---	--

***Course Description***

Senior students will attend this class at the York HACC campus from 12-4 p.m. each school day from September through May in addition to Spring Grove Area High School classes and must provide their own transportation. This program will train the students for entry level automotive technician jobs. The students will be required to pass a written exam and inspect a vehicle as part of the testing procedure to earn a Pennsylvania State Inspection License as well as perform the Pennsylvania emissions test and take the computer based and written PA Emissions Inspection Certification exams. There is a fee for this program which the student will be responsible for paying. The students enrolled in this program must also be enrolled in our Diversified Occupations Work Release course and program.
