

VACATIONS: 5411P

Upon retirement or resignation from the District, accrued but unused vacation time can be converted to a cash payment. The Superintendent may allow vacation cash-out in excess of thirty (30) days when a State of Emergency has been declared by the Governor, or a local emergency impacting one or more locations for extended period of times has occurred.

The Superintendent may also allow vacation cash-out on a case by case basis when extraordinary workloads have occurred within a department or school.

Any such cash-out in excess of thirty (30) days cannot trigger additional actuarial costs with the State Retirement System (applicable to Plan 1 members only), and an annual accounting will be provided to the Superintendent.
