ORGANIZATION REPORTS, OTA

7.1 OTA President Lisa Greenhow reported on the School Board being greeted by OJUSD teachers tonight. They would like the Board to see them; they would like the Board to see them teaching, learning, every day. She commented on the expanded role of teachers to teach students, hold their hand, and be a supportive ear. She noted the negotiations process has been respectful and productive, and they are working for a common goal. She reported the team came to Tentative Agreement a few weeks ago, but members chose not to accept it so they will go back to the table.

- REPORT ON SCHOOL FARM
- 11.1 Deputy Superintendent Larry Mendonca presented a report and update on the School Farm. He reported the Almond Orchard planted in 2017 is in it's 5th leaf, has been managed for 4 years by B&S Orchards, and produced its first crop in 2019 with a total of 3,353 meat lbs., 17,390 meat lbs. in 2020, and 11,739 meat lbs. in 2021. He reported the orchard has complete canopy and is still growing, is now managed by Mountain View Harvesting, we still have 2021 sales to be received but to date revenue is \$69,552, with expenditures of \$84,380 (plus support of some very generous business partners). He reviewed crops area layout of tree, vine, row crop, and pasture.
- He noted the Oakdale Irrigation District Grant of \$200,000, which provided industry standard technologically advanced and multidimensional water delivery system, including industrial Ag Well, Smart Technology to provide educational exposure to monitoring and management systems that are state of the art automated and remotely programmable and controlled, and designed to supply all sections of the designated upper tier crop area. The varied water delivery systems expose students to micro-sprinkler, drip, solid set sprinkler, soak and flood systems; are expandable into other systems as developed; and are designed to allow for easy modification and alternative above-ground supply designs.
- He reported varietal fruit trees (citrus, peaches, nectarines, apricots and plums) and grape vines (wine grapes, table grapes, and red raisin) have been planted and will soon be in production. He reported the Main Pavilion Barn is in full operation; completion and operation of the Pig Barn with environmental controls for insulation, heating, automated "cool Cell" air flow design and pest and disease controls, capacity of 30+ student projects, and covered work area and wash rack; completion of Pole Barn in 2019 which primarily serves sheep and goat projects. He reported Beef and Dairy projects have been housed at students' homes, but we have applied for and been awarded a "Strong Workforce Grant" of \$550,00 to expand the Pole Barn Facility to meet growing interest in Beef and Dairy Cattle projects being housed at the school farm. We are in process of developing plans with the architect and hopes to have a contract ready by the beginning of summer, start construction, and have completed by the end of the year.

He noted the increased numbers of student Supervised Agricultural Experience Projects, Oakdale FFA is the 4 Time defending County Fair Thurmond Award Winner, State and National Champion Livestock Judging Team, State Champions, Best Informed Greenhand Team, State and National Proficiency Award winners, and Internship and Job Placement. He noted Oakdale FFA is the highest performing FFA Chapter in the County, and is nationally competitive with our National Livestock Judging Team.

Isaac Robles, OHS Ag Teacher and FFA Advisor, spoke on how the School Farm has been an asset to the Department, and has provided unbelievable growth and involvement. He also introduced FFA Members David Diebner, Kyla Green, and Devon Pastor Guzman, who spoke on how the School Farm has provided opportunities and experiences they may not have otherwise had. Larry Mendonca expressed appreciation to the Board for supporting the School Farm and Ag program.

Trustee Shatswell remembered when this was just an idea, and commented on seeing the progression to what we have now, that it's not just for country kids, it is an opportunity for kids in town to experience as well, and that we are an Ag community. In response to a question from Trustee Shatswell about whether we're looking at Solar for power, Mr. Robles said that has been mentioned, but we haven't had anything feasible to construct or implement with; current facilities are not engineered for solar on top, and it is not in immediate plans.

Mr. Mendonca commented that it is not just "cows and plows", the experience exposes students to areas of the ag industry such as sales & service, water management and resources.

In response to a question from Trustee Taylor about whether 4 staff members are enough and looking at what we can do to expand, Mr. Mendonca responded that we work constantly on our plan, where we can go and what we can do; the mechanism that triggers expansion is enrollment and what we offer.

In response to a question from Trustee House on how much we are doing with Ag Mechanics, the response was we have 5 sections now and will have 6 sections next year. Mr. Robles commented that COVID has messed with a lot of things, we are growing gradually. Capacity of the shop gets more dangerous the more kids we have, and we are about maxed out with numbers in Ag Mechanics. Mr. Mendonca noted the size of the shop limits us; but career opportunities are there, and kids are making connections with the industry.

In response to a question from Trustee House about 4-H being able to make use of facilities, Mr. Mendonca responded we are maxed out with our own FFA kids.

Trustee Betschart spoke on the vision, how great it is to see how kids that didn't grow up on farms took to it, and how the exposure provides great life lessons and financial responsibility. In response to a question from Trustee Betschart about a plan

for fruit trees, vines and wine crop, Mr. Mendonca responded it will be small scale, they are looking to incorporate students to take responsibility. Mr. Robles explained that there are 3 types of grapes out there and they plan to make wine with the wine grapes; there are programs in the state where you can do everything with students from making wine and fermentation, the bottling part has to be done by a licensed bottler. We will come up with our own label and have our own wine. It might be a small amount, a case or two every year. He noted that a lot of vineyards buy grapes and blend, and we have alumni who are really into the wine industry. Hopefully, we can have bottle production within 3 years. Mr. Robles also stated that with the fruit trees, they tried to look at crops within the school year, early Apricot varieties come out the end of the school year, late season varieties in late August and September, and they will look at selling at the Farmer's Market in the Summer.

Trustee Gilbert commented on the Ag business component. It was noted this is a valuable skill to teach selling almonds, there are lucrative careers out there in business, marketing, and Ag Production. Ag Teacher Ed Hartzell commented on going into cooperative marketing with the marketing team.

Trustee House commented on the Board that had the vision to buy this property close to town that was still available. Mr. Mendonca also noted former Superintendent Marc Malone who supported this opportunity to expand the Ag Department and made this happen.

REPORT ON EXPANDED
LEARNING OPPORTUNITIES
PROGRAM

- 11.2 Armida Colon, Director of Categorical Programs presented a report on the Expanded Learning Opportunities Programs (ELO-P), including Background, Funding, Enrollment, Programming, Operations, and Registration.

She explained legislation behind the program was passed in July 2021 to support expansion of comprehensive before school, after school, and summer school enrichment programs for students in grades TK-6 beginning 2021-22. We learned in October that we had a staffing crisis, and that we couldn't fill existing staff positions, so it was determined implementation would be postponed until 2022-23. The staffing crisis was still present in January, so expansion has been postponed until 2023-24. We are getting funded in hope of planning and phasing in implementation this next year.

She explained the OJUSD ASES/ASIRE Program is now the OJUSD Expanded Learning Program; one program with multiple funding sources. They will phase out of ASPIRE fee-based program, and will still maintain ASES.

She explained that ELO-P is ongoing annual apportionment, with funding based on unduplicated (English Learners, students eligible for free or reduced meals, and Foster or Homeless Youth) students in grades TK-6. We will receive a district allocation, while ASES has been site level. OJUSD received \$780,000 in 2021-22 and is projected to receive \$2.3 million for 2022-23. We will continue to receive 3-year ASES grant of

\$701,606 annually for Cloverland, Fair Oaks, Magnolia and OJHS. She explained that Sierra View doesn't get ASES funding because it is incredibly competitive, and primary criteria has been free and reduce lunch eligibility. She has applied for the grant for Sierra View twice but we have not been eligible.

She explained priority enrollment is given for unduplicated students (English Learners, students eligible for free or reduced meals, Foster or Homeless Youth), students will be enrolled on a space availability basis, and there will be no charge for participating students at the four elementary schools. Students that fit this eligibility criteria, if there is space for other students and they want to participate, we can get them into the Program.

She noted there is a staffing crisis across the state, and our capacity to serve students is limited. Districts with 80% or below unduplicated must provide access to 50% of students. For example, if Cloverland has 400, they must enroll at least 200 of those. That is one of the key pieces that will be audited for us. Districts with 80% or higher, enrollment is open to all their students. There is more legislation that hopefully will provide some relief. We may end up having to send money back if we fail to meet targets. The Junior High currently only has 2 staff members, so the capacity we can have is 40 students (20:1 ratio).

With current staffing, Program Capacity is:

School	Current Staff Count	20:1 Ratio
Cloverland	3	60
Fair Oaks	7	140
Magnolia	7	140
Sierra View	3	60

Participation Goals are:

School	# Eligible	50% Target
Cloverland	344	172
Fair Oaks	411	206
Magnolia	331	166
Sierra View	423	212

Staffing Needs:

School	Min. Staff Needed	Current Staff	Additional Needed
Cloverland	9	3	6
Fair Oaks	11	7	4
Magnolia	9	7	2
Sierra View	11	3	8

She noted we have an abundance of funds, but not enough staff, and it will impact the number of students we will be able to serve. In response to a question from Trustee Taylor about potential salary schedule increase, Ms. Colon explained the challenge is that we are not private sector and have to be mindful of that. They've talked about hiring high school students. Trustee Shatswell noted it would be a good leadership opportunity for high school students.

She reviewed enhanced program opportunities for Academic Support, Enrichment Opportunities, and Health and Wellness. She explained ASES has been limited, but with Expanded Learning Program we can enhance and add things like Art classes and

Music, and hopes to bring back the Cooking Academy. We are moving slowly for the next year because of the staffing issue. We need to be sure we have people to lead activities for us.

She reviewed Expanded Learning Program Operations, with the program open every day of school, open from school dismissal to 6:00 p.m., will offer up to 30 intersession days (summer, winter, spring), and focus on serving students grades K-6. She noted we will continue to serve Kindergarten students who are PM Kindergarten, but currently do not have a gap program (11 AM – 2:30 PM) for AM Kindergarten and do not have capacity to serve TK. Student to staff ratio for TK is 10:1; while K-6 is 20:1. We can phase-in different parts of program, and hopes to phase-in 2023-24. She noted the Before School Program is not changing for 2022-23 and will continue as a separate, fee-based program.

She explained they will be launching the EZChildTrack parent portal for student registration, with the registration window open Noon on April 25 and closing at 4:00 on May 6. They will also have dedicated times to drop in at sites to register with support in English and Spanish, and help to set up google accounts. More information is available on Expanded Learning Program on the district website.

FIRST READING: BP/AR 5148.2, 11.3
BEFORE/AFTER SCHOOL PROGRAM

Armida Colon, Director of Categorical Programs, presented this BP/AR for first reading, explaining it has been updated to include new requirements resulting from the Expanded Learning Opportunities Program. It will be brought back to the next meeting for 2nd reading and approval.

In response to a question from Trustee Taylor about ELO programs being offered no less than nine hours of in-person expanded learning opportunities per day, Ms. Colon explained that has created some confusion. Essentially, the intent behind the nine-hour language is to span when district opens at 8:00 AM and closes at 6:00 pm. Within that you have programming opportunities for students, includes breaks and recess, full day and expanded. She explained that we used to run that model for summer camps 7:00 AM – 4:00 PM, and 4-6:00 pm expanded hours. Transitioning into the new model was spot on for us, and will not be a huge adjustment.

APPROVAL OF LEO VOLZ 12.1
SCHOLARSHIP AWARD

Superintendent Dave Kline presented this item, thanking the Volz Scholarship Committee for their work on this. Board Member and Volz Committee member Terri Taylor announced that 4 students went to the final round of essay and interview, and this year’s recipient is Savannah Borba. Dr. Kline announced she will be going to San Jose State University to major in Mechanical Engineering.

It was **M/S/C (Taylor/Shatswell)** to approve Savannah Borba as this year’s Volz recipient. Passed unanimously.

APPROVE 2022/23 SCOE 12.3
MASTER AGREEMENT

Chief Business Officer Kassandra Booth presented the annual contract with the Stanislaus County Office of Education to provide Media Services, Mail Handling and Delivery, Internet Telecommunications, Information Technology, Legal Services, and Hearing Assessment Services.

It was **M/S/C (Shatswell/House)** to approve the 2022/23 Stanislaus County Office of Education Master Agreement for Media Services, Mail Handling and Delivery, Internet Telecommunications, Information Technology, Legal Services, and Hearing Assessment Services. Passed unanimously.

PUBLIC HEARING, A-G
COMPLETION GRANT

- 12.2 Board President Gilbert opened Public Hearing at 8:09 p.m. Assistant Superintendent Gillian Wegener presented this item, explaining the plan came to us late January. The purpose of the grant is to help districts and schools to improve the number of California high school students who graduate with A-G eligibility. Funds are targeted to students grades 9-12, and will be used for activities that directly support student access and successful completion of A-G course requirements. The grant comes in two parts for OJUSD and Oakdale Charter, the Access Grant, and the Learning Loss Mitigation Grant. Allocations for the Access Grant for OJUSD is \$189,084 and \$7,360 for Oakdale Charter; allocations for the Learning Loss Mitigation Grant for OJUSD is \$70,887 and \$2,759 for Oakdale Charter. Funds must be expended by the 2025-26 school year.

She reviewed OJUSD's plan for use of funds which includes: Creating an A-G/High School Readiness Task Force to increase awareness and understanding of the a-G pathways and address issues preventing students from completing classes in the pathway; Create After School Tutoring Program and/or 7th period student skills class to provide academic support in A-G cases; Support professional development for counselors and teachers in order to increase capacity for supporting A-G classes; provide additional support for OHS summer school program so students can re-take courses in which they received D's or F's in Spring 2020 or Fall or Spring 2020-21.

She reviewed Oakdale Charter's plan for use of funds which includes: Provide targeted A-G related workshops for students and families, ensure all students enrolled at Oakdale Charter are enrolled in A-G classes, and make sure students who receive D's or F's in A-G classes have the opportunity to make up these classes in summer school, night school, or another option. She noted we are excited to bring this plan forward and support our students, and will come back next month for approval.

Board President Gilbert commented that Charter staff has a passion for the college application process, Mr. Parola is amazing, and a number of students have gone through a unique path towards their college journey.

In response to a question from Trustee Shatswell about whether an 'F' grade goes away as part of GPA, Ms. Wegener responded she will check. In response to a question from parent Melissa Goodman about whether the district has looked at credit recovery classes during the day, Ms. Wegener responded that we are looking into a number of different options. Ms. Goodman commented that an improved grade will replace an 'F' grade as long as it's the exact same class.

Public Hearing closed at 8:30 p.m.

APPROVAL OF THIRD QTR. DEVELOPER FEES REPORT

- 12.4 Chief Business Officer Cassandra Booth, presented Third Qtr. developer fees collected, noting we have collected 6 fees: 4 East of Oakdale, 1 new home in Knights Ferry, and 1 accessory dwelling unit in Valley Home.

It was **M/S/C (House/Shatswell)** to approve the Third Quarter Developer Fees Report. Passed unanimously.

ANNUAL DECLARATION OF NEED FOR FULLY QUALIFIED EDUCATORS

- 12.5 Assistant Superintendent Redman presented this annual declaration of the estimated number of educators that may be required to teach on a limited assignment or emergency permit for the 2022/23 school year if fully credentialed teachers are not available.

It was **M/S/C (Betschart/Shatswell)** to approve the Annual Declaration of Need for Fully Qualified Educators. Passed unanimously.

- 14.2 Public Hearing on District Budget
- 14.3 Approval of A-G Completion Grant
- 14.4 Approval of Expanded Learning Opportunities Grant Plan (May or June)

Parent Jennifer Harris asked about parents being able to go back to schools. Trustee Shatswell stated this had been brought up at the last meeting and site principals were surveyed; it will be left to site and teacher discretion. Superintendent Kline added that we are just completing testing at sites, and when we come back from Spring Break, will notify parents. Parent Melissa Goodman asked about next year. Dr. Kline responded that he would like to bring back parents, but we will have to wait and see. Board President Gilbert noted inconsistency between the 4 elementary sites. Superintendent Kline explained that in surveying site principals, some wanted to have volunteers on campus and some did not; it will be left to site and teacher discretion.

Board President Gilbert stated that our next meeting may be chaired by our student board member.
