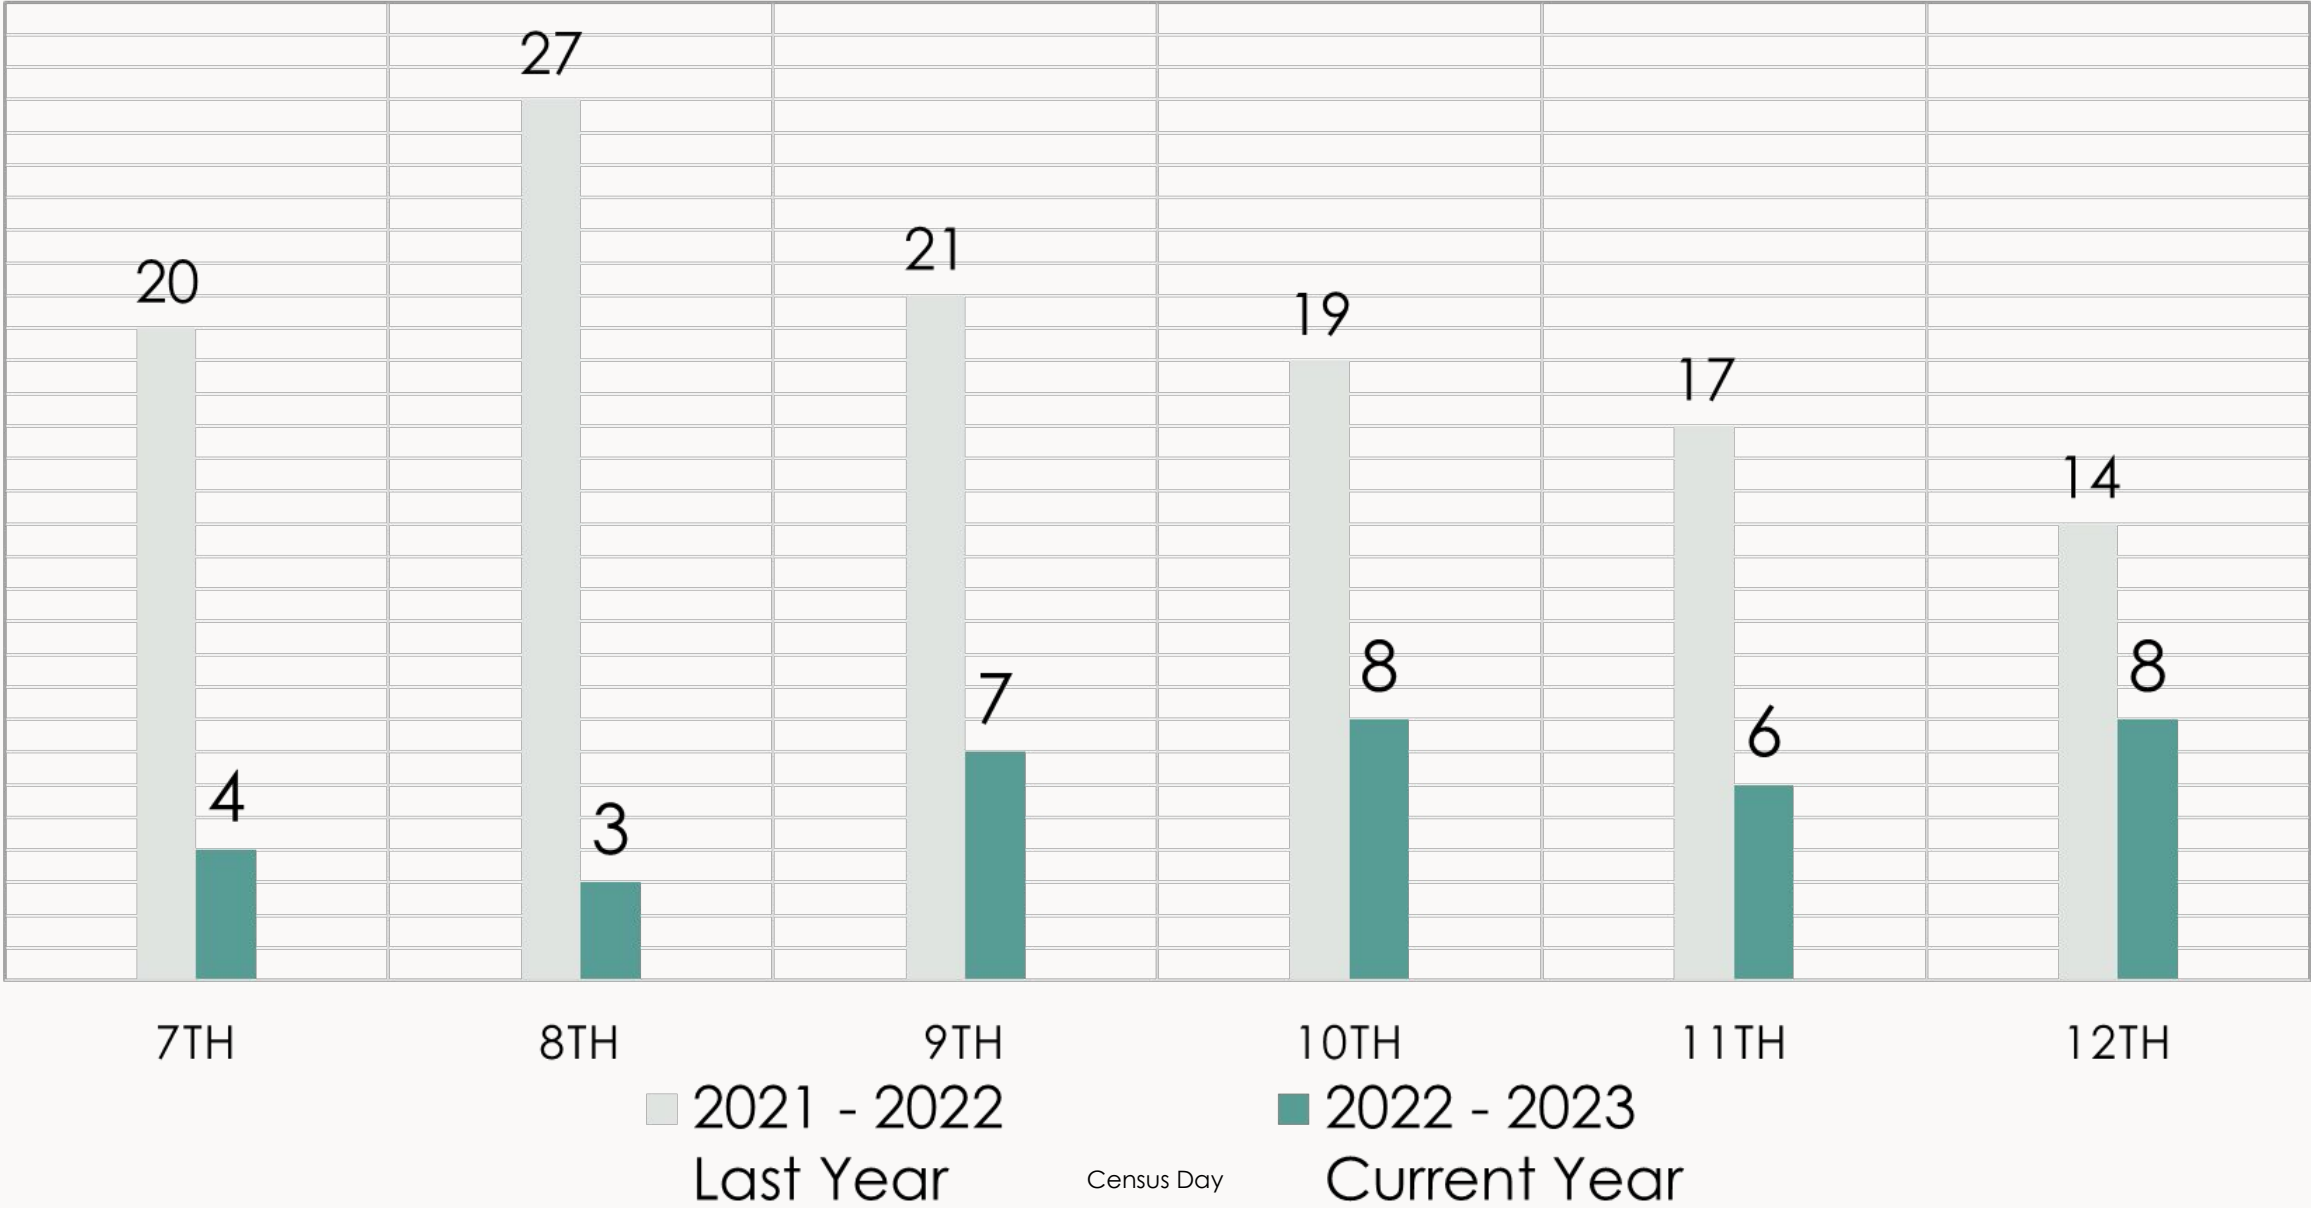

TC Virtual Academy is a tuition-free public high school within Temple City Unified School District offering students in grades K-12 the opportunity to earn a high school diploma online. Utilizing a digital curriculum, high school core courses and many elective courses are University of CA a-g approved for UC/CSU Admissions. In middle school, grades K-8 standards-based courses are provided through a digital curriculum. Credentialed teachers are available daily online to provide student assistance and progress monitoring. Students complete coursework in a much more flexible, self-directed manner than in a traditional classroom.

Overview of Enrollment

04

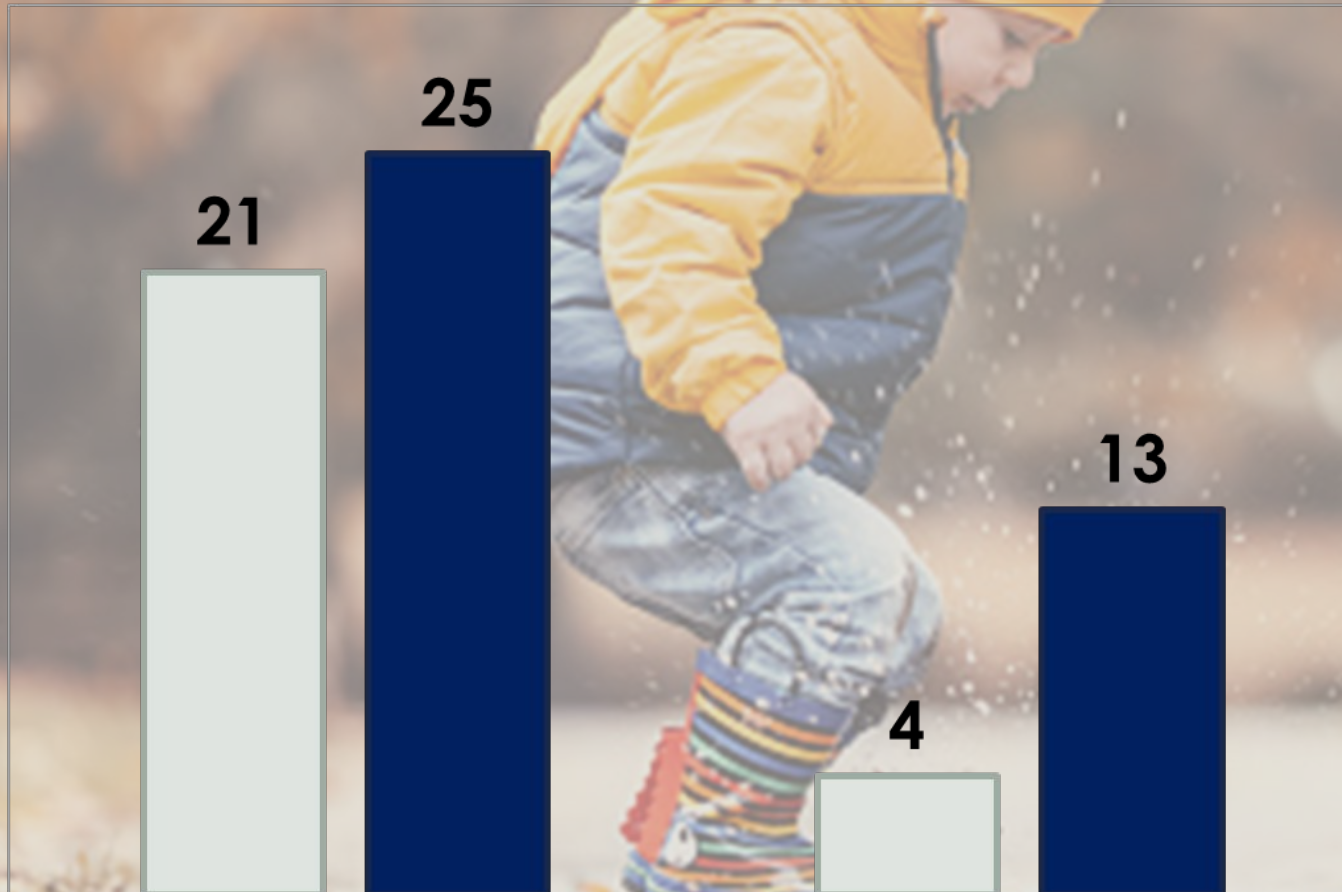

Temple City Early Learning Academy

TCELA provides a developmentally appropriate, safe, supportive learning environment where a diverse population of children can play, learn, and explore together. We believe that our students learn best when they are having fun. By learning through play, they will build on their social, cognitive, language, physical, and emotional development. We adopt the research supporting how high-quality preschool programs prepare students for future success.

TCELA Enrollment

8/24/2023 5/19/2023

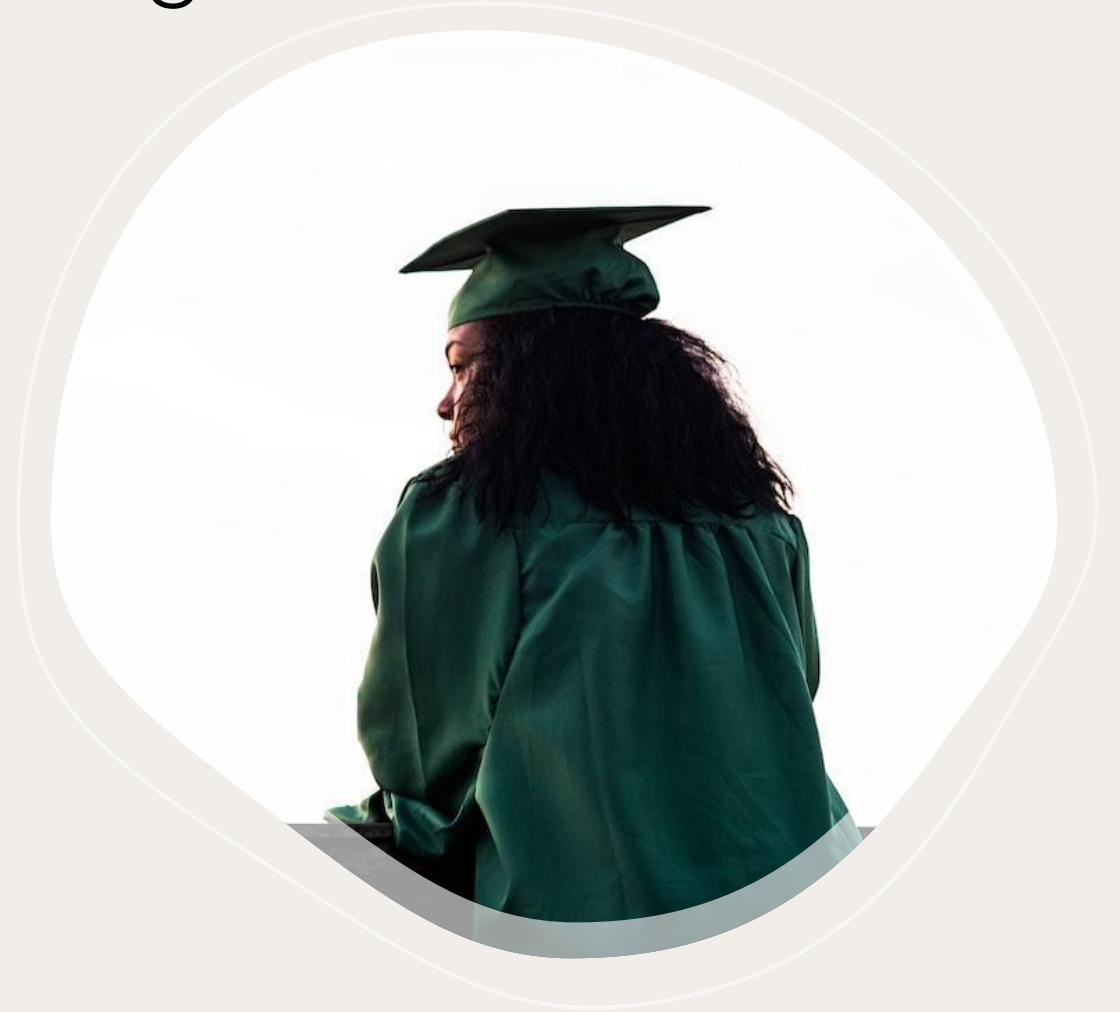

04 Temple City Early Learning Academy

- At the end of this school year, TCELA will host its first graduating class
- 26 of its graduates will be moving onto kindergarten
- 22 of those students will be attending one of our TCUSD elementary schools
