

3rd-5th Science

All 3rd-5th graders accounts have been set up. This is a program which the middle school has used over the years to supplement their student's learning at home or when they are traveling. All lessons cover the Next Generation Science Standards (NGSS). There are some embedded questions in the lessons, but also a quiz for checking for understanding. Students retake a lesson if they want to retake the quiz. Enjoy!

Step 1 : Go to www.zingylearning.com

Step 2: Login with Google account username specific to student #####@rsf.k12.ca.us and password [rsf#####](#)

OR
