

MVHS SCIENCE & TECHNOLOGY MAGNET

SAMPLE PATHWAY

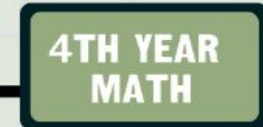

I like animals, outdoor activities, and hanging out with my friends. My mom works in the health industry, and I really like helping people. I think maybe a doctor or a veterinarian?

I want to continue to explore the medical field

I love the exploring phenomena and hands-on sciences

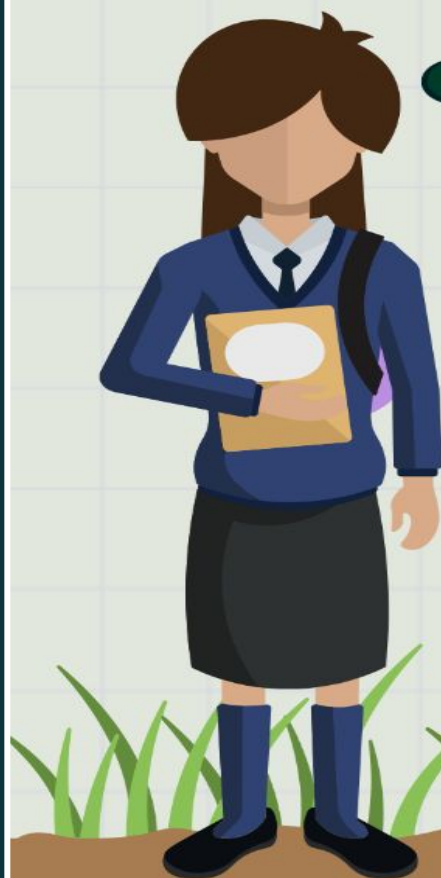

My favorite part of these classes is working in groups to solve problems that I care about

I loved how language creates community, and I loved the hands on component of the patient care and PLTW sequence. I'm thinking maybe I could be a traveling nurse!

To: University
Major: Traveling Registered Nurse
Training: B.A. needed
Growth in SD: 7%

Wages:
 \$77k ~avg.

WHERE WILL YOUR PATH LEAD YOU?

Mission Vista High School students will choose **17** classes in addition to the **15** required classes

I knew I wanted to go to a 4-year university after high school, so I made sure to build the UC A-G requirements into my pathway.
