

**PARENT/GUARDIAN/STUDENT
REQUEST TO RESTRICT INTERNET ACCESS**

The Bulloch County School System recognizes that as telecommunications and other new technology change the ways that information may be accessed, communicated and transferred by members of society, those changes may also alter instruction and student learning. Bulloch County School System generally supports access by students to rich information resources along with the development by staff of appropriate skills to analyze and evaluate such resources.

The Bulloch County School System makes available to its students and employees a wide variety of media resources, including electronic media such as the Internet. Electronic information research skills are now fundamental to preparation of citizens and future employees during an Age of Information. Bulloch County School System expects employees will blend thoughtful use of such information throughout the curriculum and that employees will provide guidance and instruction to students in the appropriate use of such resources.

A student attaining 18 years of age has the rights accorded to and consent request of parents transferred to the student.
