

23-24 Course Registration Resources

Presented by FHS Counseling

General Basics

- Our purpose for advisory today is to provide you time to review the resources available to assist you with selecting classes.
- Resources Available:
 - Previous videos & powerpoint presentations
 - Future Ready Planning Guide - review Endorsements and Program of Study options
 - High School Course Guide - course descriptions
- Each student's schedule has 8 periods. Students will select coursework to fill 8 periods + alternates.
- Students will select classes in their Skyward account. Step-by-step instructions will be provided next week on how to do this.

Graduation Requirements and Course Selection

Course Registration for the 2023-24 School Year is set to begin in January 2023 with students in current grades 9-11.

In preparation for this, we have been doing lessons with students in advisory with topics that will help them make decisions when the course selection process begins in January. The series of videos are available in the links below. Students and parents may access the links to watch the videos regarding the topics covered.

In January, we will release several more videos to assist students when the Skyward access is open for students and families. In addition, we will host open hours with the counseling team during advisory and other times so that students will be able to ask questions. We also will begin individual appointments with students beginning in January through March. All course selections will be completed by Spring break.

Please use the links below to access the videos. Links will be added each week when the videos are released.
