ORGANIZATION  
REPORT, OTA

- 8.1 Lisa Greenhow, OTA President, welcomed all to COVID Level 3, or Year 3. She noted the past 2 years have presented challenges, changes, and some unique experiences. Year 1, we felt like the world just stopped; teaching became about meeting the psycho/social needs of our students. Year 2 saw more pivots than the tango; teaching became laser focused on making curriculum fit in the online box that was now our classroom and we brought student engagement to a new stratosphere. This year, we are attempting to do “normal” school. As teachers, we bring all the best of what we learned this past year and pair it with IS4 and good teaching practices. There are still some hurdles in the way such as masks, class sizes, indefinable learning loss, and COVID quarantine. They polled OTA members about the idea of a mask choice policy, and of the 200+ responses, OTA members were nearly split 50/50, with just a few more being pro mask choice. Personally, she feels caution and transitional planning would provide time to see what is going to happen while we still have the masks on.

Class Size is another hurdle. This is an especially real problem when you consider a lot of students are behind in areas like writing, math fluency, and reading for comprehension. These are areas that suffered last year with limited teacher contact and reduced time spent doing activities that strengthen the skills. She believes these are areas where learning loss will show and will show the most due to lost class time. We may have hurdles, but last year brought something really neat too: OTA and the District Office worked really closely together last year and created a true team that built a boat that kept our schools, staff, and students safe, got us back in the classroom, and got us going again. That team is still strong and knows how to build a boat now so we should be one up. She is looking forward to OTA and the District Office continuing in the team effort to finding a solution to these hurdles and all the new ones that may come.

REPORT, SPECIAL  
 EDUCATION PROGRAM

11.1 Larry Mendonca, Deputy Superintendent, presented a report on the Special Education Program. He reviewed Individuals with Disabilities Education Act (IDEA) statute, Federal Regulations, Eligibility, Individualized Education Program (IEP), the "Rowley" and "Endrew Standard", Case Law which clarifies eligibility and how district's offer Free and Appropriate Publication Education (FAPE).

He reviewed Special Ed Programs and Services Prior to 2007 and OJUSD "Take Backs" starting 2008 – Present, including:

- Severely Handicapped (SH) Classes (2 CLOV, 1 SV)
- Host a SCOE Autism Class at Sierra View
- Emotionally Disturbed Level I (Inclusion) Services
- Early Intervention Assessment Team (tests 3-4 year olds)
- Speech Services for Oakdale Head Start Students
- Inclusion Specialist supporting severe disabilities in Gen Ed
- Behavior Intervention Case Manager-Behavior & Social Skills
- 2 Mental Health Clinicians-MH Assessments & ERMHS
- Nursing Services (2 Licensed Vocational Nurses)
- Special Ed Transportation (in-District); Full take back in 2023

He noted OJUSD has realized significant cost savings as a result of running and staffing these programs versus continuing to pay a Fee for Service to outside providers.

He reviewed Expanded Services and Staff, noting programs taken back and run by OJUSD are more reliable and have been staffed by outstanding specialists that are always in the District and able to respond when needed; are trained to conduct business under District policies and procedures providing more consistency and reliability for our students and schools; make themselves available to train staff and provide input on potential policy and procedural improvements in areas of expertise; meet increased individual needs of students with more students requiring 1:1 aides and nursing services for behavior management and medical treatment.

He noted IEP requirements and contents have expanded significantly over the last 10 years due to litigation and case law, with continuously changing and expanded IEP forms increasing the average duration of every IEP meeting,

additional criteria forms have been added to the IEP meeting process and they now must review and complete eligibility forms or plans for 8 different areas, instead of previous check boxes for discussion they now require precise documentation and mandatory discussion notes.

He also noted Federal and State Compliance procedures and audits are much more time consuming and demanding. CDE now utilizes SEIS and CALPADS to analyze data for 23 Indicators in determining whether they meet Targets for Compliance; Indicators that do not meet the State Target must submit and implement a State Performance Plan for each Indicator and provide evidence of implementation. SEIS and CALPADS (AERIES) Data must match exactly and be perfectly correct on every IEP; any errors must be corrected before the IEP can be Affirmed and submission of Certified Data to CDE and CALPADS. It has increased a very labor-intensive process for Case Managers, Program Specialist, Administrators, and CALPADS Data & Information Specialist and Special Education Data Analyst.

He reviewed expanded IEP Compliance and student needs requires increased and continuous training, ongoing SEIS and Compliance Training for Case Managers and Site Administration; Behavioral Training for 1:1 Aides, Transportation staff, and implementing Behavioral Intervention Plans for teachers; Teacher training for Inclusion-Severe disabilities in the general ed setting; and Pro-Act Training which is a certified technique for restraint as a last resort to prevent a student from harming themselves or others.

In summary, Special Education has undergone an intensive number of additional requirements and obligations in providing quality programs and services for students; Compliance Reviews by the CDE and Dispute Mitigation and Resolution has significantly increased the overwhelming documentation process; and Oversight and management of this continuously expanding program has been identified as a critical need. He commended the entire Special Ed Team for rising to the challenge.

In response to a question from Trustee Shook about the number of special ed students being served, he indicated there are about 680, and that does not include students with 504's.

In response to a question from Trustee Gilbert asking if they are seeing more families requesting IEP's and 504's, he responded they are, but they anticipated they would because of last year, and kids are coming back to school and need to be addressed. They have staffed for that by

bringing in additional resource and school psychologist to prepare for additional assessments, as well as social and emotional issues we are seeing. We are developing a multi-tier system of support. He noted their brand is “do things right while doing the right thing.” We have to balance what they need so they can carry as much as they can, but still give them as much support as we can.

REVIEW DISTRICTS' MASK  
POLICIES & APPROVE  
OJUSD MASK POLICY

- 12.1 Superintendent Dave Kline reported we were asked to do several things last week, including review of what some other districts in the state are doing regarding mask policies. Initially, the Clovis waiver indicated parent and student need to self-attest medical issue and did not have to wear a mask. California Department of Public Health (CDPH) has since provided clarification of waiver system for Clovis and other districts that exemptions for a medical determination must be made by a medical professional. Clovis has ceased their waiver program and the district will continue with current mandate as directed by CDPH.

Board President Shook stated she got in contact with Board presidents, while Dr. Kline's challenge was to talk to Superintendents. Ms. Shook got through to Dr. Fogg, Clovis School Board President. Their 7-member Board is composed of 3 lawyers, a doctor, and an ER Physician's Assistant, and 2 in the insurance industry. They wanted to bring attention to what was going on and decided to take the chance and publicize what Clovis is doing with the waiver. They did put directive on the waiver that said “as of July 30 there may be changes”. The State came back on Clovis and said it is not allowable, they must have medical doctor's excuse in order for a student to be without a regular mask; if not a regular mask, they must have face shield. That shut a lot of districts down from waivers. Our biggest goal is to get our students back in school; we want our students in school as soon and as much as possible.

PARENT

A parent in the audience asked what discipline will be when they show up with no mask. The response was that if a student is not following rules set for the classroom, including not wearing a mask, the school will provide clarification in terms of what policy is; if student still refuses to wear mask, they will be sent to the office, meet with an administrator, a mask will be offered and if refused, a call home. Per CDPH, we cannot put a child into a classroom without a mask. Through discussion, hopefully, the child can be released to go back to the classroom. The parent indicated that there are exceptions, they don't want to

lie, they just want liberties back, and they don't want to have to negotiate for them.

PARENT

Another parent asked if this is a law, and are we making teachers enforce it.

Superintendent Kline reported he research 16 school districts. CDPH guideline does say you have to wear a mask in the classroom. Information he has is this is violation of CDPH. We have taken the line there are certain outcomes that could occur because they are not following. Board President Shook noted that Dr. Fogg at Clovis noted it is terribly unfortunate, but they are following guidelines.

PARENT

A parent stated that Administration is not working for students; they will stop district from getting funding when their kids are not in seats, parents will have to come up with another opportunity to education children and they don't have to use this system. He indicated he will lead his own small form of government and lead his family, stated that he yanked his kid out and is looking at private schools or Oakdale Charter, and left the room.

PAUL RIVERA

Paul Rivera noted that at the last meeting four Board members weren't for masks. He asked who is it that makes this decision and who gave that right for that decision.

Superintendent Kline noted terminology is confusing, but these guidelines are impacting TK-12 classrooms throughout the state, and these are the guidelines we will follow.

PAUL RIVERA

Paul Rivera asked what will happen when the guidance says we have to have children vaccinated before they come back to school, and where the Board stand on that. He feels that is no different than requiring masks.

Dr. Kline responded that we don't want to get into a position where we are speculating. We are not there yet and whether that will happen or not. We are addressing what we need to address now. We have to see specifications over time, in terms of outcome. We don't know what is going to be required of us as a district. We could make a statement one way or another, but we might have to retract.

Trustee House stated that he has 11 grandchildren in this district, so this means a lot to him. Mask or don't go to school, that is decision you make. When it

comes to sticking a needle in arm; he will say no. While it does bother him, he feels a mask is a minor imposition. He agrees we are losing our liberties; we have elected people making our laws, and the problem is government. There are over 34 states listed, 22 of them do not have a state mask mandate. Individual districts do. He feels we need to let CDPH know we are not going to take it anymore. He also stated that we, as a Board, have an obligation to protect the district.

Trustee Shatswell agrees 100%. She was hoping we could use waiver the waiver, and did some research on this and was really disappointed when the news came out Friday and were told we don't have a choice any more. She agreed 100% that government should not determine whether to mask her granddaughter, and we will keep fighting, but she doesn't want any one getting COVID. She would love to see it come back in our hands where we get to choose. If it came to mandated vaccinations, she would resign; she would resign before being told we must vaccinate children. She doesn't believe government has that right. Hopefully cases don't increase.

AMANDA STALL

Parent Amanda Stall asked if Dr. Kline had checked with Orland. He confirmed he had, and in District implementation everyone will be encouraged to follow mandate, no one will be excluded from instruction, District will not suspend a student. The Orland Superintendent acknowledged that he is not in line with what CDPH is mandating; but they are moving forward. Our district is choosing to go a different path and interpret CDPH differently.

Barbara Shook noted we are not voting on anything because we must follow CDPH guidelines. There is nothing to vote on.

Superintendent Kline acknowledged those here and those listening; continue to give him information. That has been valuable and helped form this process. We will continue to review information and if there is a change from CDPH, we will look at that. OJUSD was the first to bring children back. If parents choose to have their children leave; they will be welcomed back.

AMANDA STALL

Amanda stated that she went back to school last week, her child's first year as a Kindergartner. She cringed purchasing a mask, and was embarrassed the first 10 minutes of being there. Her child doesn't understand why she has to wear a mask, and she will be

disenrolling on Friday. She asked that we please not put it on teachers to monitor masks.

In summary, the status quo is that we have to wear masks unless we have a medical doctor's excuse.

No Action Taken.

APPROVAL OF  
SUPERINTENDENT'S  
CONTRACT, 2021-24

- 12.2 Board President Shook read the contract terms, and stated the Board is pleased to have Dr. Kline be a part of this district. This is the start of his 4<sup>th</sup> year in the district, and this has been a trial by fire in the way he has started. The Superintendent's contract is available if anyone wants to read it. Trustee Gilbert asked if, in the interest of transparency, we could post the contract of the Superintendent and administrative staff on the website. It was noted that we have not done that in the past but have made available to people if requested.

Superintendent Kline thanked the Board for the opportunity to work for OJUSD; noting he has been part of multiple districts and is honored to work in this capacity, and noted this is a fantastic community and school district, and is humbled by this opportunity.

It was **M/S/C (Gilbert/House)** that the Superintendent's contract, as well as that of administrative staff, be posted on the district website for public review. Passed unanimously.

Board President Shook reported we will post the contract. She did clarify that the salary schedule for all Assistant Superintendents is posted on the website under Human Resources.

APPROVAL, 4TH QUARTER  
DEVELOPER FEE REPORT

- 12.3 Cassandra Booth, Chief Business Officer, presented the quarterly report of developer fees collected in the final quarter for 2020-21. She reported we collected on a total of 29 new builds: 23 in Bridle Ridge, 2 in East Oakdale, 1 Valley Home, and 3 in centralized Oakdale.

It was **M/S/C (Betschart/House)** to approve the Quarterly Developer Fees Report. Passed unanimously.

RATIFICATION, AWARD  
OF CONTRACT, OHS  
PAINTING PROJECT

- 12.4 Superintendent Kline reported the district posted Invitation for Bids for this project and a job walk was conducted May 20, public bid openings were held June 4, and the district is obligated to award the contract to the lowest responsible bidder. The Board is being asked to ratify the award of contract to CMA Painting, Inc.

A question was asked about Developer Fees for future facilities projects. Trustee House explained in years' past, we had a facilities wish list. Superintendent Kline stated

we could conduct a Needs/Wants Assessment, form a committee and go through the district and determine needs. CBO Booth noted developer fees used for facilities are more restrictive than other facilities funds; they are more restricted to instructional classrooms. Superintendent Malone had a school facilities committee that developed a list, toured sites, and made a prioritized list of projects. All projects from that list have been completed. We need to develop a new committee and list. She and Dr. Kline have spoken about this with the new director of Facilities & Operations.

Trustee Shatswell asked about the status of developer fee deferral for builders putting in the D Street extension; the deferral allowed them to not pay fees until finished rather than when permits were pulled. Ms. Booth reported we have not gotten a fee from that area in a while. In the Bridle Ridge area, they are not building until homes are sold; that is the new practice for builders now.

It was **M/S/C (Betschart/Shatswell)** to approve Ratification of Award of Contract, OHS Painting Project. Passed unanimously.

APPROVE RESOLUTION #21-22-01, E9270, CONFLICT OF INTEREST CODE DESIGNATED POSITIONS

12.5 Superintendent Kline explained the Political Reform Act requires every multi-county agency to review its conflict of interest code biennially and notify them of any amendments. He reported that our code has been reviewed and there are non-substantive revisions needed for Board approved revisions in title of position of Assistant Superintendent to Deputy Superintendent.

It was **M/S/C (Shatswell/House)** to approve Resolution #21-22-01, E9270, Conflict of Interest Code, Designated Positions. A Roll Call Vote was taken and all Board members voted in favor.
