

Introduction:

The Simi Valley Unified School District is a suburban public school district serving about 125,000 residents of the city of Simi Valley, as well as its surrounding areas. Many of Simi's campuses are recognized as California Distinguished Schools, California Gold Ribbon Schools and National Blue Ribbon schools, and other designations recognizing the quality educational opportunities available to our students.

In 2014-15, the district's enrollment was 17,603 K-12 students at 28 school sites, along with one adult school and one independent study/homeschool program. Since its peak in 2003-2004 of 21,727 students, SVUSD has experienced declining enrollment, caused in large part to a shrinking economy and the closure of several large businesses in the city. Currently, we are the largest employer in Simi Valley.

As the second largest school district in Ventura County, SVUSD offers many different kinds of educational experiences. This year saw the launch of SVUSD Pathways. Funded by more than \$2 million in state grants, SVUSD Pathways are guided courses in specific industries to help nurture a student's passion and future career goals. Most of the courses include college credit and all include direct interaction with industry professionals through internships, field trips, guest speakers and job shadowing opportunities. Next year, the district's three middle schools will begin offering courses to support the SVUSD Pathways.

Other unique high school programs to the district include the Air Force Junior ROTC and the International Baccalaureate Diploma Programme, both at Royal High School; the Academics, Technology and Performing Arts Academies at Santa Susana High School; and the Medical & Health Careers Academy and Advanced Placement Capstone Program at Simi Valley High School. Together, the three main high schools enjoy a graduation rate of 91.1%—higher than the county and state rates.

The continuation school, Apollo High School, is one of only 29 Model Continuation High Schools in California. Next year, we will expand the programs offered at Monte Vista School, the independent study/homeschool academy. Monte Vista School will be relocated to the campus of Lincoln Elementary School, which will close June 30, 2015. Monte Vista will also offer kindergarten for the first time. With the move and the addition of kindergarten to the curriculum at Monte Vista, we are able to offer a complete homeschool program (onsite science labs, computer labs and language teachers), which should bring in families currently attended independent homeschool programs not able to provide these options.

At the middle schools, Hillside Middle School completed its transition into a S.T.E.A.M. school with an emphasis on visual and performing arts, computer science and aerospace. Sinaloa Middle School and Royal High School are partnering to create an International Baccalaureate Middle Years Program for grades 7 to 10. Valley View Middle School is already known for its medical science courses and outstanding music programs.

The 18 elementary schools have diverse programs as well. Four Title 1 schools (Berylwood, Park View Center, Santa Susana Elementary, and Arroyo in 2015-16) enjoy a wealth of additional resources to help their young students. Two fundamental schools—Vista and Hollow Hills Elementary—continue to reinforce strong academic performance among its students, though most of our elementary schools enjoy exceptional academic performance among its students. All of the schools offer before- and/or after-school programs, extracurricular activities and clubs, and several

campuses are the home of Junior and Transitional Kindergarten programs. In the 2015-16 school year, all-day kindergarten will be found in every school. All of our schools have active and supportive Parent-Teacher-Student Associations (PTSA's) that serve the school sites in many supportive ways.

SVUSD is also well-known for the quality of its Special Education programs. About 2,300 children with varying identified disabilities attend SVUSD schools. Special programs, such as Circle of Friends and music therapy, are offered to our Special Education students, and every effort is made to appropriately "mainstream" these students with their typically performing peers.

SVUSD continues to serve a diverse population with 52% of its students and families being white (non-Hispanic), 33% Hispanic, 7.8% Asian, 1.8% Filipino, 1% African American, and with less than 1% including, but not limited to, American Indian and Pacific Islander. More than 30 languages are spoken among SVUSD's families. Current enrollment of English Language Learners (ELLs) in the district is 1,512 students with 2,562 Fluent English Proficient, for a total of 4,074.

Within the SVUSD there are several group homes that have students enrolled in Simi Valley schools.

This year, the SVUSD Board of Trustees aligned its goals to the current LCAP goals:

1. To produce college and career ready graduates;
2. To fully implement the California Academic Standards;
3. To increase student achievement;
4. To create strong parent partnerships; and
5. To have safe and engaging school environments.

Over the last decade, every campus in the District received technology upgrades and facility modernization through a locally approved \$145 million school bond, Measure C4. The District has aggressively upgraded most of its infrastructure to enable its schools to all become part of the 21st century learning community and to fulfill its mission: To improve the world one student at a time.

Local Control and Accountability Plan and Annual Update

The Local Control and Accountability Plan (LCAP) and Annual Update Template shall be used to provide details regarding local educational agencies' (LEAs) actions and expenditures to support pupil outcomes and overall performance pursuant to Education Code sections 52060, 52066, 47605, 47605.5, and 47606.5. The LCAP and Annual Update Template must be completed by all LEAs each year.

For school districts, pursuant to Education Code section 52060, the LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, for each of the state priorities and any locally identified priorities.

For county offices of education, pursuant to Education Code section 52066, the LCAP must describe, for each county office of education-operated school and program, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, who are funded through the county office of education Local Control Funding Formula as identified in Education Code section 2574 (pupils attending juvenile court schools, on probation or parole, or mandatorily expelled) for each of the state priorities and any locally identified priorities. School districts and county offices of education may additionally coordinate and describe in their LCAPs services provided to pupils funded by a school district but attending county-operated schools and programs, including special education programs.

Charter schools, pursuant to Education Code sections 47605, 47605.5, and 47606.5, must describe goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, for each of the state priorities as applicable and any locally identified priorities. For charter schools, the inclusion and description of goals for state priorities in the LCAP may be modified to meet the grade levels served and the nature of the programs provided, including modifications to reflect only the statutory requirements explicitly applicable to charter schools in the Education Code.

The LCAP is intended to be a comprehensive planning tool. Accordingly, in developing goals, specific actions, and expenditures, LEAs should carefully consider how to reflect the services and related expenses for their basic instructional program in relationship to the state priorities. LEAs may reference and describe actions and expenditures in other plans and funded by a variety of other fund sources when detailing goals, actions, and expenditures related to the state and local priorities. LCAPs must be consistent with school plans submitted pursuant to Education Code section 64001. The information contained in the LCAP, or annual update, may be supplemented by information contained in other plans (including the LEA plan pursuant to Section 1112 of Subpart 1 of Part A of Title I of Public Law 107-110) that are incorporated or referenced as relevant in this document.

For each section of the template, LEAs shall comply with instructions and should use the guiding questions as prompts (but not limits) for completing the information as required by statute. Guiding questions do not require separate narrative responses. However, the narrative response and goals and actions should demonstrate each guiding question was considered during the development of the plan. Data referenced in the LCAP must be consistent with the school accountability report card where appropriate. LEAs may resize pages or attach additional pages as necessary to facilitate completion of the LCAP.

State Priorities

The state priorities listed in Education Code sections 52060 and 52066 can be categorized as specified below for planning purposes, however, school districts and county offices of education must address each of the state priorities in their LCAP. Charter schools must address the priorities in Education Code section 52060(d) that apply to the grade levels served, or the nature of the program operated, by the charter school.

A. Conditions of Learning:

Basic: degree to which teachers are appropriately assigned pursuant to Education Code section 44258.9, and fully credentialed in the subject areas and for the pupils they are teaching; pupils have access to standards-aligned instructional materials pursuant to Education Code section 60119; and school facilities are maintained in good repair pursuant to Education Code section 17002(d). (Priority 1)

Implementation of State Standards: implementation of academic content and performance standards and English language development standards adopted by the state board for all pupils, including English learners. (Priority 2)

Course access: pupil enrollment in a broad course of study that includes all of the subject areas described in Education Code section 51210 and subdivisions (a) to (i), inclusive, of Section 51220, as applicable. (Priority 7)

Expelled pupils (for county offices of education only): coordination of instruction of expelled pupils pursuant to Education Code section 48926. (Priority 9)

Foster youth (for county offices of education only): coordination of services, including working with the county child welfare agency to share information, responding to the needs of the juvenile court system, and ensuring transfer of health and education records. (Priority 10)

B. Pupil Outcomes:

Pupil achievement: performance on standardized tests, score on Academic Performance Index, share of pupils that are college and career ready, share of English learners that become English proficient, English learner reclassification rate, share of pupils that pass Advanced Placement exams with 3 or higher, share of pupils determined prepared for college by the Early Assessment Program. (Priority 4)

Other pupil outcomes: pupil outcomes in the subject areas described in Education Code section 51210 and subdivisions (a) to (i), inclusive, of Education Code section 51220, as applicable. (Priority 8)

C. Engagement:

Parental involvement: efforts to seek parent input in decision making at the district and each schoolsite, promotion of parent participation in programs for unduplicated pupils and special need subgroups. (Priority 3)

Pupil engagement: school attendance rates, chronic absenteeism rates, middle school dropout rates, high school dropout rates, high school graduations rates. (Priority 5)

School climate: pupil suspension rates, pupil expulsion rates, other local measures including surveys of pupils, parents and teachers on the sense of safety and school connectedness. (Priority 6)

Section 1: Stakeholder Engagement

Meaningful engagement of parents, pupils, and other stakeholders, including those representing the subgroups identified in Education Code section 52052, is critical to the LCAP and budget process. Education Code sections 52060(g), 52062 and 52063 specify the minimum requirements for school districts; Education Code sections 52066(g), 52068 and 52069 specify the minimum requirements for county offices of education, and Education Code section 47606.5 specifies the minimum requirements for charter schools. In addition, Education Code section 48985 specifies the requirements for translation of documents.

Instructions: Describe the process used to consult with parents, pupils, school personnel, local bargaining units as applicable, and the community and how this consultation contributed to development of the LCAP or annual update. Note that the LEA’s goals, actions, services and expenditures related to the state priority of parental involvement are to be described separately in Section 2. In the annual update boxes, describe the stakeholder involvement process for the review, and describe its impact on, the development of the annual update to LCAP goals, actions, services, and expenditures.

Guiding Questions:

- 1) How have applicable stakeholders (e.g., parents and pupils, including parents of unduplicated pupils and unduplicated pupils identified in Education Code section 42238.01; community members; local bargaining units; LEA personnel; county child welfare agencies; county office of education foster youth services programs, court-appointed special advocates, and other foster youth stakeholders; community organizations representing English learners; and others as appropriate) been engaged and involved in developing, reviewing, and supporting implementation of the LCAP?
- 2) How have stakeholders been included in the LEA’s process in a timely manner to allow for engagement in the development of the LCAP?
- 3) What information (e.g., quantitative and qualitative data/metrics) was made available to stakeholders related to the state priorities and used by the LEA to inform the LCAP goal setting process? How was the information made available?
- 4) What changes, if any, were made in the LCAP prior to adoption as a result of written comments or other feedback received by the LEA through any of the LEA’s engagement processes?
- 5) What specific actions were taken to meet statutory requirements for stakeholder engagement pursuant to Education Code sections 52062, 52068, and 47606.5, including engagement with representatives of parents and guardians of pupils identified in Education Code section 42238.01?
- 6) What specific actions were taken to consult with pupils to meet the requirements 5 CCR 15495(a)?
- 7) How has stakeholder involvement been continued and supported? How has the involvement of these stakeholders supported improved outcomes for pupils, including unduplicated pupils, related to the state priorities?

Further implementation of ed-tech will facilitate CCSS implementation.</p> <ol style="list-style-type: none"> 3. All stakeholder groups, including parents, teachers, administrators and students, would like to increase intervention services for students struggling in ELA and math. There is an expressed need by teachers and administrators to create and implement CCSS-aligned district benchmarks in order to monitor student progress. The benchmarks will be used for formative assessment and intervention services. 4. Data indicates that although parents have a parent-portal account to access their student's course progress and grades, it is not being used. The next step will be to work with parents on how to effectively monitor their student's progress using the parent-portal. Improved communication and access to technology will continue to be a priority. Services directed to the Spanish-speaking community will continue. The PAC recommended that parent education in math be a priority to complement the new math adoption. 5. Bullying continues to be a concern for stakeholders. The documentation and process for reporting a complaint were updated this year. Improving the information provided to parents and students online will be a continued goal. Student-adult connections will be developed across schools. Improved mentoring of the student sub-groups will be a priority. District surveys on student connectedness will need to be created for more up-to-date data.

Section 2: Goals, Actions, Expenditures, and Progress Indicators

Instructions:

All LEAs must complete the LCAP and Annual Update Template each year. The LCAP is a three-year plan for the upcoming school year and the two years that follow. In this way, the program and goals contained in the LCAP align with the term of a school district and county office of education budget and multiyear budget projections. The Annual Update section of the template reviews progress made for each stated goal in the school year that is coming to a close, assesses the effectiveness of actions and services provided, and describes the changes made in the LCAP for the next three years that are based on this review and assessment.

Charter schools may adjust the table below to align with the term of the charter school's budget that is submitted to the school's authorizer pursuant to Education Code section 47604.33.

For school districts, Education Code sections 52060 and 52061, for county offices of education, Education Code sections 52066 and 52067, and for charter schools, Education Code section 47606.5 require(s) the LCAP to include a description of the annual goals, for all pupils and each subgroup of pupils, to be achieved for each state priority as defined in 5 CCR 15495(i) and any local priorities; a description of the specific actions an LEA will take to meet the identified goals; a description of the expenditures required to implement the specific actions; and an annual update to include a review of progress towards the goals and describe any changes to the goals.

To facilitate alignment between the LCAP and school plans, the LCAP shall identify and incorporate school-specific goals related to the state and local priorities from the school plans submitted pursuant to Education Code section 64001. Furthermore, the LCAP should be shared with, and input requested from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, pupil advisory groups, etc.) to facilitate alignment between school-site and district-level goals and actions. An LEA may incorporate or reference actions described in other plans that are being undertaken to meet the goal.

Using the following instructions and guiding questions, complete a goal table (see below) for each of the LEA’s goals. Duplicate and expand the fields as necessary.

Goal: Describe the goal:

When completing the goal tables, include goals for all pupils and specific goals for schoolsites and specific subgroups, including pupils with disabilities, both at the LEA level and, where applicable, at the schoolsite level. The LEA may identify which schoolsites and subgroups have the same goals, and group and describe those goals together. The LEA may also indicate those goals that are not applicable to a specific subgroup or schoolsite.

Related State and/or Local Priorities: Identify the state and/or local priorities addressed by the goal by placing a check mark next to the applicable priority or priorities. The LCAP must include goals that address each of the state priorities, as defined in 5 CCR 15495(i), and any additional local priorities; however, one goal may address multiple priorities.

Identified Need: Describe the need(s) identified by the LEA that this goal addresses, including a description of the supporting data used to identify the need(s).

Schools: Identify the schoolsites to which the goal applies. LEAs may indicate “all” for all schools, specify an individual school or a subset of schools, or specify grade spans (e.g., all high schools or grades K-5).

Applicable Pupil Subgroups: Identify the pupil subgroups as defined in Education Code section 52052 to which the goal applies, or indicate “all” for all pupils.

Expected Annual Measurable Outcomes: For each LCAP year, identify and describe specific expected measurable outcomes for all pupils using, at minimum, the applicable required metrics for the related state priorities. Where applicable, include descriptions of specific expected measurable outcomes for schoolsites and specific subgroups, including pupils with disabilities, both at the LEA level and at the schoolsite level.

The metrics used to describe the expected measurable outcomes may be quantitative or qualitative, although the goal tables must address all required metrics for every state priority in each LCAP year. The required metrics are the specified measures and objectives for each state priority as set forth in Education Code sections 52060(d) and 52066(d). For the pupil engagement priority metrics, LEAs must calculate the rates specified in Education Code sections 52060(d)(5)(B), (C), (D) and (E) as described in the Local Control Accountability Plan and Annual Update Template Appendix, sections (a) through (d).

Actions/Services: For each LCAP year, identify all annual actions to be performed and services provided to meet the described goal. Actions may describe a group of services that are implemented to achieve the identified goal.

Scope of Service: Describe the scope of each action/service by identifying the schoolsites covered. LEAs may indicate “all” for all schools, specify an individual school or a subset of schools, or specify grade spans (e.g., all high schools or grades K-5). If supplemental and concentration funds are used to support the action/service, the LEA must identify if the scope of service is districtwide, schoolwide, countywide, or charterwide.

Pupils to be served within identified scope of service: For each action/service, identify the pupils to be served within the identified scope of service. If the action to be performed or the service to be provided is for all pupils, place a check mark next to “ALL.”

For each action and/or service to be provided above what is being provided for all pupils, place a check mark next to the applicable unduplicated pupil subgroup(s) and/or other pupil subgroup(s) that will benefit from the additional action, and/or will receive the additional service. Identify, as applicable, additional actions and services for unduplicated pupil subgroup(s) as defined in Education Code section 42238.01, pupils redesignated fluent English proficient, and/or pupils subgroup(s) as defined in Education Code section 52052.

Budgeted Expenditures: For each action/service, list and describe budgeted expenditures for each school year to implement these actions, including where those expenditures can be found in the LEA’s budget. The LEA must reference all fund sources for each proposed expenditure. Expenditures must be classified using the California School Accounting Manual as required by Education Code sections 52061, 52067, and 47606.5.

Guiding Questions:

- 1) What are the LEA’s goal(s) to address state priorities related to “Conditions of Learning”?
- 2) What are the LEA’s goal(s) to address state priorities related to “Pupil Outcomes”?
- 3) What are the LEA’s goal(s) to address state priorities related to parent and pupil “Engagement” (e.g., parent involvement, pupil engagement, and school climate)?
- 4) What are the LEA’s goal(s) to address any locally-identified priorities?
- 5) How have the unique needs of individual schoolsites been evaluated to inform the development of meaningful district and/or individual schoolsite goals (e.g., input from site level advisory groups, staff, parents, community, pupils; review of school level plans; in-depth school level data analysis, etc.)?
- 6) What are the unique goals for unduplicated pupils as defined in Education Code sections 42238.01 and subgroups as defined in section 52052 that are different from the LEA’s goals for all pupils?
- 7) What are the specific expected measurable outcomes associated with each of the goals annually and over the term of the LCAP?
- 8) What information (e.g., quantitative and qualitative data/metrics) was considered/reviewed to develop goals to address each state or local priority?
- 9) What information was considered/reviewed for individual schoolsites?
- 10) What information was considered/reviewed for subgroups identified in Education Code section 52052?
- 11) What actions/services will be provided to all pupils, to subgroups of pupils identified pursuant to Education Code section 52052, to specific schoolsites, to English learners, to low-income pupils, and/or to foster youth to achieve goals identified in the LCAP?
- 12) How do these actions/services link to identified goals and expected measurable outcomes?
- 13) What expenditures support changes to actions/services as a result of the goal identified? Where can these expenditures be found in the LEA’s budget?

Annual Update

Annual Update Instructions: For each goal in the prior year LCAP, review the progress toward the expected annual outcome(s) based on, at a minimum, the required metrics pursuant to Education Code sections 52060 and 52066. The review must include an assessment of the effectiveness of the specific actions. Describe any changes to the actions or goals the LEA will take as a result of the review and assessment. In addition, review the applicability of each goal in the LCAP.

Guiding Questions:

- 1) How have the actions/services addressed the needs of all pupils and did the provisions of those services result in the desired outcomes?
- 2) How have the actions/services addressed the needs of all subgroups of pupils identified pursuant to Education Code section 52052, including, but not limited to, English learners, low-income pupils, and foster youth; and did the provision of those actions/services result in the desired outcomes?
- 3) How have the actions/services addressed the identified needs and goals of specific schoolsites and were these actions/services effective in achieving the desired outcomes?
- 4) What information (e.g., quantitative and qualitative data/metrics) was examined to review progress toward goals in the annual update?
- 5) What progress has been achieved toward the goal and expected measurable outcome(s)? How effective were the actions and services in making progress toward the goal? What changes to goals, actions, services, and expenditures are being made in the LCAP as a result of the review of progress and assessment of the effectiveness of the actions and services?
- 6) What differences are there between budgeted expenditures and estimated actual annual expenditures? What were the reasons for any differences?

Complete a copy of this table for each of the LEA’s goals in the prior year LCAP. Duplicate and expand the fields as necessary.

What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?	The VC Innovates grants increased resources to the Career-Technical Education (CTE) Pathways program, allowing for a far greater expansion of programs than anticipated when the district established the LCAP. The focus this year changed due to the impact of grant funds, and actions relating to outreach were delayed. The next step will be to continue working with the county in 2015-2016 to fully implement Pathways and to improve outreach and marketing. Our stakeholders are not always aware of the new programs offered. A-G graduation rates will continue to improve as we implement the LCAP goals. It will take four years for the students in the new science Pathways to graduate with A-G approved coursework. There will need to be support for science teachers throughout the change. There is also a need to add more consistency across the district as to the A-G supports; this includes parent outreach and student support. The implementation of a complete support system will be implemented in 2015-2016, and includes a digital monitoring system and a freshman college and career readiness course. Data needs to be collected to analyze the participation and success of subgroups with each sub-goal.

What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?		The new math adoption will move teachers to full implementation of Common Core State Standards (CCSS) in math. Teachers will need continued support to transition completely, both in terms of curriculum as well as class structure and assessment. The delay in the English-Language Arts/English Language Development (ELA/ELD) curriculum pilot and adoption will increase the need for teacher support in CCSS implementation. A Professional Development plan as well as supplemental materials will be needed. All teachers K-12 will need support in effective Tier I teaching. Continued rollout of the ELD standards will be needed, as well as teacher and administrator support for the EL program at all schools. Next Generation Science Standards (NGSS) will need to be incorporated into the LCAP. Technology implementation is on track. SVUSD improved education technology through the installation of presentation systems in all classrooms.			
Original GOAL 3 from prior year LCAP:	SVUSD will provide comprehensive programs to improve student performance and address students who are not meeting grade-level standards. Common Core State Standards-aligned district benchmarks will be established and implemented; a comprehensive Response to Intervention (RTI) program will be initiated; and subgroups will be addressed. <p>What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?</p>	<p>The middle schools have established a Response to Intervention (RTI) English-Language Arts (ELA) program. The next steps will be to formalize the recommendation protocol, documentation, assessment, and implication on Special Education (SPED). The elementary programs will need to be formalized, including curriculum, assessment, and documentation. Increasing the funding for elementary needs will be considered. Math RTI will also need to be addressed in K-12. The assessment system has been purchased and new district benchmarks will be established over the summer. The rollout of the assessments will happen in the 2015-2016 school year. The monitoring system for all subgroups will need to be improved. English Language (EL) students needs, both long-term ELs and newcomers, should be further addressed.</p>

What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?		Parent Advisory Committee (PAC) has indicated a need for parent workshops on the new math adoption. District-run parent information meetings should be increased. English Language (EL) parents would like to continue with district trainings in Spanish. The percentage of parents with an Aeries Parent Portal account is high, but their use of the system is low. The next step will be to improve parent knowledge on how to use the system. Further training on the capabilities of Aeries for communication is needed for school sites. A parent and student Needs Assessment should be conducted and data should be used at all school sites to inform site decisions and site plans. Continued community outreach is needed to improve the community's knowledge of district decisions.	
Original GOAL 5 from prior year LCAP:	SVUSD will provide a safe and engaging environment for students. The areas of focus will be addressing bullying, implementing a digital citizenship curriculum, and improving student-school connectedness. Facility maintenance will also be a focus. What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?	The implementation of the digital citizenship curriculum is underway. A system for collecting data on the implementation should be developed. The UCP protocol, including bullying, was updated this year. Principals and office managers were trained. The next step will be to offer more parent and student information workshops. The website will need to be updated. Internal surveys will need to be established to provide up-to-date data on bullying. The state information on student connectedness and well-being is delayed, and does not allow for immediate feedback. The next steps will be to collect and use the student survey data for site and district decisions.		

Complete a copy of this table for each of the LEA's goals in the prior year LCAP. Duplicate and expand the fields as necessary.

Section 3: Use of Supplemental and Concentration Grant funds and Proportionality

- A. In the box below, identify the amount of funds in the LCAP year calculated on the basis of the number and concentration of low income, foster youth, and English learner pupils as determined pursuant to 5 CCR 15496(a)(5).

Describe how the LEA is expending these funds in the LCAP year. Include a description of, and justification for, the use of any funds in a districtwide, schoolwide, countywide, or charterwide manner as specified in 5 CCR 15496.

For school districts with below 55 percent of enrollment of unduplicated pupils in the district or below 40 percent of enrollment of unduplicated pupils at a schoolsite in the LCAP year, when using supplemental and concentration funds in a districtwide or schoolwide manner, the school district must additionally describe how the services provided are the most effective use of funds to meet the district's goals for unduplicated pupils in the state and any local priority areas. (See 5 CCR 15496(b) for guidance.)

Total amount of Supplemental and Concentration grant funds calculated:	\$5.3 million
<p>Simi Valley Unified School District has 5,293 unduplicated pupils in the LCFF subgroups representing 32% of the student body. In the school year 2015-2016, supplemental/concentration funding will be about \$5.3 million. The funds expended from the supplemental funding sources align with all the goals of the LCAP. Funds will be used for the implementation of a comprehensive intervention program; increased monitoring and counseling of students; implementation of targeted programs for long-term ELs; ongoing teacher Professional Development on ELD Standards and effective instructional strategies; the purchase of ELD materials and resources; the promotion of parent involvement through workshops and information meetings; and increased parental digital access. These programs and services are principally directed to address the needs of the unduplicated students, including English Language Learners, low-income pupils, Reclassified English Proficient Students, and foster youth.</p>	

B. In the box below, identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all pupils in the LCAP year as calculated pursuant to 5 CCR 15496(a).

Consistent with the requirements of 5 CCR 15496, demonstrate how the services provided in the LCAP year for low income pupils, foster youth, and English learners provide for increased or improved services for these pupils in proportion to the increase in funding provided for such pupils in that year as calculated pursuant to 5 CCR 15496(a)(7). An LEA shall describe how the proportionality percentage is met using a quantitative and/or qualitative description of the increased and/or improved services for unduplicated pupils as compared to the services provided to all pupils.

4	%	<p>The percent by which the services will be improved or increased and principally directed for the specified subgroups, including English Language Learners, low-income pupils, Reclassified English Proficient Students, and foster youth, will be 4% compared to all students. By providing intervention for targeted subgroups, student performance will improve and the achievement gap will be reduced. Materials for ELD will include aligned -instruction to the ELD Standards and link instruction to the Common Core State Standards. Student and parent workshops will increase awareness of and access to services, including A-G coursework, academic success, and other school-based resources for which subgroup participation is under-representative of the total population. By embedding focus on best practices for our subgroups in all ongoing Professional Development, teachers and administrators will be better prepared to respond to the needs of said subgroups, thereby increasing and improving services.</p>

LOCAL CONTROL AND ACCOUNTABILITY PLAN AND ANNUAL UPDATE APPENDIX

For the purposes of completing the LCAP in reference to the state priorities under Education Code sections 52060 and 52066, the following shall apply:

(a) “Chronic absenteeism rate” shall be calculated as follows:

(1) The number of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30) who are chronically absent where “chronic absentee” means a pupil who is absent 10 percent or more of the schooldays in the school year when the total number of days a pupil is absent is divided by the total number of days the pupil is enrolled and school was actually taught in the total number of days the pupil is enrolled and school was actually taught in the regular day schools of the district, exclusive of Saturdays and Sundays.

(2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).

- (3) Divide (1) by (2).
- (b) “Middle School dropout rate” shall be calculated as set forth in California Code of Regulations, title 5, section 1039.1.
- (c) “High school dropout rate” shall be calculated as follows:
- (1) The number of cohort members who dropout by the end of year 4 in the cohort where “cohort” is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.
 - (2) The total number of cohort members.
 - (3) Divide (1) by (2).
- (d) “High school graduation rate” shall be calculated as follows:
- (1) The number of cohort members who earned a regular high school diploma [or earned an adult education high school diploma or passed the California High School Proficiency Exam] by the end of year 4 in the cohort where “cohort” is defined as the number of first-time grade 9 pupils in year 1 (starting cohort) plus pupils who transfer in, minus pupils who transfer out, emigrate, or die during school years 1, 2, 3, and 4.
 - (2) The total number of cohort members.
 - (3) Divide (1) by (2).
- (e) “Suspension rate” shall be calculated as follows:
- (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was suspended during the academic year (July 1 – June 30).
 - (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).
 - (3) Divide (1) by (2).
- (f) “Expulsion rate” shall be calculated as follows:
- (1) The unduplicated count of pupils involved in one or more incidents for which the pupil was expelled during the academic year (July 1 – June 30).
 - (2) The unduplicated count of pupils with a primary, secondary, or short-term enrollment during the academic year (July 1 – June 30).
 - (3) Divide (1) by (2).
