Independent Auditors' Report

To the Board of Trustees Forney Independent School District Forney, Texas

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Forney Independent School District (the "District") as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal controls over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the District as of June 30, 2012, and the respective changes in financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 8, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 11 and 35through 37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The combining and individual nonmajor fund financial statements, the TEA required schedules, except for those marked "unaudited" for which we express no opinion and the schedule of expenditures of federal awards are presented for the purpose of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is also presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements, the TEA required schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Forney Independent School District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2012.

Financial Highlights

- The liabilities of the District exceeded its assets at the close of the most recent fiscal year by (\$71,523,001) (deficit net assets).
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$3,944,753 an increase of \$4,105,784 in comparison with the prior year. The increase in governmental fund balances was primarily due to the increase in the capital projects fund balance of \$5,912,507.
- At the end of the current fiscal year, unassigned fund balance for the general fund was (\$3,450,794) or (6) percent of total general fund expenditures.
- The District's total bonded debt increased, net, by \$9,089,845 during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

The government-wide financial statements of the District are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include Instruction, Instructional Resources and Media Services, Curriculum and Instructional Staff Development, Instructional Leadership, School Leadership, Guidance, Counseling, and Evaluation Services, Health Services, Student Transportation, Food Services, Co-curricular/Extracurricular Activities, General Administration, Plant Maintenance and Operations, Security and Monitoring Services, Data Processing Services, Community Services, Interest on Long-term Debt, Bond Issuance Costs and Fees, Facilities Acquisition and Construction, and Appraisal District Fees.

The government-wide financial statements can be found on pages 12 through 13 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains twenty-nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and the capital projects fund, all of which are considered to be major funds. Data from the other twenty-six governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in the financial statements. The District adopts an annual appropriated budget for its general fund, debt service fund, and Child Nutrition Fund special revenue fund.

The basic governmental fund financial statements can be found on pages 14 through 19 of this report.

Fiduciary fund

The fiduciary fund is used to account for resources held for the benefit of students. The fiduciary fund is *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the District's own programs. The fund is custodial in nature (assets equal liabilities) and does not involve measurement of results of operation.

The basic fiduciary fund financial statements can be found on page 20 of this report.

Notes to financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21 through 34 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Required supplementary information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. The required supplementary information relates to comparison of the original adopted budget, the final amended budget, and the actual amounts for the fiscal year. This is required supplementary information for the general fund and any major special revenue funds. The District did not have any major special revenue funds; therefore, only the general fund is presented as required supplementary information. The required supplementary information can be found on pages 35 through 37 of this report.

Other information

The combining and individual fund statements and schedules and other supplementary information are presented immediately following the required supplementary information and can be found on pages 38 through 55 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a District's financial position. In the case of the District, liabilities exceeded assets by (\$71,523,001) at the close of the most recent fiscal year.

The District's investment in capital assets (e.g., capitalized bond and debt issuance costs, land, buildings and improvements, furniture and equipment, construction in progress), less any outstanding related debt used to acquire those assets, amounted to (\$51,289,957) The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Governmental activities

Governmental activities decreased the District's net assets by (\$6,995,989). Key elements of this decrease are as follows:

Revenues are generated primarily from two sources – state aid grants and operating grants and contributions (\$37,332,239) and property taxes (\$34,442,655). The remaining sources include charges for services, investment earnings, and miscellaneous revenues (\$5,228,153). Slightly higher property tax revenues were the result of the District's net assessed appraisal values increasing by ½ percent from the previous year.

The primary functional expense of the District is instruction (\$36,240,760), which represents 43 percent of total expenses. Plant maintenance and operations (\$8,675,669) represents 10 percent of total expenses. Interest on long-term debt (\$14,685,126) also represents 17 percent of total expenses of the District. The remaining individual functional categories of expenses are each less than 6 percent of total expenses.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$3,944,753, an increase of \$4,105,784 in comparison with the prior year. The increase in ending governmental fund balances is primarily due to the sale of \$12.22 million in general obligation bonds which had not been fully spent by year end.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, fund balance of the general fund was a deficit of (\$3,450,794). A deficit of (\$3,656,572) is classified as unassigned fund balance and a balance of \$205,778 is identified as non-spendable fund balance to reflect the deferred expenditures balance (see page 14).

The fund balance of the District's general fund increased by \$564,308 during the current fiscal year primarily due to the budget reductions made by the Board and management.

The debt service fund has a total fund balance of \$3,354,194 all of which is restricted for the retirement of long-term debt. The net decrease in the debt service fund balance during the current year of (\$2,382,685) was attributable to the increase in current year debt obligations versus a stagnant tax base.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

The capital projects fund has a total, restricted fund balance of \$3,583,720. The net increase in fund balance during the current year of \$5,912,507 was primarily due to the start and completion of various construction projects related to the \$12.22 million of new general obligation bonds sold during the year.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget of the general fund can be briefly summarized as follows:

	Appropriations
Original	\$ 56,539,310
Final	58,199,000
Total appropriations increase	\$ 1,659,690

The review of the final amended budget versus actual for the general fund reflected that revenues were slightly less than budgetary estimates (\$7,678) and expenditures were less than budgetary estimates (\$1,816,966). See pages 35-36 for Exhibit G-1 Budgetary Comparison Schedule.

Capital Assets and Long-term Liabilities

Capital assets

The District's investment in capital assets for its governmental type activities as of June 30, 2012, amounts to \$232,900,718 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and furniture and equipment. The total increase in the District's investment in capital assets for the current fiscal year was 2 percent.

Additional information on the District's capital assets can be found in note D on page 27 in the notes to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

Long-term liabilities

At the end of the current fiscal year, the District had \$285,408,490 in bonded debt outstanding, a net increase of \$9,089,845 over the previous year. The District's bonds are sold with a "AAA" rating and are guaranteed through the Texas Permanent School Fund Guarantee Program or by a municipal bond insurance policy. The underlying rating of the bonds from Standard and Poor's is "BBB+" and from Fitch is "BBB" for general obligation debt.

Changes to long-term debt, for the year ended June 30, 2012, are as follows:

	Balance June 30, 2011	Additions	Retirements	Balance June 30, 2012
General obligation bonds	\$ 276,318,645	\$ 12,220,000	\$ (3,130,155)	\$ 285,408,490

	\$ 297,868,307	\$ 14,321,245	\$ (5,089,278)	\$ 307,100,274

Additional information on the District's long-term liabilities can be found in note G, on pages 28 through 30 of the notes to the financial statements.

Economic Factors and Next Year's Budgets and Tax Rates

The 2012-2013 general fund budget was largely affected by the 82nd Texas Legislative Session. The Legislature convened in its 82nd Regular Session (the "Regular Session") on January 11, 2011, and ending the Regular Session May 30, 2011. During the Regular Session, the Legislature enacted a budget that reduced public school state funding by approximately \$4 billion for the 2012-2013 State fiscal biennium, as compared to the budget for the 2010-2011 State fiscal biennium. The reductions were made in light of a projected State deficit estimated to be \$27 billion for the 2012-2013 State fiscal biennium, based upon the State Comptroller's biennial revenue estimate of January 10, 2011. Because the Legislature did not adopt implementing legislation providing for funding the public school finance system for the upcoming biennium, the Governor called the Legislature into a 30-day special session on May 31, 2011 (the "First Called Session").

On June 29, 2011, during the First Called Session, Senate Bill 1 ("SB 1") was enacted by the Legislature, and the bill was sent to the Governor to be signed into Law. SB 1 will reduce State funding for public schools in the State by \$2 billion for each fiscal year of the upcoming biennium. The reductions will be made by applying an across-the-board percentage reduction in funding for all school districts in 2012. The 2012 funding reductions are to be moderated by the use of \$830 million of Federal funds available for education jobs in the State in 2012. Of the \$2 billion in budget cuts for fiscal year 2012, \$500 million will be saved by reducing the target revenue hold harmless funding provided in HB 1 adopted by the Legislature in 2007. Such cuts to target revenue hold harmless provision of the current Finance System will impact higher spending districts that have higher target revenues more significantly than districts with lower target revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)

As a result of the reduction to revenue, the District made several changes to staffing, programs and services for the 2012-2013 biennium. The most notable changes are listed below:

- State aid was reduced by \$3.4 million in 2011/12 and another \$1.2 million in 2012/13
- Education Jobs Funds of \$1.2 million will be eliminated entering the 2012/13 fiscal year
- General Fund revenues are expected to be \$55 million
- General Fund expenditures are expected to be \$55 million

The District has seen an increase in enrollment from 8,257 to 8,521 students. The taxable base increased by one percent and that combined tax rate increased to \$1.54 (\$1.04 for Maintenance and Operations and \$0.50 for Interest and Sinking). No changes were made to the salary scales and no raises were provided.

The District has a 5-year equal repayment plan with the Agency for prior overfunding resulting from the 2010-11 fiscal year. The first payment was spread throughout the 2011-12 fiscal year and the final payment will be spread throughout the 2015-16 fiscal year. Please see page 33 for more details.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Lucas Janda, Chief Financial Officer, Forney Independent School District, 600 South Bois d'Arc, Forney, TX 75126.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

A. Summary of Significant Accounting Policies

The basic financial statements of Forney Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

1. Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental "reporting entity" as defined by the GASB in its Statement No. 14, "The Financial Reporting Entity," as revised by GASB Statement No.39, and there are no component units included within the reporting entity.

2. Basis of Presentation, Basis of Accounting

Basis of Presentation

Government-wide Financial Statements: The statement of net assets and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund: This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Capital Projects Fund: This fund is used to account for proceeds from sales of bonds and other revenues to be used for authorized construction and technology projects/enhancements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

In addition, the District reports the following fund types:

Special Revenue Funds: These funds are used to account for resources restricted to, or designated for, specific purposes by a grantor including federally-funded and state-funded grants. These grants are awarded to the District for the purpose of accomplishing specific educational tasks as defined in the grant awards.

Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

b. Measurement Focus, Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

3. Financial Statement Amounts

a. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. Information related to the tax rate, assessed valuation, and tax levy can be found on pages 50-51.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

b. Inventories and Prepaid Items

The District records purchases of supplies as expenditures, utilizing the purchase method of accounting for inventory in accordance with the Resource Guide.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings and Improvements	15-50
Vehicles	5-10
Office Equipment	3-15

d. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

e. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net assets.

f. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

g. Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

h. Compensated Absences

During the fiscal year, the District eliminated the policy that provided compensation for unused absences.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

i. Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable Fund Balance - represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid insurance) or legally required to remain intact (such as notes receivable or principal of a permanent fund).

Restricted Fund Balance - represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed Fund Balance - represents amounts that can only be used for a specific purpose because of a formal action by the District's governing board. Committed amounts cannot be used for any other purpose unless the governing board removes those constraints by taking the same type of formal action. Committed fund balance amounts may be used for other purposes with appropriate due process by the governing board. Commitments are typically done through adoption and amendment of the budget. Committed fund balance amounts differ from restricted balances in that the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation. The full amount of campus activity fund balance is committed.

Assigned Fund Balance - represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the governing board or by an official or body to which the governing board delegates the authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself.

Unassigned Fund Balance - represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of overspending for specific purposes for which amounts had been restricted, committed or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

B. Compliance and Accountability

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

ViolationAction TakenNone reportedNot applicable

2. Deficit Fund Balance or Fund Net Assets of Individual Funds

Following are funds having deficit fund balances or fund net assets at year end, if any, along with remarks which address such deficits:

Fund Name

General Fund

Deficit Amount
(3,450,794)

Remarks

The District plans to eliminate the deficit fund balance by the 2014/15 fiscal year.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

C. Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

1. Cash Deposits:

At June 30, 2012, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$15,832,175 and the bank balance was \$520,751. The District's cash deposits at June 30, 2012 and during the year ended June 30, 2012, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

2. Investments:

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Additionally, investment practices of the District were in accordance with local policies.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

The District's investments at June 30, 2012 for all governmental funds are shown below.

Investment or Investment Type	Fair Value	WAM (Days)
LOGIC	\$ 6,822,109	38
Texas Class	4,359,427	33
Texpool	4,650,639	46
Total Investments	\$ 15,832,175	

Cash and deposits at June 30, 2012 were \$520,751.

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk as balances in Texpool, LOGIC, and MBIA/Texas Class, privately managed public funds investment pools, were rated AAAm by Standard & Poor's.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

All credit ratings met acceptable levels required by legal guidelines prescribed in both the PFIA and the District's investment policy.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within one half of one percent of the value of its shares.

3. Capital Leases

The District is obligated under two capital leases for the purchase of school buses. The following schedule lists personal property leased:

		Date of	Original
Capital Lease Details	Interest Rate	Agreement	Property Value
Capital One, NA	5.42%	5/21/2009	\$ 529,801
American National Bank	3.75%	6/30/2010	564,399

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

Commitments under capitalized lease agreements for facilities and equipment provide for minimum future lease payments as of June 30, 2012, as follows:

Fiscal Year	Principal	Interest			
2013	\$ 214,232 \$	35,666			
2014	224,137	25,761			
2015	234,465	15,435			
2016	121,479	4,619			
	\$ 794,313 \$	81,481			

4. Loans Payable

As of June 30, 2012, the District's loan payable balance totaled \$1,300,000. Series 2002, Maintenance Tax Notes were executed with City Bank on July 1, 2002 for the construction of a stadium. The following represents the annual payments due:

Fiscal Year	Principal	Interest
2013	\$ 260,000 \$	19,562
2014	260,000	15,648
2015	260,000	11,736
2016	260,000	7,824
2017	260,000	3,912
	\$ 1,300,000 \$	58,682

H. Commitments Under Noncapitalized Leases

Commitments under operating lease (non-capitalized) agreements for facilities and equipment are subject to fiscal funding clauses. As such, the agreements are cancelable and the District is therefore not obligated for minimum future rental payments as of June 30, 2012. The imputed interest on the leases is not readily determinable.

I. Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2012, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

J. Pension Plan

1. Plan Description

The District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple employer defined benefit pension plan. TRS administers retirement and disability annuities, and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by downloading the report from the TRS internet website, www.trs.state.tx.us, under the TRS Publications heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

2. Funding Policy

Contribution requirements are not actuarially determined but are established and amended by the Texas state legislature. The state funding policy is as follows: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6.0% of the member's annual compensation and a state contribution rate of not less that 6.0% and not more than 10% of the aggregate annual compensation of all members of the system. (2) A state statute prohibits benefit improvements or contribution reductions if, as a result of a particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. State law provides for a member contribution rate of 6.4% for fiscal years 2012, 2011 and 2010, and a state contribution rate of 6.0% for fiscal year 2012 and 6.644 for fiscal years 2011 and 2010. In certain instances the reporting district is required to make all or a portion of the state's contribution. State contributions to TRS made on behalf of the District's employees for the years ending June 30, 2012, 2011 and 2010 were \$2,025,998, \$2,389,667 and \$2,171,536, respectively. The District paid additional state contributions for the years ending June 30, 2012, 2011 and 2010 in the amount of \$826,124, \$989,035 and \$869,538, respectively, on portion of the employees' salaries that exceeded the statutory minimum.

K. Retiree Health Care Plans

1. TRS-Care

a. Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas (TRS). TRS-Care Retired Plan provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS web site at www.trs.state.tx.us under the TRS Publications heading, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling the TRS Communications Department at 1-800-223-8778.

b. Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55% for fiscal years 2012, 2011 and 2010. For the years ended June 30, 2012, 2011, and 2010, the State's contributions to TRS-Care were \$430,937, \$428,862, and \$326,822, respectively, the active member contributions were \$280,109, \$291,721, and \$273,587, respectively, and the District's contributions were \$237,016, \$266,782, and \$231,497, respectively, which equaled the required contributions each year.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

Medicare Part D Subsidies

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended June 30, 2012, 2011, and 2010, the subsidy payments received by TRS-Care on behalf of the District were \$94,122, \$118,686, and \$107,244, respectively.

3. Early Retiree Reinsurance Program (ERRP)

The Early Retiree Reinsurance Program (ERRP) is a provision of the Patient Protection and Affordable Care Act (PPACA) and provides reimbursement to plan sponsors for a portion of the cost of providing health benefits to retirees between the ages of 55-64 and their covered dependants regardless of age. An "early retiree" is defined as a plan participant aged 55-64 who is not eligible for Medicare and is not covered by an active employee of the plan sponsor.

This temporary program is available to help employers continue to provide coverage to early retirees. ERRP reimbursement is available on a first come, first served basis for qualified employers that apply and become certified for the program. TRS has been certified for this program and has received funds from the ERRP program. For the fiscal year ended June 30, 2012, the amount received by TRS-Care on behalf of the District was \$109,747.

L. Employee Health Care Coverage

During the year ended June 30, 2012, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$225 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to a third party administrator, acting on behalf of the licensed insurer. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement.

The contract between the District and the third party administrator is renewable September 1, 2012, and terms of coverage and premium costs are included in the contractual provisions.

Latest financial statements for the TRS Active Care are available and have been filed with the Texas State Board of Insurance, Austin, Texas, and are public records.

M. Commitments and Contingencies

1. Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Litigation

No reportable litigation was pending against the District at June 30,2012.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

N. Shared Services Arrangements

Shared Services Arrangement - Membership

The District participates in a shared services arrangement ("SSA") for a federal program with Mesquite ISD for deaf education services.

The District does not account for revenues or expenditures in this program and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, school name, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA.

O. Subsequent Events

On July 11, 2012, the District issued Unlimited Tax Refunding Bonds, Series 2012 in the amount of \$3,924,461. The proceeds from the sale of the bonds will be used refund bonds from the 2004A, 2006, 2006A, 2006B, 2006C, 2006D, 2007A, 2009-Ref, 2009-Building, 2010, and 2011 bond series.

P. Prior Period Adjustments

Beginning net assets as of July 1, 2011 have been restated to reflect adjustments made both at the fund and government-wide level. Below is a list of prior period adjustments made.

Debt Service Fund - Overstated Due to State (Prior Year State Aid Overpayments) *	\$	326,517
Overstated Fixed Assets (government-wide)		(19,081,782)
Total on Exhibit B-1	\$_	(18,755,265)

* The Agency mailed Forney ISD a letter dated April 27, 2012 that identified actual 2010-11 overpayments for Existing Debt Allotment (EDA) and Instructional Facilities Allotment (IFA) at \$3,753,526 which was \$326,517 lower than originally calculated at the time of issuance of the 2010-11 audit report.

Q. <u>Deferred Revenue</u>

During the fiscal year, the District obtained a 5-year equal repayment plan with the Texas Education Agency for overfunding resulting from the 2010-11 fiscal year. The first payment was spread throughout the 2011-12 fiscal year and the final payment will be spread throughout the 2015-16 fiscal year. The various components of deferred revenues reported in the governmental fund types are as follow:

Delinquent property taxes receivable (General Fund) Delinquent property taxes receivable (Debt Service Fund)	
Prior year overpayments (General Fund)	
Prior year overpayments (Debt Service Fund) Grant funds received prior to meeting all eligibility requirements

R. Workers' Compensation Insurance

The District is a member of Workers' Compensation Solutions (the Pool), a public entity risk pool for workers' compensation, which is self-sustained through member premiums. The Pool reinsures to statutory limits through commercial companies for claims in excess of \$2,000,000. The Pool contracts with independent actuaries to determine the adequacy of reserves and fully funds those reserves. Members of the Pool have no known liabilities for workers' compensation coverage in excess of the contracted annual premium. However, if the assets of the Pool were to be exhausted, members would be liable for their portions of the Pool's liabilities.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years. Independent auditors conduct a financial audit at the close of the plan year and as of the most recent audit, the Pool has adequate assets to cover 100% of all liabilities.

S. Revenues from Local, Intermediate, and Out-of-State Sources

Revenues from local, intermediate and out-of-state sources in the governmental fund types are as follow:

	General Fund	Debt Service Fund	Capital Projects Fund	Other Governmental Funds	Total

T. Arbitrage

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of (1) the amount earned on investments purchased with bond proceeds over (2) the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five year anniversary date of the bond issue. The District has estimated it does not have an arbitrage liability as of June 30, 2012.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2012

Budgets and Budgetary Accounting

The District adopts annual appropriations type budgets for the General Fund, Food Service Special Revenue Fund, and the Debt Service Fund using the same method of accounting as for financial reporting, as required by law. The remaining Special Revenue Funds (primarily federal grant programs) utilize a managerial type budget approved at the fund level by the Board of Trustees upon acceptance of the grants. These grants are subject to Federal, State and locally imposed project length budgets and monitoring through submission of reimbursement reports.

Expenditures may not legally exceed budgeted appropriations at the function or activity level. Expenditure requests which would require an increase in total budgeted appropriations must be approved by the Trustees through formal budget amendment. State law prohibits Trustees from making budget appropriations in excess of funds available and estimated revenues. State law also prohibits amendment of the budget after fiscal year end. Supplemental appropriations were made to the General Fund during the fiscal year ended June 30, 2012.

The administrative level at which responsibility for control of budget appropriations begins at the organizational level within each function of operations. The finance department reviews closely the expenditure requests submitted by various organizational heads (principals and department directors) throughout the year to ensure proper spending compliance. No public funds of the District shall be expended in any manner other than as provided for in the budget adopted by the Board of Trustees.

The official school budget was prepared for adoption for budgeted governmental fund types by June 30, 2012. The budget was formally adopted by the Board of Trustees at a duly advertised public meeting prior to the expenditure of funds. The final amended budget is filed with the Texas Education Agency (TEA) through inclusion in the annual financial and compliance report.

Encumbrance accounting is utilized in all government fund types. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at year-end and encumbrances outstanding at that time are appropriately provided for in the subsequent year's budget.

Expenditures in Excess of Appropriations

All expenditures in the General Fund were within budgeted appropriations except for the following functional categories:

Instructional Resources and Media Services	\$ 3,453
Curriculum and Staff Development	4,014

These two categories were overexpended due to a new on-behalf program, Early Retiree Reinsurance Program, that was not taken into consideration by the CFO when the final amended budget was presented before the Board This on-behalf amount is for reporting purposes only and is not an actual amount that is disbursed from available cash funds.

Combining Statements and Budget Comparisons as Supplementary Information
This supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Forney Independent School District Forney, Texas

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Forney Independent School District (the "District") as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 8, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of the District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting and are listed as findings #2012-01 and #2012-03. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

56

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standard*.

The District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the District's response and, accordingly, we express no opinion on it.

Closing

This report is intended solely for the information and use of the board of trustees, management, the Texas Education Agency and other applicable federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Board of Trustees Forney Independent School District Forney, Texas

Compliance

We have audited Forney Independent School District's (the "District") compliance with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2012. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of District management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as items #2012-02.

Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as item #2012-03 to be a significant deficiency.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the District's responses and accordingly, we express no opinion on the responses.

Closing

This report is intended solely for the information and use of the board of trustees, the audit committee, management, others within the organization and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

II. Financial Statement Findings

Finding #2012-01

Criteria: All journal entries should be approved by someone other than the person that

prepared and entered the journal entry.

Condition: During our journal entry test, we noted that three out of twelve journal entries

were not approved by a second reviewer. Management personnel had discussed the entries selected with the preparer. As such, there was no formal approval

obtained once the entry was prepared and entered into the system.

Cause: These entries were discussed with management prior to their preparation and

entered into the system.

Effect: Written approval was lacking on select journal entries.

Recommendation: All journal entries should have written approval.

III. Federal Awards Findings and Questioned Costs

Finding # 2012-02 Child Nutrition (CFDA 10.553 and 10.555): Procurement

Criteria: Per the OMB Circular A-133 Compliance Supplement, compliance requirement I

Procurement Suspension and Debarment, governmental sub-recipients of States, shall use the same State policies and procedures (Texas Education Code Section 44.031) used for procurement from non-Federal funds. In addition, the Texas Department of Agriculture's NSLP Administrative Reference Manual, Section 14.5, requests for any capital expenditures in excess of \$5,000 must be sent to and approved by Texas Department of Agriculture in advance. This request should is

completed via TX-UNPS.

Condition: The District purchased kitchen equipment to produce specific food items to the

students. The district did not document the competitive procurement used to procure these goods. In addition, TDA approval was not received prior to

purchasing the goods.

Cause: Unknown. This purchase was entered into prior to the installment of the current

CFO.

Effect: The District was not in compliance with federal and state law and regulations.

Questioned Costs: None

Recommendation: The District should ensure that all capital expenditures in excess of \$5,000 are

approved by TDA prior to entering into a contract with vendors. In addition, state

procurement laws should be followed for purchases in excess of \$50,000.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (continued) For The Year Ended June 30, 2012

III. Federal Awards Findings and Questioned Costs (continued)

Finding #2012-03 Child Nutrition (CFDA 10.553 and 10.555) Internal control over Cash Receipts (Program Income)

Criteria: Amounts charged and collected for breakfast and lunch meals served are

considered program income under OMB Circular A-133. As such, internal controls over t program income must be in place to ensure it is properly handled. Strong internal controls over meal program income dictate that the person collecting the cash should sign off on the amount collected. In addition, another individual other than the person collecting the cash, preparing the close reports and deposits should verify the daily cash counts and indicate his/her review

through the use of initials or signature.

Condition: We reviewed a total of 25 (five receipts for five campuses) cash receipt

transactions and noted that no approval or reviewer signature was present on the count sheets. We were unable to determine if the daily closing report and deposit

were prepared and reviewed by different individuals.

Cause: Unknown

Effect: The lack of review and approval by someone other than the individual collecting

the cash, could lead to a material misstatement that would not allow for an employee to prevent, or detect and correct, noncompliance requirement of a

federal program on a timely basis.

Questioned Costs: None

Recommendation: We recommend that each cashier sign off on the daily count sheets and other

applicable closing reports as well as the child nutrition managers at each campus.

FORNEY INDEPENDENT SCHOOL DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the District under programs of the federal government for the year ended June 30, 2012. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Government, and Non-Profit Organizations*. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net assets or cash flows of the District.

Note 2 - Summary of Significant Accounting

The District accounts for all awards under federal programs in the General and Certain Special Revenue Funds in accordance with the Texas Education Agency's *Financial Accountability System Resource Guide*. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited to reimbursement. Pass-through entity identifying numbers are presented where available.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods.

Note 3 - General Fund Federal Revenue

Federal awards and funds reported in the General Fund are summarized as follows:

Program or Source	CFDA No.	CFDA No. Amo	
Indirect Costs:			
School Breakfast Program*	10.553	\$	67,199
National School Lunch Program*	10.555		230,498
