Members of the Board
Warren County School District
Bowling Green, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Warren County School District (the "District") as of and for the year ended June 30, 2015, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the accompanying table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Kentucky Public School Districts' Audit Contract and Requirements* prescribed by the Kentucky State Committee for School District Audits. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2015, and the respective changes in financial position and cash flows of its proprietary funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter – Implementation of New GASB Accounting Standard

As discussed in Note R to the financial statements effective July 1, 2014, the District adopted Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (Unaudited) on pages 4 through 11, the budgetary comparison information on pages 50 through 51 and the pension liability and contributions information on pages 52 through 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or to provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards is presented for the purpose of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organization*s, and is also not a required part of the basic financial statements.

The other supplementary information and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 9, 2015, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

The discussion and analysis of Warren County Board of Education's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ending June 30, 2015. The intent of this discussion and analysis is to review the District's financial performance as a whole; readers should also review the notes to the basic financial statements and the financial statements to enhance their understanding of the District's financial performance.

The Management's Discussion and Analysis ("MD&A") is an element of the reporting model adopted by the Governmental Accounting Standards Board ("GASB") in their Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Government* issued in June 1999.

Financial Highlights

- In total, net position decreased by $14,114,438. The Net Position of governmental activities decreased by $11,050,886, while the net position of business-type activity decreased by $3,063,552. While total assets increased by $19,839,079 due primarily to an increase in cash on hand attributable to an increase of cash in the Capital Projects Fund (i.e., bond sell) and the General Fund. However, total liabilities increased significantly as a result of accounts payable within the Capital Projects Fund and the issuance of bonds to fund the Warren Central High School and Warren East High School renovations.

- General revenues accounted for $100,914,135 or 75% of all governmental revenues. Program specific revenues in the form of operating grants and contributions accounted for $33,206,684 or 25% of total governmental revenues of $134,120,819.

- Governmental Activities: Total assets increased by $19,782,279. "Capital Assets" increased by $2,425,659. This is a result of renovations, equipment, technology and adjustments to Construction Work in Progress along with depreciation thereto. "Current and Other Assets" increased by $17,356,620 in 2015. The increase correlates to cash as a result of the property tax rate increase, capital outlay transfer and bond sell for the Warren Central High School and Warren East High School renovation projects.

- The District had $124,366,737 in expenses relating to governmental activities; of which $33,280,954, in expenses, were offset by program specific charges for services, grants, and contributions. General revenues (primarily local taxes and the State SEEK allocation), were adequate to provide these programs.

Using this Annual Financial Report (AFR)

This annual report consists of three parts – *management's discussion and analysis* (this part), *the basic financial statements*, and *the required supplementary information*. These statements are organized in a manner so that the reader can understand the District as a financial whole. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The **Statement of Net Position and Statement of Activities** provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's major funds with all other non-major funds presented in total in one column. The major funds for the District are the general fund, special revenue fund, and the capital projects fund.

Reporting on the District as a Whole

One of the most important questions to ask is "how did the District perform financially during fiscal year 2015?" The **Statement of Net Position** and the **Statement of Activities**, which appear first in the District's financial statements, report information on the District as a whole and is formatted in such a way that will assist a reader in answering this question. These statements include all assets and liabilities using the accrual basis of accounting and economic resources measurement focus, which is similar to the accounting used by most private-sector companies.

These two statements report the District's net position and the changes therein. This change in net position is important because it tells the reader whether, for the District as a whole, the financial position of the District has improved or diminished. However, the District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other non-financial factors, such as the District's property tax base, current property tax laws in Kentucky restricting revenue growth *(4% maximum growth in revenue)*, required educational programs and other factors.

In the **Statement of Net Position** and the **Statements of Activities**, the District is divided into two distinct categories:

- **Government Activities** - Most of the District's basic services are included here, such as instructional services (as it relates to elementary, middle and high school educational programs), support services (guidance, attendance, health services, special needs services, etc.), debt service payments, extracurricular activities (sports, band, etc.), operation and maintenance of plant, pupil transportation and other activities.

- **Business-type Activities -** These services are provided on a charge for goods or services basis to recover all of the expenses of the goods provided. The District's business-type activities are the food service and day care operations.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major funds begins on page 14. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's major funds.

Governmental Funds - Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending in future periods. These funds are reported using the accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds - Proprietary funds use the same basis of accounting as business-type activities; therefore, the statements for the proprietary fund will essentially match.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide statements.

Governmental Activities

Governmental program expenses are broken down as follows: Instruction 63%, Support Services 33%, and 4% Other.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting the program service costs. Table 3 shows, for government activities, the total cost of services and the net cost of services. In other words, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements. The total cost of services includes $22,342,489 that relates to the 2015 State On-Behalf Payments.

(Table 3)
Governmental Activities

	Total Cost of Services		Net Cost of Services	
	2015	2014	2015	2014
Instruction	$ 78,188,237	$ 77,723,434	$ 52,969,494	$ 55,502,574
Support Services	40,624,199	38,676,990	33,452,190	29,275,476
Other	759,818		759,818	(22,596)
Facilities Acquisition/Construction		18,633		(316,995)
P&I on Long-Term Debt	4,794,483	5,287,873	3,904,281	5,008,420
Bond Issuance Costs		632,196		143,954
Loss on Sale/Disposal of Assets		34,479		94,706
Total Expenses	$ 124,366,737	$ 122,373,605	$ 91,085,783	$ 89,685,539

Business-Type Activities

The business-type activities are food service and day care. These programs had revenues of $9,096,407 and expenses of $8,955,705 for fiscal year 2015. Of the revenues, $2,460,356 related to charges for services, $6,541,578 was from State and Federal grants, $10,483 were from investment earnings, and there were no capital contributions by the District. Business activities receive no support from tax revenues. The District will continue to monitor the charges and costs of these activities. If it becomes necessary, the District will increase the charges for these activities.

The District's Funds

Information about the District's major funds starts on page 15. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of $171,328,634 and expenditures and other financing uses of $156,446,395. The net change in total fund balances was $14,114,438 from fiscal year 2014 to 2015. This is predominately a result of the issuance of bonds for the Warren Central and Warren East High School renovation projects.

General Fund-Budget Highlights

The District's budget is prepared according to Kentucky law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. The State Department of Education requires a zero-based budget with any budgeted remaining fund balance shown as a contingency expense in the budget process.

A variance comparison is presented between the final budgeted amounts and the actual (GAAP Basis) amounts. Revenues for the General Fund were budgeted at $101,055,760 with actual amounts totaling $106,226,688. Budgeted expenditures were $103,485,558 (not including a contingency budget of $10,070,672) compared to actual expenditures of $102,864,064. Budgeted "Other Financing Sources and Uses" reflected a net financing source of $223,854 compared to an actual net financing source of $2,053,782. In total, an expected decrease in the General Fund balance of $2,205,944 was budgeted compared to an actual net increase of $5,416,405.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2015 the District had $237,436,807 invested in capital assets (see Table 4 below), $224,513,445 being in governmental activities. Table 4 shows fiscal year 2015 balances compared to 2014.

(Table 4)
Capital Assets at June 30 (Net of Depreciation)

	Governmental Activities		Business-Type Activities		Total	
	2015	2014	2015	2014	2015	2014

Equipment	5,909,110	6,164,254	1,612,320	1,884,899	7,521,430	8,049,153
Construction in Progress	10,966,647	701,521			10,966,647	701,521
Total	$ 224,513,445	$ 222,087,786	$ 12,923,362	$ 13,513,403	$ 237,436,807	$ 235,601,189

Debt

At June 30, 2015 the District had $138,564,918 in bonds outstanding, of this amount $4,735,108 are to be paid from the KSFCC funding provided by the State of Kentucky. A total of $9,423,000 is due within one year. At June 30, 2014, the District had $127,917,830 in bonds outstanding, of this amount $4,697,771 were to be paid from KSFCC funding.

The net change during 2015 fiscal year was primarily due to the structured principal payments.

District Challenges for the Future

The Warren County Public School system (District) is the fourth largest district within the State serving approximately 15,000 students. The District has grown from a K-12 student membership of 10,923 in 2003 to 14,858 in 2015. This equates to a 36.02% growth in only twelve years. The District has prepared for this increase in enrollment by building new schools and by renovating and expanding existing schools. The District remains in good financial condition, however, there are challenges that the District will encounter: increase the level of achievement of our students, Senate Bill 1, English Learner (EL) population, and adequate funding.

The most essential challenge is to continue to increase student achievement. On the most recent release of test scores, Warren County Schools had ten distinguished schools and four proficient schools. Achievement Gaps continue to exist in many of our schools, but these challenges and opportunities keep us focused on providing a differentiated approach to teaching that serves the individual needs of our students. Prioritizing standards in reading, math and science; providing academic-rich learning environments for our English Learner's and students with disabilities; differentiating instruction for all students; providing good customer service to improve our school climates; analyzing student data using various data points; utilizing interactive, 21st Century technology in our classrooms, and engaging students in learning that is rigorous and relevant to life are all efforts that we have in place to increase student achievement.

It is important for every educator in the District to feel that the students we serve can learn at a high level according to their ability. Teachers must strive to recognize the impact they have on each student that enters their classroom. With the resources available to all educators in Warren County, the ability to meet the needs of all students is not impossible. Providing teachers with up-dated curriculum maps, content guides, and prioritized standards is a process that is revisited routinely throughout our District. We have no choice but to move the students to a higher level in order to ensure their ability to function and thrive in a global, 21st Century marketplace. What the information does not tell us is the level of motivation for learning. It will also not inform us as to the amount of parental/family involvement in the educational process. We will also be unable to discern what happens in the life of a student outside the walls of our educational institutions. This information can be very helpful in serving needs that can affect learning. The WCPS system encourages the building of relationships by all to help remove as many barriers to learning as we possibly can. By providing a team approach to educating our students, we are able to help the students be prepared and willing to learn in our classrooms.

The next challenge relates to the mandates prescribed in Senate Bill 1 otherwise known as Unbridled Learning. The Bill is intended to ensure every student reaches his/her learning potential and graduates from high school college and/or career ready. The mandates of Unbridled Learning continue to increase putting additional stress and responsibilities on teachers and administrators working to guarantee that students continue on their path to becoming college and/or career ready.

This year our biggest challenge with Senate Bill 1 continues to be the implementation of the Teacher and Principal Professional Growth and Effectiveness System. This system is designed to measure teacher and principal effectiveness and serve as a catalyst for professional growth and continuous improvement. Implementation of this system has required many additional hours of training and observations and the development of a newly revised district certified evaluation plan.

The population of students identified as English Learners (ELs) in the District has grown approximately 153% since 2005, with ELs numbering 632 in 04-05 academic year and just over 1600 at the present time. The EL student population currently represents 11% of the overall student population in the District. These students are eligible for English language development programs (also known as EL or ESL programs) offered by the District. We are also required to monitor students who exit from English language development programs for two full academic years, and there are currently 446 students who fall within this category. Finally, there are approximately 130 students in the District who were formerly served in English language development programs and are now fully exited. These students also need continuing support to ensure that they become "college and career ready" and successfully transition after graduation. When we consider the EL students who are currently eligible for English language development programs, those who have just exited and are being monitored and those who are completely out of English language development programs, there are just over 2100 students being supported in one way or another by District administrators and teachers, 14% of our total enrollment.

The EL students in the District are a very diverse group, as they come from 30+ countries and speak 50 languages and dialects. Approximately 40% of our current ELs are refugees, and many are considered "students with interrupted formal education" (SIFEs), because conditions in their former countries and refugee camps made it difficult to provide consistent educational opportunities.

The EL students in the District face very significant language and content challenges. ELs in the U.S. are often doing double the work of their English speaking class peers, because ELs are learning content at the same time they are learning the language of instruction. Our administrators and teachers also face many challenge, one of which being the requirement to meet federal and state accountability targets established under the No Child Left Behind (NCLB) Act. The District has responded to these challenges in several ways, including dramatically increasing the numbers of certified teachers with an English as a Second Language (ESL) endorsement.

Investments in staffing allow the District to leverage the training and experiences of these staff as we rise to meet the language and academic content challenges of a large EL student population. However, maintaining and recruiting qualified, well-trained staff remains a challenge. Meeting the language and content needs of EL students is also the responsibility of general education teachers, yet these individuals are generally not well prepared in pre-service programs to address these challenges. Thus, professional development becomes critical to providing teachers with the knowledge and skills required. In fact, ensuring that on-going professional development opportunities and appropriate instructional resources are being provided is absolutely critical to meeting the challenges expressed above. While the size of the District and the EL student population create some funding streams, we continually face financial challenges in a climate of budgetary constraints and reduced federal and state support.

The final challenge as it relates to funding: Local, State and Federal. The District's predominate local revenue source is the real estate tax rate. In 2015, the District's real estate tax rate ranked as the 153rd lowest in the State. The Kentucky revised statue caps the amount of new revenue generated from real estate tax increases 4% a year. The failure of the legislature to adequately fund education has resulted in the Warren County School District and districts across the Commonwealth to make significant cuts to their budgets and to personnel, compelling school boards to increase property taxes in order that districts might continue to operate and serve the students, who are the future of the Commonwealth. Fortunately, the Warren County has experienced positive annual growth in property assessment and thereby property tax revenue. However, the SEEK formula has a negative effect on districts that incur significant growth in assessment.

With careful planning, gains in efficiencies and monitoring of District finances, Warren County Public Schools' goal is to continue to provide a quality education for our students and a secure financial future for the District.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional information contact Chris McIntyre, Treasurer at Warren County Board of Education, 303 Lovers Lane, P.O. Box 51810, Bowling Green, KY 42102-6810 or email at chris.mcintyre@warren.kyschools.us

WARREN COUNTY SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE DISTRICT-WIDE STATEMENT OF NET POSITION
June 30, 2015

Total Fund Balances - Governmental Funds		$ 31,035,912
Amounts reported for governmental activities in the District-wide Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in Governmental Funds Balance Sheet. The cost of the assets is $311,612,530 and the accumulated depreciation is $89,524,744		224,513,445
Deferred savings from refunding bonds are not financial resources and therefore are not reported as assets in the Governmental Funds Balance Sheet.		844,705
Deferred inflows from differences between projected and actual pension earnings are not financial resources and therefore are not reported as assets in the Governmental Funds Balance Sheet.		(2,030,650)
Deferred outflows from pension contributions after measurement date are not financial resources and therefore are not reported as assets in the Governmental Funds Balance Sheet.		2,340,197
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the Governmental Funds Balance Sheet. Long-term liabilities at year-end consist of:		
	Bonds Payable	(138,564,918)
	Accrued Interest	(919,615)
	Net Pension Liability	(18,195,100)
	Compensated Absences	(5,485,941)
Total District-wide Net Position - Governmental Activities		$ 93,538,035

WARREN COUNTY SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE DISTRICT-WIDE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2015

Total Net Change in Fund Balances - Governmental Funds	$ 14,882,239
Amounts reported for governmental activities in the District-wide Statement of Activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the District-wide Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeds depreciation expense in the fiscal year.	2,127,676
Gains and losses are not presented in governmental funds because they do not provide or use current financial resources. However, they are presented on the District-wide Statement of Activities. The difference between the cost and accumulated depreciation of assets sold net to this amount for the fiscal year.	297,983
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the District-wide Statement of Net Position.	8,536,000
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the District-wide Statement of Net Position. Repayment of bond principal in a refunding is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the District-wide Statement of Net Position. This is the amount by which the proceeds of current year debt issuances exceeded repayment of bond principal related to a bond	(19,067,670)
Expenditures reported in the fund financial statements are recognized when the current financial resource is used. However, expenses in the District-wide Statement of Activities are recognized when they are incurred.	3,189,632
Total Change in District-wide Net Position of Governmental Activities	$ 9,965,860

See Accompanying Notes to Financial Statements

NOTES TO FINANCIAL STATEMENTS

NOTE A – REPORTING ENTITY

The Warren County Board of Education (the "Board"), a five-member group, is the level of government which has oversight responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Warren County School District (the "District"). The District receives funding from local, state, and federal government sources and must comply with the commitment requirements of these funding source entities. However, the District is not included in any other governmental "reporting entity" as defined in Section 2100, *Codification of Governmental Accounting and Financial Reporting Standards,* as Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to develop policies which may influence operations, and primary accountability for fiscal matters.

The District, for financial purposes, includes all of the funds and account groups relevant to the operation of the Warren County School District. The financial statements presented herein do not include funds of groups and organizations, which although associated with the school system, have not originated within the District itself such as Athletic Boosters, Band Boosters, Parent-Teacher Associations, etc. The District is not involved in budgeting or managing these organizations, is not responsible for any debt of the organizations, and has no influence over the operation of these organizations.

The financial statements of the District include those of separately administered organizations that are controlled by or dependent upon the District. Control or dependence is determined on the basis of budget adoption, funding and appointment of the respective governing board.

Based on the foregoing criteria, the financial statements of the following organization are included in the accompanying financial statements:

Warren County School District Finance Corporation – The Warren County, Kentucky, Board of Education has established the Warren County School District Finance Corporation (the "Corporation") (a non-profit, non-stock, public corporation organized under the School Bond Act and KRS 273 and KRS 58.180) as an agency of the District for financing the costs of school building facilities. The Board Members of the Warren County Board of Education also comprise the Corporation's Board of Directors.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- **BASIS OF ACCOUNTING**

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

- **BASIS OF PRESENTATION**

District-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the District as a whole. They include all funds of the District except for the fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The District-Wide Financial Statements are prepared using the economic measurement focus. This is the same approach used in the preparation of the Proprietary Fund Financial Statements but differs from the manner in which Governmental Fund Financial Statements are prepared. Governmental Fund Financial Statements therefore include a reconciliation with brief explanations to better identify the relationship between the District-Wide Financial Statements and the statements for governmental funds.

The District-Wide Financial Statement of Activities presents a comparison between direct expense and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or program and charges paid by the recipient of the goods or services offered by the function or program. Revenues not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function or program is self-financing or draws from the general revenues of the District. The District allocates certain indirect costs to be included in the function or program expenses reported for individual governmental activities in the District-Wide Statement of Activities.

In the District-Wide Statement of Net Position and Statement of Activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements, each of which is considered to be a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental fund or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and

b) Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

c) Funds may be reported as a major fund if the District considers them significant to the users of the financial statements.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a current financial resources measurement focus. The financial statements for governmental funds are a Balance Sheet, which generally includes only current assets and current liabilities, and a Statement of Revenues, Expenditures and Changes in Fund Balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary fund types are accounted for on an economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used.

The fiduciary funds are reported using the economic resources measurement focus. Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

In the fund financial statements, governmental funds and agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities.

The funds of the financial reporting entity are described below:

I. Governmental Funds

Major Funds

A. The General Fund is the primary operating fund of the District and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds. This is a budgeted fund and any unrestricted fund balances are considered to be resources available for use. Reservations have been placed on the fund balance for outstanding encumbrances, allocation to the schools' site based decision making councils, and accrued sick leave.

B. The Special Revenue Fund accounts for proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to disbursements for specified purposes. It includes federal financial assistance programs where unused balances are returned to the grantor at the close of specified project periods, as well as the state grant programs. Project accounting is employed to maintain integrity for the various sources of funds. The separate projects of federally funded grant programs are identified in the Schedule of Expenditures of Federal Awards included in this report. The Kentucky Department of Education has deemed this fund always be classified as a major fund.

C. Capital Project Fund is classified as a major fund and is used to account for financial resources restricted for the acquisition or construction of major capital facilities and equipment (other than those financed by Proprietary Funds). The District's Capital Project Fund includes:

1. The Support Education Excellence in Kentucky ("SEEK") Capital Outlay Fund – This fund receives those funds designated by the state as Capital Outlay Funds and is restricted for use in financing projects identified in the District's facility plan.

2. The Facility Support Program of Kentucky ("FSPK") Fund – This fund accounts for funds generated by the building tax levy and also participates in the School Facilities Construction Commission's construction funding and state matching funds, where applicable. Funds may be used for projects identified in the District's facility plan.

3. The Construction Fund – This fund accounts for proceeds from sales of bonds and other revenues to be used for authorized construction.

Nonmajor Funds

A. The Debt Service Fund accounts for the accumulation of financial resources for the payment of principal, interest, and related costs on the general long-term debt of the District, including the payment of interest on general obligation notes payable, as required by Kentucky law.

B. The Permanent Fund accounts for assets held by the District pursuant to a trust agreement. The principal portion of this fund must remain intact, but the earnings may be used to achieve the objectives of the fund.

II. Proprietary Funds

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods and services. The District's enterprise funds are the School Food Service Fund and the Day Care Fund operated out of Greenwood High School and are major funds. The School Food Service Fund is used to account for the financial transactions related to the food service operations of the District.

III. Fiduciary Funds

Agency Funds

Agency funds account for assets held by the District in a purely custodial capacity. Since agency funds are custodial in nature (i.e. assets equal liabilities), and they do not involve the measurement of results of operations.

The School Activity Fund accounts for activities of student groups and other types of activities requiring clearing accounts. These funds are accounted for in accordance with the Kentucky Department of Education Publication *Uniform Program of Accounting for School Activity Funds*.

Private-Purpose Trust Funds

The Private-Purpose Trust Funds can only be used to purchase textbooks for needy students and for the award of scholarships.

- **CASH AND CASH EQUIVALENTS**

The District considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less, to be cash equivalents.

- **ACCOUNTS RECEIVABLE**

Receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include federal and state funding and taxes. Amounts on the District-Wide Statement of Net Position and the Governmental Funds Balance Sheet are net of allowance for doubtful accounts.

- **INVESTMENTS**

Investments consist of non-brokered certificates of deposits recorded at fair value and are restricted at June 30, 2015.

▪ INVENTORIES

On the District-Wide Statement of Net Position inventories are stated at the lower of cost or market and are expensed when used. The Food Service Fund inventories use the specific identification method and the General Fund inventories use the first-in, first-out method. The Food Service Fund's inventories consist of food and supplies valued at cost, and U. S. Government commodities whose value is determined by the U. S. Department of Agriculture.

In the Governmental Funds Balance Sheet, inventories in the General Fund are equally offset by a reserve which indicates they do not constitute "available spendable resources" even though they are a component of total assets.

▪ CAPITAL ASSETS

District-Wide Financial Statements

In the District-Wide Financial Statements, capital assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. The District maintains a capitalization threshold as follows, with the exception of land, computers and technology equipment for which there is no threshold:

Land Improvements	$20,000
Buildings	20,000
Portable Buildings	20,000
Building Improvements	20,000
School Buses	5,000
Other Vehicles	5,000
Rolling Stock	5,000
Food Service Equipment	5,000
Furniture and Fixtures	5,000
Audio-Visual Equipment	5,000
Other General Equipment	5,000
Musical Instruments	5,000
Software	5,000

The cost of normal maintenance and repairs that do not add value or materially extend an asset's life are expensed. The District has elected not to capitalize interest on debt used to finance building construction/renovations.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the District-Wide Statement of Activities, with accumulated depreciation reflected in the District-Wide Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	50 years
Building Improvements	25 years
Technology Improvements	5 years
School Buses	10 years
Vehicles	5 years
Food Service Equipment	12 years
Audio-Visual Equipment	15 years
Other General Equipment	10 years

Fund Financial Statements

In the fund financial statements, capital assets used in Governmental Fund operations are accounted for as expenditures of the General Fund. Capital assets used in Proprietary Fund operations are accounted for the same as in the District-Wide Financial Statements.

- **LONG-TERM DEBT**

District-Wide Financial Statements

All long-term debt to be repaid from governmental resources is reported as liabilities in the District-Wide Statement of Net Position. The long-term debt consists primarily of bond obligations and compensated absences.

Fund Financial Statements

Long-term debt is not reported as liabilities in the Governmental Funds Balance Sheet. The debt proceeds are reported as other financing sources and payment of principal and interest are reported as expenditures. There are no long-term debt obligations recorded in the Proprietary Funds as these funds are not responsible for paying the debt.

- **COMPENSATED ABSENCE**

The District's policies regarding sick leave permit employees to accumulate earned but unused sick leave.

The entire compensated absence liability is reported on the District-Wide Statement of Net Position. The current portion of this debt is estimated based on employees who have twenty-seven years of service or more as of June 30, 2015 and is calculated at thirty percent of their total accumulated sick leave.

In the Governmental Funds Balance Sheet, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. The noncurrent portion of the liability is not reported. No liability is accrued in the Proprietary Fund.

- **EQUITY CLASSIFICATIONS**

District-Wide Financial Statements

Equity is classified as net position and displayed in three components:

- Invested in Capital Assets, Net of Related Debt – Consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- Restricted Net Position – Consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, or laws or regulations, or 2) law through constitutional provisions or enabling legislation.

- Unrestricted Net Position – All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

Fund Financial Statements

Under the GASB Statement 54, fund balance is separated into five categories, as follows:

Nonspendable – Permanently nonspendable by decree of the donor, such as an endowment, or items which may not be used for another purpose, such as amounts used to prepay future expenses or already-purchased inventory on hand.

Restricted – Legally restricted under federal or state law, bond authority, or grantor contract.

Committed – Commitments passed by the Board.

Assigned – Funds assigned to management priority including issued encumbrances.

Unassigned – Funds available for future operations.

It is the District's practice to liquidate funds when conditions have been met releasing these funds from legal, contractual, Board, or managerial obligations, using restricted funds first, followed by committed funds, assigned funds, then unassigned funds.

- **ENCUMBRANCE ACCOUNTING**

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end and outstanding encumbrances at year-end are reappropriated in the next year. Accordingly, no differences exist between actual results and the applicable budgetary data presented in the accompanying Required Supplementary Information. Encumbrances are considered a managerial assignment of fund balance at June 30, 2015 in the Governmental Funds Balance Sheet.

- **REVENUES – EXCHANGE AND NON-EXCHANGE TRANSACTIONS**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, occupational taxes, grants, entitlements and donations.

In addition, the District levies an occupational license tax of 0.5% on salaries, wages, commissions, and other compensation to residents of the Warren County School District for services performed or rendered within Warren County and on the net profits of all resident businesses, professions, or occupations from activities conducted within the Warren County School District. Occupational tax revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

When both restricted and unrestricted resources are available, it is the District's policy to use restricted resources first then unrestricted resources, as they are needed.

- **UNEARNED REVENUE**

Unearned revenue arises when assets are recognized before a revenue recognition criterion has been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as unearned grant revenue.

In order to present the Special Revenue Fund on the accrual basis of accounting, and because the awards are not yet available as assets, cash awards received in advance for the 2015-2016 school year have been classified as unearned grant revenues. Likewise, all awards requested as a result of 2014-2015 expenditures have been classified as receivables. Revenues of the Special Revenue Fund are considered earned when reimbursable expenditures are made or obligations are incurred, and of an equal amount.

- **OPERATING AND NONOPERATING REVENUES**

Operating revenues are those revenues that are generated directly from the primary activity of the Proprietary Funds. Those revenues are primarily charges for meals provided by the various schools and for childcare services provided. Nonoperating revenues of the Proprietary Funds included grants, donations, and interest income.

- **DONATED COMMODITIES**

The fair value of donated commodities received during the year is reported in the Proprietary Fund Statement of Revenues, Expenses, and Changes in Net Position as an expense and as donated commodities revenue (nonoperating revenue).

- **PROPERTY TAXES**

Property taxes are levied each September on the assessed value listed as of the prior January 1, for all real and personal property in Warren County. The tax rate is generally agreed to by the Board in the following September and contingent upon state approval. The billings are considered due upon receipt by the taxpayer; however, the actual due date is based on a period ending 30 days after the tax bill mailing. Property taxes are recorded as revenues in the fiscal year for which they were levied. All taxes collected are initially deposited into the General Fund and then transferred to the appropriate fund.

The property tax rates assessed for the year ended June 30, 2015 were $0.423 per $100 valuation for real property and $0.423 per $100 valuation for business personal property. Motor vehicle tax was $0.545 for $100 valuation of motor vehicles.

The following is the District's property tax calendar:

Date	Event
January 1, year of levy	Assessment date
October 1, year of levy	Taxes levied
October 31, year of levy	2% discount allowed
December 31, year of levy	Gross amount due
January 1, following year	Delinquent date, 5% penalty added
February 1, following year	21% penalty added

The District levies a 3.0% utility tax on all businesses and households within Warren County.

- **ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, designated fund balances, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

- **BUDGETARY PRINCIPLES**

The District's budgetary process accounts for certain transactions on a basis other than GAAP. The major differences between the budgetary basis and the GAAP basis are:

Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

Expenditures are recorded when paid in cash (budgetary) as opposed to when the obligation is incurred (GAAP).

- **INTERFUND RECEIVABLES AND PAYABLES**

Each fund is a separate fiscal and accounting entity, and thus interfund transactions are recorded in each fund affected by a transaction. Interfund receivables and payables for the District arise generally from two types of transactions: 1) all funds are initially received into the General Fund, thus a payable and receivable are established in the appropriate funds; and 2) payments are from the General Fund checking account, which may not have the legal liability for the expenditure, thus a payable from the fund having the legal liability is established at such time. Typically, interfund receivables and liabilities are resolved monthly, and all of these balances should be resolved within a year. All interfund receivables and payables have been eliminated on the District-wide Statement of Net Position.

- **ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS**

All payables, accrued liabilities and long-term obligations are reported in the District-wide Financial Statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

Payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, capital leases, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current financial resources. School building revenue bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

- **PENSIONS**

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position of the Kentucky Teachers Retirement System and County Employees Retirement System and additions to/deduction from these pensions' fiduciary net position have been determined on the same basis as they are reported by those pensions. For this purpose, benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE C – CASH AND INVESTMENTS

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to Kentucky Revised Statutes ("KRS") 160.570 and 702 Kentucky Administrative Regulations ("KAR") 3:090. The depository bank deposits for safekeeping with the District's third party agent approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

At June 30, 2015, the carrying amount of the District's total cash and cash equivalents was $36,222,651. Of the total cash balance, $250,000 was covered by Federal depository insurance, with the remainder covered by a collateral agreement and collateral held by the pledging banks' trust departments in the District's name. (Government Funds $32,545,174, Proprietary Funds $3,085,038, Private-Purpose Trust $7,628, and Agency Funds $584,811)

KRS authorize the District to invest in direct obligations of the United States government; obligations backed by the full faith and credit of the United States government; certificates of deposit or other interest bearing accounts issued by any bank or savings and loan institution provided that such investment is insured by the FDIC or guaranteed by the pledge of direct United States government obligations; bonds issued by the Commonwealth of Kentucky or one of its agencies and instrumentalities; securities issued by any state or local government of the United States rated in one of the three highest categories by a nationally recognized rating agency; certain mutual funds; commercial paper rated in the highest category by a nationally recognized rating agency; or bankers' acceptances for banks rated in one of the three highest categories by a nationally recognized rating agency.

Due to the nature of the accounts and certain limitations imposed on the use of funds, each bank account within the following funds is considered to be restricted: SEEK Capital Outlay Fund, FSPK Fund, Technology Fund (accounted for within the Special Revenue Fund), Special Revenue Fund, Debt Service Fund, Bond Proceeds Fund, School Construction Fund, School Food Service Fund, and School Activity Funds.

Generally Accepted Accounting Principles, require the District to address the following risks related to its investments:

Credit Risk – Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. More specifically, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a policy for custodial credit risk. All investments held by the District are insured or collateralized with securities held by the District or by the financial institution in the District's name.

Interest Rate Risk – Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair value by purchasing a combination of shorter and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or approaching maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Concentration of Credit Risk – The District's investment policy places no limit on the amount the District may invest in any one issuer.

NOTE D – RECEIVABLES

The District recognizes revenues as receivable when they are measurable and receipt is certain. Concentration of credit risk with respect to the receivables from federal and state governments is limited due to the historical stability of those institutions. While the District receives revenues from many different sources throughout the year, the accounts and grants receivable may be grouped into the following categories:

	Governmental Activities/ Governmental Funds	Business-Type Activities/ Proprietary Funds	Total
Accounts and Grants Receivable:			
Other Receivables	$ 920,557	$ 108,589	$ 1,029,146
Taxes Receivable	1,112,643		1,112,643
Grants Receivable	1,007,866		1,007,866
Gross Receivables	3,041,066	108,589	3,149,655
Less: Allowance for Doubtful Accounts	63,784	20,095	83,879
Net Receivables	$ 2,977,282	$ 88,494	$ 3,065,776

Federal and state grants to be used or expended as specified by the grantor are recognized as revenue and recorded as receivables when qualifying expenditures are incurred.

NOTE E – CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2015, was as follows:

	Beginning Balance	Additions	Retirements/ Reclassifications	Ending Balance
Governmental Activities				
Capital assets that are not depreciated:				
Land	$ 8,858,365		$ 362,673	$ 8,495,692
Construction in Progress	701,521	$ 10,265,126		10,966,647
Total Nondepreciable Historical Cost	9,559,886	10,265,126	362,673	19,462,339
Capital assets that are depreciated:				
Land Improvement	16,426,799	61,623	(362,673)	16,851,095
Buildings and Improvements	240,512,750	91,848		240,604,598
Technology Equipment	15,625,439	861,662	626,795	15,860,306
Vehicles	17,490,450		145,951	17,344,499
Other Machinery & Equipment	11,997,206	629,688	178,349	12,448,545
Total Depreciable Historical Cost	302,052,644	1,644,821	588,422	303,109,043
Less accumulated depreciation for:				
Land improvements	3,598,926	799,617		4,398,543
Buildings and Improvements	54,836,249	5,081,658		59,917,907
Technology Equipment	12,624,275	1,586,034	622,652	13,587,657
Vehicles	12,632,342	1,093,487	111,434	13,614,395
Other Machinery & Equipment	5,832,952	858,802	152,319	6,539,435
Total Accumulated Depreciation	89,524,744	9,419,598	886,405	98,057,937
Total Depreciable Historical Cost, Net	212,527,900	(7,774,777)	(297,983)	205,051,106
Governmental Activities, Capital Assets, Net	$ 222,087,786	$ 2,490,349	$ 64,690	$ 224,513,445

	Beginning Balance	Additions	Retirements/ Reclassifications	Ending Balance
Business-Type Activities:				
Capital assets that are depreciated:				
Buildings and Improvements	$ 15,127,597			$ 15,127,597
Technology Equipment	156,023	$ 7,209	$ 2,031	161,201
Other Machinery & Equipment	4,508,480		123,494	4,384,986
Total Depreciable Historical Cost	19,792,100	7,209	125,525	19,673,784
Less accumulated depreciation for:				
Buildings and Improvements	3,528,935	309,761		3,838,696
Technology Equipment	126,181	14,910	2,031	139,060
Other Machinery & Equipment	2,623,581	263,594	114,509	2,772,666
Total Accumulated Depreciation	6,278,697	588,265	116,540	6,750,422
Total Depreciable Historical Cost, Net	13,513,403	(581,056)	8,985	12,923,362
Business-Type Activities, Capital Assets, Net	$ 13,513,403	$ (581,056)	$ 8,985	$ 12,923,362

Depreciation expense was charged to functions/programs governmental activities as follows:

Instruction	$ 7,212,449
Support Services:	
Student	7,043
Instructional Staff	29,588
District Administration	794
School Administration	1,663
Business	26,285
Facilities Operations and Maintenance	1,079,952
Student Transportation	1,056,082
Community Service	5,742
Total Depreciation Expense	$ 9,419,598

NOTE F – GENERAL LONG-TERM OBLIGATIONS

The amount shown in the accompanying District-Wide Financial Statements as bond obligations represents the District's future obligations to make lease payments relating to school building revenue bonds issued by the Corporation on behalf of the District for purposes of school facility construction. These amounts are not reflected on the governmental fund financial statements.

The General Fund, SEEK Capital Outlay Fund, and the FSPK Building Fund are obligated to make lease payments. The lease agreements provide, among other things, for lease payments sufficient to satisfy debt service requirements on bonds issued by the Corporation to construct school facilities. The District has the option to purchase the property under lease at any time by retiring the bonds then outstanding. Upon completion of such payments, the leased premises will become the property of the District. The District must generally make sinking fund payments by the fifteenth day of the month prior to scheduled bond and interest payment dates. The District is also obligated to maintain adequate property insurance on the school facilities, and the school facilities have been pledged as security to the holders of the bonds.

In connection with the school building revenue bonds issued after May 1, 1996, the District entered into "participation agreements" with the Kentucky School Facilities Construction Commission (the "Commission"). The Commission was created by the Kentucky General Assembly for the purpose of assisting local school districts in meeting school construction needs. The Commission will remit a stated amount of bond principal and interest payments annually, subject to biennial approval by the Kentucky General Assembly. Should approval not be received in future periods,

the District remains obligated for the full amount of the bond principal and interest payments. Therefore, the liability for the total bond amount remains with the District and, as such, the total principal outstanding has been recorded in the District-Wide Financial Statements.

The District has issued one Build America Bond Series which requires the US Treasury to subsidize the District for 35% of the interest cost relating to the outstanding debt. The 2010 Series Build America Bonds have interest rates that range from 0.80% to 5.63% and was fully refunded during the year ended June 30, 2015.

On April 1, 2015, the District issued $6,235,000 in School Building Revenue Bonds with interest rates that range from 2% to 3% to refund $1,330,000 of outstanding 2006 Series Bonds with an average interest rate of 4%. The refunding is scheduled for February 1, 2016. Until that time, the funds to refund the bonds are being held in escrow and are considered defeased. The refunding reduced total debt service payments over the next 11 years by $420,000, with a net present value savings of 6.25%. This results in an economic gain (the difference between the present values of the old and the new debt service payments) of $360,000. The refunding of the Series 2006 Bonds resulted in a deferred loss on refunding of $237,000, to be amortized over the life of the new bonds.

On April 1, 2015, the District issued $12,235,000 in School Building Revenue Bonds with interest rates that range from 2% to 3.125% to refund $11,940,000 of outstanding 2010 Series Bonds with an average interest rate of 5.13%. The refunding reduced total debt service payments over the next 16 years by $502,000, with a net present value savings of 3.35%. This results in an economic gain (the difference between the present values of the old and the new debt service payments) of $367,000. The refunding of the Series 2010 Bonds resulted in a deferred gain on refunding of $15,000, to be amortized over the life of the new bonds.

Following is a schedule of obligations existing at June 30, 2015:

Issue Date	Series	Interest Rate	Maturity Date	Amount Outstanding
August 1, 2005	XXXIV	3.00%-4.00%	December 1, 2019	$ 6,170,000
February 1, 2006	XXXV	4.00%-4.25%	February 1, 2026	1,330,000
April 1, 2008	XXXVIII	3.25%-4.375%	April 1, 2028	42,420,000
December 30, 2009	MMIX	2.09%-2.09%	December 15, 2025	4,484,000
July 1, 2010	MMX	2.00%-3.125%	February 1, 2019	2,195,000
November 1, 2011	MMXII	1.50%-2.625%	April 1, 2022	3,920,000
October 1, 2012	MMXII	1.10%-2.50%	October 1, 2032	4,175,000
November 1, 2012	MMXIV	0.40%-1.75%	June 1, 2023	4,125,000
March 1, 2014	MMXIV	2.00%-3.00%	December 1, 2024	5,825,000
March 1, 2014	MMXIV	2.00%-4.00%	June 1, 2029	25,520,000
April 1, 2015	MMXV	2.00%-3.50%	April 1, 2035	18,465,000
April 1, 2015	MMXV	2.00%-3.00%	February 1, 2026	6,235,000
April 1, 2015	MMXV	2.00%-3.125%	August 1, 2030	12,235,000
				137,099,000
Plus Unamortized Deferred Premiums and Discounts				1,465,918
			Total School Building Revenue Bonds	$ 138,564,918

Following are aggregate obligations existing at June 30, 2015:

Year Ending June 30,	Principal	Interest	Total Repayments	Less: Commission Participation	Net Repayments
2016	$ 9,423,000	$ 4,217,684	$ 13,640,684	$ 503,326	$ 13,137,358
2017	9,261,000	4,020,890	13,281,890	476,921	12,804,969
2018	9,504,000	3,776,204	13,280,204	476,922	12,803,282
2019	9,782,000	3,509,579	13,291,579	476,921	12,814,658
2020	10,046,000	3,218,715	13,264,715	444,564	12,820,151
2021-2025	46,649,000	11,772,057	58,421,057	1,869,433	56,551,624
2026-2030	33,514,000	4,167,111	37,681,111	1,452,430	36,228,681
2031-2035	8,920,000	777,868	9,697,868	122,738	9,575,130
	$ 137,099,000	$ 35,460,107	$ 172,559,107	$ 5,823,255	$ 166,735,852

Long term liability activity for the year ended June 30, 2015 was as follows:

Governmental Activities	Balance July 1, 2014	Increases	Decreases	Balance June 30, 2015	Amounts Due Within One Year
Bonds Payable					
General Obligation Debt	$ 126,600,000	$ 36,935,000	$ 26,436,000	$ 137,099,000	$ 9,423,000
Plus Deferred Discounts and Premiums	1,317,830	269,301	121,213	1,465,918	
Total Bonds Payable	127,917,830	37,204,301	26,557,213	138,564,918	9,423,000
Other Liabilities					
Compensated Absences	5,272,342	516,469	268,320	5,520,491	557,261
Insurance	424,748		424,748		
Total Other Liabilities	5,697,090	516,469	693,068	5,520,491	557,261
Total Long-Term Obligations	$ 133,614,920	$ 37,720,770	$ 27,250,281	$ 144,085,409	$ 9,980,261

NOTE G – ACCUMULATED UNPAID SICK LEAVE BENEFITS

Accrued sick leave, which has no maximum accumulation, is payable upon retirement at 30% of the value of accumulated sick leave. In accordance with GAAP, the District has recorded approximately $5.5 million in accrued sick leave as a liability in the District-Wide Statement of Net Position since the majority of these liabilities are not expected to be liquidated with expendable available financial resources. Of the $5.5 million, $557,261 is reflected as a current liability on the District Wide Statement of Net Position, as this amount is for those employees with twenty-seven or more years of experience. Additionally, the Governmental Fund Balance Sheet reflects the current portion of accrued sick leave of $34,550. This is the amount anticipated to be funded with current year's economic financial resources.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the District's past experience of making termination payments.

NOTE H – RETIREMENT PLANS

The District's employees are provided with two pension plans, based on each position's college degree requirement. The County Employees Retirement System covers employees whose position does not require a college degree or teaching certification. The Kentucky Teachers Retirement System covers positions requiring teaching certification or otherwise requiring a college degree.

General information about the County Employees Retirement System Non-Hazardous ("CERS")

Plan description

Employees whose positions do not require a degree beyond a high school diploma are covered by the CERS, a cost-sharing multiple-employer defined benefit pension plan administered by the Kentucky Retirement System, an agency of the Commonwealth of Kentucky. Under the provisions of the Kentucky Revised Statute Section ("KRS") 61.645, the Board of Trustees of the Kentucky Retirement System administers CERS and has the authority to establish and amend benefit provisions. The Kentucky Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for CERS. That report may be obtained from http://kyret.ky.gov/.

Benefits provided

CERS provides retirement, health insurance, death and disability benefits to Plan members and beneficiaries. Employees are vested in the plan after five years' service. For retirement purposes, employees are grouped into three tiers, based on hire date:

Governmental Activities	Balance July 1, 2014	Increases	Decreases	Balance June 30, 2015	Amounts Due Within One Year
Bonds Payable					
General Obligation Debt	$ 126,600,000	$ 36,935,000	$ 26,436,000	$ 137,099,000	$ 9,423,000
Plus Deferred Discounts and Premiums	1,317,830	269,301	121,213	1,465,918	
Total Bonds Payable	127,917,830	37,204,301	26,557,213	138,564,918	9,423,000
Other Liabilities					
Compensated Absences	5,272,342	516,469	268,320	5,520,491	557,261
Insurance	424,748		424,748		
Total Other Liabilities	5,697,090	516,469	693,068	5,520,491	557,261
Total Long-Term Obligations	$ 133,614,920	$ 37,720,770	$ 27,250,281	$ 144,085,409	$ 9,980,261

Cost of living adjustments are provided at the discretion of the State Legislature. Retirement is based on a factor of the number of years' service and hire date multiplied by the average of the highest five years' earnings. Reduced benefits are based on factors of both of these components. Participating employees become eligible to receive the health insurance benefit after at least 180 months of service. Death benefits are provided for both death after retirement and death prior to retirement. Death benefits after retirement are $5,000 in lump sum. Five years' service is required for death benefits prior to retirement and the employee must have suffered a duty-related death. The decedent's beneficiary will receive the higher of the normal death benefit and $10,000 plus 25% of the decedent's monthly final rate of pay and any dependent child will receive 10% of the decedent's monthly final rate of pay up to 40% for all dependent children. Five years' service is required for nonservice-related disability benefits.

Contributions

Required contributions to the employee are based on the tier:

	Required Contribution
Tier 1	5%
Tier 2	5% + 1% for insurance
Tier 3	5% + 1% for insurance

General information about the Teachers' Retirement System of the State of Kentucky ("KTRS")

Plan description

Teaching-certified employees of the District and other employees whose positions require at least a college degree are provided pensions through the Teachers' Retirement System of the Commonwealth of Kentucky ("KTRS")—a cost-sharing multiple-employer defined benefit pension plan with a special funding situation established to provide retirement annuity plan coverage for local school districts and other public educational agencies in the Commonwealth. KTRS was created by the 1938 General Assembly and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the KRS. KTRS is a blended component unit of the Commonwealth of Kentucky and therefore is included in the Commonwealth's financial statements. KTRS issues a publicly available financial report that can be obtained at http://www.ktrs.ky.gov/05_publications/index.htm.

Benefits provided

For employees who have established an account in a retirement system administered by the Commonwealth prior to July 1, 2008, employees become vested when they complete five (5) years of credited service. To qualify for monthly retirement benefits, payable for life, employees must either:

1.) Attain age fifty-five (55) and complete five (5) years of Kentucky service, or
2.) Complete 27 years of Kentucky service.

Participants that retire before age 60 with less than 27 years of service receive reduced retirement benefits. Non-university employees with an account established prior to July 1, 2002 receive monthly payments equal to two (2) percent (service prior to July 1, 1983) and two and one-half (2.5) percent (service after July 1, 1983) of their final average salaries for each year of credited service. New employees (including second retirement accounts) after July 1, 2002 will receive monthly benefits equal to 2% of their final average salary for each year of service if, upon retirement, their total service less than ten years. New employees after July 1, 2002 who retire with ten or more years of total service will receive monthly benefits equal to 2.5% of their final average salary for each year of service, including the first ten years. In addition, employees who retire July 1, 2004 and later with more than 30 years of service will have their multiplier increased for all years over 30 from 2.5% to 3.0% to be used in their benefit calculation. Effective July 1, 2008, the System has been amended to change the benefit structure for employees hired on or after that date.

Final average salary is defined as the employee's five (5) highest annual salaries for those with less than 27 years of service. Employees at least age 55 with 27 or more years of service may use their three (3) highest annual salaries to compute the final average salary. KTRS also provides disability benefits for vested employees at the rate of sixty (60) percent of the final average salary. A life insurance benefit, payable upon the death of an employee, is $2,000 for active contributing employees and $5,000 for retired or disabled employees.

Cost of living increases are one and one-half (1.5) percent annually. Additional ad hoc increases and any other benefit amendments must be authorized by the General Assembly.

Contributions

Contribution rates are established by KRS. Non-university employees are required to contribute 12.105% of their salaries to the System.

The Commonwealth of Kentucky, as a non-employer contributing entity, pays matching contributions of the amount 13.105% of salaries for local school district employees hired before July 1, 2008 and 14.105% for those hired after July 1, 2008. For local school district employees whose salaries are federally funded, the employer contributes 15.355% of salaries. If an employee leaves covered employment before accumulating five (5) years of credited service, accumulated employee pension contributions plus interest are refunded to the employee upon the employee's request.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the District reported a liability of for its proportionate share of the net pension liability for CERS. KTRS did not report a liability for the District's proportionate share of the net pension liability because the Commonwealth of Kentucky provides the pension support directly to KTRS on behalf of the District. The amount recognized by the District as its proportionate share of the net pension liability, the related Commonwealth support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the CERS net pension liability	$ 21,406,000
Commonwealth's proportionate share of the KTRS net pension liability associated with the District	344,848,397
	$ 366,254,397

The net pension liability for each plan was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The District's proportion of the net pension liability for CERS was based on the actual liability of the employees and former employees relative to the total liability of the System as determined by the actuary. At June 30, 2014, the District's proportion was 0.659788% percent.

For the year ended June 30, 2015, the District recognized pension expense of $2,433,305 related to CERS and $16,898,273 related to KTRS, of which $8,126,457 was recognized on the fund financial statements as it represented amounts paid on the District's behalf during the year. The District also recognized revenue of $16,898,273 for KTRS support provided by the State. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments		$ 2,389,000
District contributions subsequent to the measurement date	$ 2,749,557	
Total	$ 2,749,557	$ 2,389,000

$2,749,557 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows related to pensions will be recognized in pension expense as follows:

For the Year Ended June 30:		
2016	$	549,911
2017		549,911
2018		549,911
2019		549,911
2020		549,911

Actuarial assumptions

The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	CERS	KTRS
Inflation	3.50%	3.50%
Projected salary increases	4.50%	4.0-8.2%
Investment rate of return, net of investment expense and inflation	7.75%	7.50%

For CERS, Mortality rates for the period after service retirement are according to the 1983 Group Annuity Mortality Table for all retired members and beneficiaries as of June 30, 2006 and the 1994 Group Annuity Mortality Table for all other members. The Group Annuity Mortality Table set forward five years is used for the period after disability retirement.

For KTRS, Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with a setback of 1 year for females. The last experience study was performed in 2011 and the next experience study is scheduled to be conducted in 2016.

For CERS, the long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. The most recent analysis, performed for the period covering fiscal years 2005 through 2008, is outlined in a report dated August 25, 2009. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to changes absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

For KTRS, the long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class, as provided by KTRS's investment consultant, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Equity	45.0%	6.4%
Non U.S. Equity	17.0%	6.5%
Fixed Income	24.0%	1.6%
High Yield Bonds	4.0%	3.1%
Real Estate	4.0%	5.8%
Alternatives	4.0%	6.8%
Cash	2.0%	1.5%
Total	100.0%	

Discount rate

For CERS, the discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment return of 7.75%. The long-term investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

For KTRS, the discount rate used to measure the total pension liability was 5.23%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the Employer contributions will be made at statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members until the 2036 plan year. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments through 2035 and a municipal bond index rate of 4.35% was applied to all periods of projected benefit payments after 2035. The Single Equivalent Interest Rate (SEIR) that discounts the entire projected benefit stream to the same amount as the sum of the present values of the two separate benefit payments streams was used to determine the total pension liability.

Sensitivity of CERS and KTRS proportionate share of net pension liability to changes in the discount rate

The following table presents the net pension liability of the District, calculated using the discount rates selected by each pension system, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current Discount Rate	1% Increase
CERS	6.75%	7.75%	8.75%
District's proportionate share of net pension liability	$ 18,643,935	$ 21,406,000	$24,168,065
KTRS	4.23%	5.23%	6.23%
District's proportionate share of net pension liability	$0	$0	

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial reports of both CERS and KTRS.

Medical Insurance Plan

Plan description

In addition to the pension benefits described above, Kentucky Revised Statute 161.675 requires KTRS to provide post-employment healthcare benefits to eligible members and dependents. The KTRS Medical Insurance benefit is a cost-sharing multiple employer defined benefit plan. Changes made to the medical plan may be made by the KTRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

To be eligible for medical benefits, the member must have retired either for service or disability. The KTRS Medical Insurance Fund offers coverage to members under the age of 65 through the Kentucky Employees health Plan administered by the Kentucky Department of Employee Insurance. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the KTRS Medicare Eligible Health Plan.

Funding policy

In order to fund the post-retirement healthcare benefit, six percent 6% of the gross annual payroll of members before July 1, 2008 is contributed. Three percent (3%) is paid by member contributions and three quarters percent (.75%) from state appropriation and two and one quarter percent (2.25%) from the employer. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

NOTE I – ON-BEHALF PAYMENTS

The Commonwealth of Kentucky pays certain expenses on behalf of the District. In the financial statements, these payments are recorded as an expense and other state revenue. These expenses include the following the year ended June 30, 2015:

Health Insurance	$	13,626,177
KTRS Employer Match		8,126,457
Health Reimbursement Account		733,078
State Administration Fees		168,707
Life Insurance		24,532
Federal Reimbursement of Health Benefits		(975,249)
Technolgy		135,650
School Facilities Construction Commission Debt Service		503,137
	$	22,342,489

NOTE J – POST-EMPLOYMENT HEALTH CARE BENEFITS

Retired District employees receive some health care benefits depending on their length of service. In accordance with Kentucky Revised Statutes, these benefits are provided and advanced-funded on an actuarially determined basis through the CERS and KTRS plans.

NOTE K – COMMITMENTS

On June 30, 2015, the District had outstanding commitments for construction of $22,726,788.

NOTE L – CONTINGENCIES

The District receives funding from federal, state, and local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if the grantor's review indicates that the funds have not been used for the intended purpose, the grantors may request a refund of monies advanced or refuse to reimburse the District for its disbursements. The amount of such future refunds and unreimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantor's satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

In addition, the District operates in a heavily regulated environment. The operations of the District are subject to the administrative directives, rules and regulations of federal and state regulatory agencies, including, but not limited to, the U.S. Department of Education and the Kentucky Department of Education. Such administrative directives, rules and regulations are subject to change by an act of Congress or the Kentucky Legislature or an administrative change mandated by the Kentucky Department of Education. Such changes may occur with little or inadequate funding to pay for the related cost, including the additional burden to comply with a change.

NOTE M – INSURANCE AND RISK MANAGEMENT

The District is exposed to various forms of loss of assets associated with the risks of fire, personal liability, theft, vehicular accidents, errors and omissions, fiduciary responsibility, etc. Each of these risk areas is covered through the purchase of commercial insurance. The District has purchased certain policies which are retrospectively rated including workers' compensation insurance. Premiums for these policies are based upon the District's experience to date.

The District is also exposed to various risks of loss related to torts, errors and omissions, injuries to employees, and natural disasters. To obtain insurance for workers' compensation, errors and omissions, and general liability coverage, the District contracts with an insurance broker to obtain proper coverage.

The District purchases unemployment insurance through the Kentucky School Boards Insurance Trust Unemployment Compensation Fund; however, risk has not been transferred to such fund.

In addition, the District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE N – LITIGATION

The District is subject to various legal actions in various stages of litigation, the outcome of which is not determinable at this time. Management of the District and its legal counsel do not anticipate that there will be any material effect on the financial statements as a result of the litigation presently in progress.

NOTE O – RECONCILIATION OF FINANCIAL STATEMENTS TO ANNUAL FINANCIAL REPORT FILED WITH THE KENTUCKY DEPARTMENT OF EDUCATION

In order for the District-Wide Statement of Net Position to conform to generally accepted accounting principles, the Annual Financial Report (submitted to the Kentucky Department of Education) had to be adjusted. Below are reconciliations of the total assets and liabilities of the District-Wide Statement of Net Position to the Annual Financial Report.

Total Assets and Deferred Outflows of Resources per District-Wide Statement of Net Position	$	280,455,936
Less: Transactions/Funds not Recorded on the Annual Financial Report		
Occupational Tax Office "Total Assets" from Governmental Funds Balance Sheet		(21,936)
Deferred Outflows of Resources not Recorded on the Governmental Funds Balance Sheet		(3,184,902)
Other Governmental Funds "Total Assets" from Governmental Funds Balance Sheet		(707,618)
Total Assets and Deferred Outflows of Resources per Annual Financial Report filed with the Kentucky Department of Education	$	276,541,480
General Fund (1)	$	21,341,407
Special Revenue (2)		1,977,155
School Activity Fund (21)		280,243
Construction Fund (360)		11,471,545
Capital Outlay (310)		94,941
Food Service Fund (51)		3,701,432
Day Care (52)		237,950
Governmental Assets (8)		224,513,445
Food Service Assets (81)		12,923,362
Total Assets and Deferred Outflows of Resources Annual Financial Report filed with the Kentucky Department of Education	$	276,541,480

Total Liabilities and Deferred Inflows of Resources per District-Wide Statement of Net Position	$	173,713,707
Less: Transactions/Funds not Recorded on the Annual Financial Report		
Occupational Tax Office "Total Liabilities" from Governmental Funds Balance Sheet		(7,514)
Bond Payable Discounts Less Amortization		(1,465,918)
Additional Current Portion of Compensated Absences not Recorded on the Governmental Funds Balance Sheet		(522,710)
Deferred Inflow of Resources not Recorded on the Governmental Funds Balance Sheet		(2,030,650)
Net Pension Liability not Recorded on the Governmental Funds Balance Sheet		(18,195,100)
Accrued Interest not Recorded on the Governmental Funds Balance Sheet		(919,615)
Total Liabilities and Deferred Inflows of Resources per Annual Financial Report filed with the Kentucky Department of Education	$	150,572,200

General Fund (1)	$	2,000,027
Special Revenue (2)		893,664
School Activity (21)		618
Construction Fund (360)		1,957,111
Food Service Fund (51)		3,420,600
Day Care Fund (52)		237,950
Long Term Debt Account Group (9)		142,062,230
Total Liabilities and Deferred Inflows of Resources per Annual Financial Report filed with the Kentucky Department of Education	$	150,572,200

NOTE P – TRANSFER OF FUNDS

Although each fund is its own distinct reporting entity, periodically, funds have cause to transfer their revenues to other funds. The most common reasons necessitating interfund transfers are for debt service payments and grant matching funds. Debt service payments may be paid from revenues in the Capital Outlay Fund, Building Fund, or Construction Fund, but the expenditures are recorded in the Debt Service Fund with transfers recorded to keep the funds in balance.

At times, the Board receives grants which require an amount of matching funds. Usually, General Fund supplies this match offset by operating transfers to the Special Revenue Fund.

Interfund transfers are eliminated in the governmental and business-type activities columns of the District-Wide Statement of Net Position. As reflected on the governmental fund financial statements, the following transfers were made during the year:

From Fund	To Fund	Purpose	Amount
General Fund	Special Revenue	Technology Match	$ 309,535.00
General Fund	Construction	Capital Funds Request	825,000.00
FSPK Fund	General Fund	Capital Funds Request	972,348.64
SEEK Fund	General Fund	Capital Funds Request	1,178,772.36
FSPK Fund	Debt Service	Debt Service	11,968,106.16
Food Service	General Fund	Indirect Cost	420,279.63
General Fund	Construction	Close Project	4,527.79
Special Revenue	Debt Service	18C4 and 18CA Bond Pmts.	109,223.00
General Fund	Day Care Fund	To cover debit fund balance caused by pension liability	208,501.60
General Fund	Construction	To cover negative cash balance in Construction projects	19,872.50
			$ 16,016,166.68

NOTE Q – COBRA

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the District at risk for a substantial loss contingency.

NOTE R – CHANGE IN ACCOUNTING PRINCIPLE AND RELATED CHANGES TO CERTAIN BEGINNING BALANCES

Effective July 1, 2014, the District was required to adopt GASB Statement no. 68, *Accounting and Financial Reporting for Pensions*. GASB 68 replaced the requirements of GASB 27, *Accounting for Pensions by State and Local Governmental Employers* and GASB 50, *Pension Disclosures*, as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. GASB 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability to more comprehensively and comparably measure the annual costs of pension benefits. Cost-sharing government employers, such as the District, are required to report a net pension liability, pension expense and pension-related assets and liabilities based on their proportionate share of the collective amounts for all governments in the plan.

GASB 68 required retrospective application. Since the District only presents one year of financial information, the beginning net pension was adjusted to reflect the retrospective application. The adjustment resulted in a $21,016,746 reduction in beginning for governmental activities net position on the District-wide Statement of Activities and an increase of $2,389,000 of for governmental activities deferred outflows of resources – District contributions subsequent to the measurement date. On the District-wide statement of activities and on the statement of revenues, expenses and changes in net position – proprietary funds, the prior period adjustment resulted in a reduction of $2,990,637 to the beginning net position for the School Food Service Fund and a reduction of $213,617 to the beginning net position of the Day Care Fund.

NOTE S – FUTURE ACCOUNTING PRONOUNCEMENTS

In February 2015, the GASB issued Statement No. 72, *Fair Value and Measurement and Application*. The requirements of this Statement are effective for financial statements for reporting periods beginning after June 15, 2015.

This statement establishes standards for valuation techniques to measure fair value. This statement establishes a hierarchy of inputs to valuation techniques used to measure fair value. This statement requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques.

In June 2015, the GASB issued Statement No. 75, *Accounting and Reporting for Postemployment Other Than Pensions*. The provisions of this statement are effective for fiscal years beginning after June 15, 2017.

This statement establishes new accounting and financial reporting requirements for OPEB plans. The scope of this statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers. This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed.

The District is currently evaluating the impact that will result from adopting GASB No. 72 and GASB No. 75 and is therefore unable to disclose the impact that adopting these standards will have on the District's financial position and the results of its operations when the statement is adopted.

NOTE T – SUBSEQUENT EVENTS

In preparing these financial statements, management of the District has evaluated events and transactions for potential recognition or disclosure through November 7, 2015, the date the financial statements were available to be issued.

WARREN COUNTY SCHOOL DISTRICT
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended June 30, 2015

NOTE A – BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal grant activity of the District and is presented on the accrual basis of accounting. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Therefore, some amounts presented in this Schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

NOTE B – FOOD DISTRIBUTION

Nonmonetary assistance is reported in the Schedule at the fair value of the commodities received and disbursed. During the fiscal year ended June 30, 2015, the District received $461,415 in donated food commodities. During the year the District consumed $413,798 in donated food commodities, leaving a remaining amount of donated food commodities in inventory, valued at $77,574.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed In Accordance with *Government Auditing Standards*

Members of the Board
Warren County District
Bowling Green, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Warren County School District (the "District") as of and for the year ended June 30, 2015, and the related notes to financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 7, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

In addition, the results of our tests disclosed no material instances of noncompliance with specific statutes or regulations identified in the *Kentucky Public School District's Audit Contract and Requirements* prescribed by the Kentucky State Committee for School District Audits.

We noted certain other matters that we reported to management of the District in a separate letter dated November 7, 2015.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

Members of the Board
Warren County School District
Bowling Green, Kentucky

Report on Compliance for Each Major Federal Program

We have audited Warren County School District (the "District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015. The District's major federal programs are identified in the Summary of Audit Results Section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
