

Personal Narrative Instructions

Personal Narrative Instructions:

This is a story you are telling, do your best to make it interesting!

You can spice up your storytelling by:

1. Including **interesting events** and **change within the characters** of your story (i.e.- what did you learn, how did you change)
2. **Describe** things in detail
3. Include “parts” (beginning, middle, end) - think of **plot structure**

When you have described your break, you will then set goals for the new semester and new year (minimum of 3 goals, achievable within this semester). **What are they, how will you achieve them, what impact will they have on your life?**

I heard (summarize), **I liked** (praise), **I would like to see** (clarification and/or constructive criticism)
