It was **M/S/C (House/Betschart)** to approve order of agenda items. Passed unanimously.

ANNOUNCEMENTS 6.0

ORG. REPORT, OTA

7.1 OTA President Lisa Greenhow reported that last year she came before the Board to report teachers were jumping into Distance Learning and planning for elementary Hybrid return. She shared creative ways we were meeting pandemic challenges, including the great crash of the Friday network. This past year has been a whirlwind, with everyone always reaching towards “normal”. The pandemic is still a force we have to navigate, we have learning loss to deal with, we have students adjusting to many new things.

She recognized the Ag Department state championship livestock judging team, and she reported Dee Hawksworth had students who qualified for the Peace Essay Contest. Julie Jones shared elementary & OJHS band had a beginning band night with 215 students in the program; teachers are teaching wind instruments outside. She also noted the OHS PE Department went above and beyond to help a high school freshman with a heartfelt story.

Superintendent Kline reminded the audience we are under a mask mandate and masks are required to be worn indoors. A few members in the audience who were not wearing a mask were asked to put one on so the meeting could continue and we could run an appropriate and effective Board meeting.

There was an issue from the audience about verbiage and language. A concerned parent asked a question about the possibility of Critical Race Theory coming to OJUSD, and compared the Board’s following county guidance on masking with how the Board would handle the possibility of being told to implement Critical Race Theory. She asked what will happen when CRT is brought to the district and is brought as guidance, a suggestion, or mandate. Parents were asked to address comments to the Board during the Public Comments period.

- ORG. REPORT, CSEA 7.2 CSEA President Jake Cox reported we have a problem coming up with minimum wage, the devaluing of employees, and would like to see a better solution.
- FORMAL SEATING OF STUDENT BOARD MEMBER 7.3 Board Clerk Shatswell administered the Oath of Office to Brooklyn Tolboe, student board representative for the 2021-22 school year.
- PUBLIC COMMENTS 8.0 Board Clerk Shatswell opened the Public Comments portion of the agenda at 7:02 p.m., noting individuals with comments will be limited to a maximum of three minutes, with a total of 30 minutes designated for this portion of the agenda.
- ISABELLA CROSS
OHS Freshman Isabella Cross addressed the Board to say she has been exposed in class 2 times, and tested negative both times. She questioned sitting in a Biology class, next to other students where exposure is more likely, but she can't play golf outdoors away from everyone else. Superintendent Kline stated we want to make sure we keep kids in school; we are following the mandate from California Department of Public Health, and this is what is required in following the guidelines set by them. He noted the difference between being asymptomatic, and that we are able to stay in school if you keep a mask on. The only issue is a student isn't able to participate in sports. He noted the usage of masks in the classroom versus wearing during sports. He told the student that he is sorry she is in this position, but research that they have is the transmission during sports as a result of breathing heavy, as a result of being in contact with somebody, the transmission is a little higher. In order to keep kids safe during that infectious period of eight days, they're excluding kids from extracurricular activities including sports. He continued to share that while he doesn't like it, it is the guideline given to keep schools open.
- There was a question about why they can do PE but can't play sports. Superintendent Kline stated that if they were exposed with PE or with band, in that circumstance they would participate in PE with grade assignment, or participate in band outside. If exposed, they can still participate in 7th period and team meetings, but not engage in contact.
- MELISSA GOODMAN
Melissa Goodman stated it was unacceptable that children were made to run outside with masks on which gave kids a headache. She stated there is money to have After School Programs for mental health. She stated kids should be 6' apart for less than 15 minutes and they can rotate every 4 minutes to play contact sports. She stated the Superintendent's emails are frustrating; he is consistently blowing off staff and saying that parents are attacking staff and that parents are blaming staff and teachers. She stated that teachers are amazing, and the nurses are working above and beyond and have had to step up contact tracing to do the job. She stated the Superintendent doesn't answer much and is degrading and dismissive, and interpreted that masks are required instead of suggested.
- SEV MAGINA
Sev Magina addressed the Board regarding the CDPH K-12 guidance released July 13 and subsequent tweet to clarify requirements that it would be up to individual school districts how to enforce mask

requirements. Superintendent Kline noted CDPH requirement is to wear masks indoors. It is up to individual districts to enforce; however, it is still required to wear masks. Some will enforce by saying you can't come to school; it is not option to wear masks or not. Mr. Magina asked for information to back up what Superintendent Kline is saying and Superintendent Kline stated he would post on the district website.

ERIC KJELDGAARD

Eri Kjeldgaard addressed the Board as a parent of 2 high school students, and parent of 8 children, most of whom have gone through OHS. He appreciated the consistency comment, noting he has seen a real lack of consistency, whether from state, county or locally. He noted that the science we were told in May 2020 is different than what we are getting now; the science keeps changing. He noted the CDPH website FAQ, language that enforces period where students may or should quarantine; it doesn't mean must or required.

TESTING/EXPOSURE

A parent asked if their child could be moved 6' from other students, especially as the child has already been exposed twice. They were told the school can't make different rules for students. One student had been contact traced 4 times. The parent asked what parents can do to find another solution so they are not exposing as many people. A parent noted that vaccinated kids don't have to get tested or go on modified quarantine. She stated that her unvaccinated son is exposed because the school cannot keep him safe. She asked what we can do to move kids 6' away, so he is not exposed. When we brought kids back last year, we had 3' space. It was noted that given the number of kids in a specific class, some kids were sitting outside, some inside. What you are asking for with 6' rule is a difficult thing to ask somebody to do. We want to make sure all kids are in schools and in classrooms; we don't want to necessarily enforce making kids sit 6' apart. We want to focus on education and teaching. Some teachers have moved kids and others have not. Some teachers are willing and able to do and others are not. Superintendent Kline stated that if a teacher is willing to do that and make accommodations, that is fine, but not every teacher can do that. Tina noted teachers are trying to be accommodating, and thinks it should be a right to choose to vaccinate or not, and noted that people that are vaccinated are getting COVID. Melissa Goodman requested this be an agenda item on the next meeting. A parent asked why we can't do athlete testing like we did last year. A parent noted their child was pulled out 2 weeks ago, and she was not notified, nothing was wiped down, her child was swabbed and sent back to class; she was told they would let her know what results are but she never heard back. Trustee Shatswell said we will be visiting vaccinated vs unvaccinated and the sports issue at next month's meeting.

MASK MANDATES

There were several comments regarding the district's mask mandate on campuses, challenging the distinction between guidance and mandate. Superintendent Kline referenced the Aug. 2 special board meeting, when questioned by an audience member regarding the legitimacy of the current Mask Mandate. He stated that after gathering and reviewing information as it was given, we made the decision that we needed to

follow the mandate because that was what we felt compelled to do given the information that we had. He stated that our board is elected and our board has the ability to make decisions moving forward. There are factors that have come up that we've talked about and the definitive answer is very specific. Dr. Kline is hesitant to address certain specifics as well as 'what if' situations as things can very easily change. The board has the ability to vote one way or another, and to say what they will and will not do. We have pushed back and will continue to do so.

Superintendent Kline was challenged by an attendee with the question if that ruling would also apply to Physical Education. The superintendent shared they would be unable to participate in the contact portion of physical education if they had been exposed.

A parent stated that there's nothing consistent in what's being said here and noted the hypocrisy in allowing exposed students to participate in PE but not athletics. He noted young minds trying to process this, potential damage to their mental health, and that the Board has to do something and it has to be more consistent.

GENE GILTON

Community member Gene Gilton addressed the Board, echoing much of what was said by the prior speaker. He stated that all they're asking is for the Board to lead our children with logic, down a path that they can be proud of, coming from Oakdale. He continued to press the Board, asking who is going to punish them if they allow these children who have tested twice and are negative, to participate in a sport. He noted what he feels is an inconsistency when children are allowed to be in school and allowing them to participate in PE.

Superintendent Kline stated that if there was a positive case as a result of the restriction, the district would open itself up for a lawsuit. Mr. Gilton stated he would sign a waiver, to which Superintendent Kline stated that the district has looked at all the avenues and once again, that's not a possibility for us.

Board Clerk Shatswell noted that Public Comment lasted close to one hour, noted the issues raised would be discussed by the board and addressed at a future meeting. She stated that she wants parents to know the Board is hearing what they are saying, and is hearing what the concerns are, and the Board will follow up on it.

Public Comments closed at 6:37 p.m.

REPORT ON NUTRITIONAL
STANDARDS FOR SCHOOL
LUNCHES

11.1 Board Clerk Shatswell stated she asked for a report on school lunches, and Chef Jason Beach, OJUSD's new Director of Nutritional Services, was at the meeting to present a report on Nutrition Standards in School Meals. His report covered USDA & CDE Nutritional standards in regards to the Healthy Hunger Free Kids Act, which set meal pattern standards that we now follow in order to provide healthy meals that meet USDA's reimbursement requirements based on the My Plate design by USDA. He provided a brief review of our current program and the future focus of the department.

His report reviewed a waiver system to protect schools from the hardships created by the Covid-19 pandemic; they are currently experiencing massive supply shortages from food goods, paper goods, and labor due to the pandemic extended impact to manufacturers, vendors, and our community; and that waivers give them a cushion as they strive to meet normal meal pattern requirements.

He reviewed 763 K-6 student survey responses of items like fruit and vegetable selection and preferred menu food types, and noted increases in breakfast and lunch meals served at all school sites. He also noted a future goal to implement a Farm to School program by partnering with the OJUSD Ag program. Board member Shatswell thanked Chef Jason for his presentation, noted his passion, and that increased numbers are reflecting that.

In response to a question from Trustee Betschart about whether we need more cold storage or freezer space, Chef Jason responded that now he is having to buy 2-3 weeks out instead of week to week. Mr. Betschart asked if we should be looking at something like a temporary unit or something permanently ongoing. Chef Jason indicated that a shipping container with cold storage would work. He cited a USDA Webinar meeting about food storage, where they suggested contacting Save Mart to see if they have extra refrigeration space we could lease to get through this. Trustee Shatswell noted we will be developing a new list of Facilities Projects, and this will be on the list.

PUBLIC HEARING, APPROVAL
OF RESOLUTION #21-22-02,
PROVISION OF SUFFICIENT
TEXTBOOKS & MATERIALS12.1 /
12.2

Board Clerk Shatswell opened Public Hearing on Approval of Resolution #21-22-02, Provision of Sufficient Textbooks and/or Instructional Materials at 8:09 p.m. Assistant Superintendent Wegener reported that every year the Board certifies every student has sufficient textbooks and/or instructional materials aligned to content standards.

The Board waived reading of the resolution. There being no public comments, public hearing closed at 8:11 p.m.

It was **M/S/C (Betschart/House)** to approve Resolution #21-22-02, Provision of Sufficient Textbooks and/or Instructional Materials. A Roll Call Vote was taken and passed unanimously.

APPROVAL OF PRIOR YEAR FINANCIAL REPORT

12.3 Kassandra Booth, Chief Business Officer, presented a report on the district’s unaudited actuals for the period ending June 30, 2021. She reviewed what Unaudited Actuals are, Financial Highlights, General Fund Revenues & Expenditures, Contributions and Transfers, General Fund Summary and Ending Fund Balance, COVID Relief One-Time Funds, All Funds Summary, and Next Steps.

Under Financial Highlights, she noted district enrollment as of CBEDS was 5,211, a decrease of 136 students from 2019-20; ADA was held harmless at 2019-20 level of 5,101, expenditures per student increased by \$762 per student compared to prior year, and District received \$6,422,571 in revenue from nine different Federal and State resources for one-time COVID related expenditures.

She noted a restricted fund balance of almost \$2 Million, that 80% of the district’s general fund expenditures are dedicated to employee’s salary and benefits; unassigned Reserves of 22%, including 5% for economic uncertainty.

She also noted one-time COVID Relief Funds used for Chromebooks, student internet access, mental health services, independent study teachers, campus monitors, health clerks, custodians, COVID testing, classroom supplies, and health services supplies.

It was **M/S/C (House/Betschart)** to Approve Prior Year Financial Report–Unaudited Actuals. Passed unanimously.

PUBLIC HEARING, APPROVAL OF RESOLUTION #21-22-04, AUTHORIZING TURNKEY DESIGN & CONSTRUCTION ENERGY SERVICES CONTRACT

12.4 / 12.5 Chief Business Officer Kassandra Booth introduced Elliott Feldman of Schneider Electric, who reviewed the proposed turnkey design and construction energy services contract, which includes replacing inefficient florescent lighting with LED lighting district-wide, and replaces 82 of the oldest/priority HVAC units (20+years). They will maximize incentive funding for the project, and guarantee energy savings or they write a check for the difference. With approval now, they need enough lead time to procure materials and lock in place for next summer. The project is scheduled to be completed Spring and Summer 2022.

Board Clerk Shatswell opened Public Hearing on Approval of Resolution #21-22-04, Authorizing Turnkey Design and Construction Energy Services Contract at 8:33 p.m.

Lisa Greenhow asked if HVAC units being replaced are all on roofs. Mr. Feldman responded that they are, and will be quieter than existing units. It was noted that Sierra View units are located in classrooms, but as they are much newer than units at other sites, are not being replaced in this project.

In response to a question from Trustee Betschart about whether replacement lighting will be staying within existing fixtures, Mr. Feldman indicated a lot of those can overlay, 4 florescent lamps can be replaced with 2 LED's to get the correct level of lighting.

In response to a question from Student Board Member Tolboe about student participation, Mr. Feldman stated they normally like to ask students who would be interested in job shadowing during construction and would set up multiple job shadowing days in: Lighting, HVAC, Solar, Engineering, Sustainability, and Internships. They may contact schools the month prior to the install to coordinate. Public hearing closed at 8:35 p.m.

It was **M/S/C (Betschart/House)** to approve Resolution #21-22-04, Authorizing Turnkey Design and Construction Energy Services Contract. A Roll Call Vote was taken and passed unanimously.

APPROVE RESOLUTION
#21-22-05, E9270, CONFLICT
OF INTEREST CODE
DESIGNATED POSITIONS

- 12.6 Superintendent Kline explained the Political Reform Act requires every multi-county agency to review its conflict of interest code biennially and notify them of amendments. He reported there is a change to add the new Director of Special Education position, and presented the district's Conflict of Interest Code, Designated positions for approval.

It was **M/S/C (House/Betschart)** to approve Resolution #21-22-05, E9270, Conflict of Interest Code, Designated Positions. A Roll Call Vote was taken and all Board members voted in favor.
