Forms are due the last day of September. Return to your child's school.

Please note, the district does not release Directory Information without specific parental approval between the start of the school year and the last day of September. If you do not return a form by the end of September, we will assume we may release your child's Directory Information for uses such as those described at left.

Forms will be accepted after September, but the district will not be able to retrieve information released between October 1 and the date the form is received.

You have a say in who can see your child's directory information

Here's why you received this document.

Federal law requires that schools tell parents that some of their child's information, called "Directory Information," might be used for certain school-related purposes. Parents and guardians can tell schools not to release this information. (This is part of the law called The Family Educational Rights and Privacy Act of 1974 (FERPA).

Read more at <http://familypolicy.ed.gov/ferpa-parents-students>.)

We ask parents to think carefully before restricting this information.

Unfortunately, by restricting your child's directory information for school publications, your student's name and photo can not be included in student annuals and yearbooks. He or she will not be able to be part of classroom, team or club photos which are intended to be published in yearbooks. And this is just one example. If you need more information before you decide, go to <http://www.fwps.org/parents> and click on "Release of Student Directory Information."

This request will not expire.

We will honor this request indefinitely or until you ask to change it.

What if you change your mind?

If you ask us to restrict your student information, but later change your mind, you can ask to update this form at your child's school office. Or download a new form at <http://www.fwps.org/parents> and click on "Release of Student Directory Information."
