

FWPS-050120 Questions

Question: I see in your RFP that you are requesting VoIP equipment that is compatible to Avaya SIP Manager, which we do not have. What caught my attention was the 132 Flat based analog lines for fire, security and emergency phone lines. This is something that we can provide. Would it be possible to bid just on this portion alone?

Answer: Although the district preference is for one vendor to provide all phones services, we would review analog phone line only quote for overall savings/value to the district.

Question: Are the 132 Flat based analog lines for fire alarm, security panels and emergency phones POTS lines?

Answer: The 132 Flat based analog lines are POTS copper phone lines for a combination of fire alarm panels, security alarm panels, office emergency phones and dedicated elevator lines.

Question: Can a list of POTS lines please be provided?

Answer: Yes please page 2.

Question: Can a site list for the POTS lines please be provided?

Answer: Yes, please see page 5.

Question: Page 9 Para. 24 Insurance – Can it please be confirmed that XCU insurance coverage is not applicable?

Answer: We are working to confirm insurance coverage requirements and will post update on <http://www.fwps.org/rfp> prior to May 22, 2020 RFP deadline.

Question: Also can it be confirmed that Prof'l liability coverage (typically applicable to accountants, architects etc) does not apply?

Answer: We are working to confirm insurance coverage requirements and will post update on <http://www.fwps.org/rfp> prior to May 22, 2020 RFP deadline.
