

HISTORY

Eagles' Wings is the result of a dream that Dianne and Albert Hagan had to provide an early intervention program for financially disadvantaged, at-risk boys and girls. They left their jobs in Louisiana to start the ranch in late 1992. The story of Eagles' Wings will leave you with no doubt that it is from God, about God, and for God.

Eagles' Wings exists to help vulnerable youth develop stable relationships with their family, community and Creator through camping, follow-up, and mentoring.
