August 2020

Dear Students, Parents and Guardians,

As a school community, it is incumbent upon all of us to do our part to prevent the spread of COVID-19 both inside and outside of our schools. Over the summer, our district has taken many steps to ensure that students and staff members will be safe on school campuses when we return to in-person learning. Every school has developed a safe reopening, COVID-19 prevention plan that will guide school operations when we resume.

As part of our reopening plan, we are providing all members of our school community with very important information related to COVID-19. It is important that you carefully review all the information contained in this packet of materials and that you discuss this information with all the members of your household. Our collective efforts as a school community will protect one another and contribute towards ending this pandemic.

If you have any questions related to the coronavirus disease, please do not hesitate to reach out to your school nurse. A list of school nurses can be found on our VUSD Health & Safety website on the internet at vistausd.org. If you have questions about the procedures that your school will be using when in-person instruction resumes, please reach out to your school's principal.

Sincerely,

Dr. Matt Doyle
Superintendent
