

Over-the-Counter Medication Administration at School

Nevada State Law and Douglas County School District require written permission from the parent/guardian of each student before any over-the-counter medications can be administered to a student less than 18 years of age. Below is the list of approved medications and products that can be used at school. **Please review the list, cross out and initial any of the medications you do NOT allow to be given to your student, then sign the bottom and return the form to school.** To give permission for any medications not listed below AND for prescription medications, please fill out the Medication Assistance Request form enclosed in your registration packet and return the form to school. Additional medication permission forms can be printed if needed from the district website at: <http://dcsd.k12.nv.us> >Home > Parents > Student Registration, then click on the English or Spanish icon for the Medication Assistance Request.
