November 19, 2018

To the Board of Education and Citizens of the Lakewood Local School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Lakewood Local School District (District) for the fiscal year ended June 30, 2018. This CAFR includes an opinion from our auditors, Julian & Grube, Inc. and conforms to generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District.

State law requires that an official report prepared on the GAAP basis be prepared annually within 150 days after the close of the year. The report includes the basic financial statements that provide information about the District's financial position and the results of financial operations.

This report will provide the taxpayers of the District with comprehensive financial data in a format that will enable them to gain a clear understanding of the District's finances. Copies will be made available upon request and/or can be printed from the District's website.

DISTRICT PROFILE

The Lakewood Local School District is located in southern Licking County approximately 25 miles east of Columbus, the state capital. The District encompasses approximately 115 square miles. The principle communities are the Village of Hebron, the Village of Buckeye Lake, Jacksontown and the surrounding farming townships. The District has a diversified industrial base as well as residential and agricultural communities. Interstate 70 and State Routes 79, 40 and 13 serve as the major transportation arteries. The District serves approximately 1,878 students in grades K-12. The District also serves 62 preschool students.

The District's facilities include 1 elementary school (grades PreK-2), 1 intermediate school (grades 3-5), 1 middle school (grades 6-8), 1 high school (grades 9-12), a bus garage, the administrative building and an athletic complex. The high school is the District's newest facility built in 2000, Jackson Intermediate School built in 1972 and 1967, Middle School built in 1959 and Hebron Elementary built in 1914.

LAKEWOOD LOCAL SCHOOL DISTRICT

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

The Board of Education of the Lakewood Local School District (the Board) is a five member body politic and corporate, as defined by Section 3313.02, Ohio Revised Code. The Board serves as the taxing authority, contracting body, policy maker, and approves an appropriation resolution which serves as the basis for control and authorization for all expenditures of District tax money.

The Superintendent is the chief executive officer of the District, responsible to the Board for total educational and support operations. Ms. Mary Kay Andrews has served as Superintendent since January 1, 2015.

The Treasurer/CFO is the chief financial officer of the District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds and investing idle funds as permitted by Ohio law. Ms. Glenna Plaisted has served as Treasurer/CFO since May 15, 2000.

Great schools are important to the quality of life in the Villages of Hebron, Buckeye Lake and the Jacksontown area and help maintain the property values in the District. But beyond these considerations, the educational program itself is of primary importance. The Lakewood Local School District continuously strives toward providing students with a quality education. It is therefore appropriate to review the foundation on which the District's programs are built.

The District offers a full range of educational programs and services. These include elementary and secondary general studies, advanced placement courses, gifted education, college preparatory and Tech Prep, special education services, and a broad range of co-curricular and extracurricular activities.

CURRICULUM DEVELOPMENT

The Lakewood Local School District provides a comprehensive K-12 program: instruction, assessment, intervention and special needs programming. The curriculum supports the Ohio State Tests (Grades 3–12) and Diagnostic Tests (K-3). Advanced placement classes are offered in language arts, science, math and social studies at the high school. Also credit flex is available to help increase learning and engagement and assist students to graduate ready for success in college and their careers.

Lancer Connect, our educational options program, provides online courses and teacher support for students who may want or need to take courses outside of the traditional school environment.

Young residents are also eligible to apply for acceptance into our pre-school program. The pre-school curriculum aligns with the Ohio Department of Education's Early Learning and Development Standards for preschool children, and includes instructional areas in: Approaches to Learning, Language and Literacy, Cognition, Social Emotional Development, Physical Well Being and Motor Development.

INSTRUCTION MATERIALS

The administration, staff, board members, and community have identified that keeping current with today's educational methodology and utilizing updated student textbooks, technology and materials are critical components necessary to provide students with a quality education. The Ohio state standards and model curriculum have been implemented at all levels.

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

TECHNOLOGY

Lakewood students are introduced to technology in preschool and encouraged to use technology to advance their learning potential. Students at every grade level are linked to the Internet. Wireless access is available in all district buildings. Students also have access to tablets and/or Chromebook at all four buildings. The high school is 1:1, meaning every student has a Chromebook for instructional use 24 hours a day, 7 days a week. Teachers have incorporated the use of technology into their classrooms and enabled students to use technology to help facilitate life-long learning.

The District has a web page which can be located at www.lakewoodlocal.k12.oh.us.

STAFF DEVELOPMENT

Locally provided staff development is an extremely important part of professional growth. The Superintendent, with the input from staff and building administrators, assess staff needs and plan after school sessions, in-service days, and summer sessions for certified staff consistent with the District goals. The emphasis on these professional development activities is to provide professional staff with the knowledge base required for implementation of effective teaching strategies and enhance instruction. In addition to locally provided staff development, the Lakewood Local School District supports staff members who attend conferences outside of the District and continually encourages staff to examine, understand, and implement best practices used in educational settings with emphasis on formative instructional practices.

INTERVENTION AND SPECIAL PROGRAMS

Lakewood Local School District recognizes its responsibility to offer academic instruction that is appropriate for every child. Student abilities and performance levels are measured and used to determine appropriate instruction. The RTI and 3-Tier Problem Solving model are used. Research-based programs such as Fundations, Spire and Math-U-See have been implemented to use for Tier 2 or Tier 3 interventions. The District also uses STAR as a quality benchmark assessment tool in grades K-8. Quarterly assessments have been developed in grades 9-12 to measure student mastery of course objectives in the core subject areas.

For those students requiring supplemental help or varied instructional methods, plans are developed and monitored by intervention assistance teams that include teachers, administrators and intervention specialists. Interventions for students are occurring within teachers' daily instruction as they differentiate instruction to meet the needs of individual students and during Academic Assist or Enrichment/Intervention periods. Parental involvement is critical in the process of understanding student needs and developing intervention plans. In addition, we engage parents via surveys, focus groups, Learning with Loved One events and the development of our Continuous Improvement Plan (CIP).

GIFTED AND TALENTED PROGRAMMING AND ADVANCED PLACEMENT COURSES

Opportunities for more challenging work are available through the Gifted and Talented Program. This program serves identified students in grades 3-12. The curriculum includes enrichment activities, independent research and project based learning with an emphasis on higher level thinking skills. Classroom teachers that teach gifted students completed at least 30 hours of gifted professional development this school year.

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

Advanced placement courses in English, American History, Calculus AB, Chemistry, European History, U.S. Government, Statistics and Biology are offered at the high school level. Students also participate in college level courses and earn dual credit (high school and university credit). Courses are offered at the high school and also various universities.

SPECIAL EDUCATION

The District serves students who are on Individualized Educational Programs. These students are served in the following programs: speech/language, multi handicapped, cognitively disabled handicapped, severe emotionally disturbed, specific learning disabled, other health impaired and hearing impaired.

Program options and related services for students on Individualized Educational Plans are structured to provide a continuum of services based on individual needs. These options insure that all students are educated in the least restrictive environment possible. The Lakewood Local School District is committed to providing educational excellence for all students with disabilities, expanding their skills and aptitudes to be successful in the educational setting, in the community, and as adult contributors in society.

CONTINUOUS IMPROVEMENT PLANNING

The District's Continuous Improvement Plan includes these goals:

Goal #1

All students will be reading on grade level by the third grade and every year thereafter as measured by common assessments.

Goal #2

100% of students will show at least one-year of expected growth in mathematics according to value-added measures in grades 4-8 and through quality benchmark assessments in non-tested grades.

Goal #3

90% of parents/families will participate in activities and effectively utilize resources designed for supporting student development in math and reading.

Teachers in all buildings are engaged in regular Teacher-Based Team meetings, where they analyze student data in English Language Arts and Math that align to the District's CIP goals above. Action steps and instructional strategies/interventions are implemented based on the student data. Plans are tweaked and instructional strategies/interventions modified as needed based on progress monitoring data.

STATE REPORT CARD PERFORMANCE

The Ohio Department of Education's (ODE) Ohio School Report Cards are designed to give each school district a clear picture of the progress in raising achievement and preparing our students for their futures. The information provided in the Report Card outlines areas that ODE views as most critical to successful learning. As a District we have some areas to celebrate and some areas of focus.

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

Our overall District letter grade is a "D". The overall District letter grade is a new feature of the report card this year and is generated based on the combination of component grades. We were certainly disappointed to see an overall grade of "D" on our District report card. Although we realize the report card and the state testing that determines the report card grades are important, we do not believe it is the complete, definitive portrait of our school district, our students and our staff.

Achievement Component- This represents the level of proficiency of students on the state tests. It is made up of two parts: performance index and indicators met. Our component grade is a "D". This is the same grade we earned last year. We are pleased that we increased the number of indicators met from last year to this year. Compared to the 2017 report card, we increased achievement in 17 of the indicators, showing in some areas significant gains in achievement as measured by the Ohio State Tests (OST). Even though the percentages do not meet the state standard of 80% proficient, this indicates we are on the right path.

Gap Closing- This shows how well we meet performance expectations for sub-groups of students, such as our students with disabilities and economically disadvantaged. This measure was completely revamped for the 2017-2018 school year. Our District earned a letter grade of "F". The elementary buildings are showing a "C", which shows we are closing the gap in the earlier grades. We expect to see this earlier growth since we have chosen to focus on the elementary grades and economically disadvantaged students in both reading and math. Focusing on the lower grades now allows the progress to roll up.

Value-Added- This measures the amount of growth students make from year to year. Value-Added scores for the District are lower, overall for the District this year. However, there is evidence of more than expected progress in grades 4, 5 and 7 at Jackson Intermediate School and Lakewood Middle School. Jackson earned a "B" and the middle school earned a "C". We have put an emphasis on implementing new curricular pieces and had significant professional development and teacher collaboration in these buildings.

Improving At-Risk K-3 Reading- Our District earned a "D" this year for this component of the local report card. This measures our success rate of moving students in grades K-3 from off-track to on-track from fall to fall. Although we saw a decrease in 'Improving At-Risk Readers Component' at Hebron Elementary School and Jackson Intermediate School, we continue to have 100% of our non-exempt students meeting the Third Grade Reading Guarantee. We use Renaissance STAR assessments to determine student on-track status and provide individualized Reading Improvement and Monitoring Plans (RIMPS) for all students who are deemed to be off-track.

Graduation Rate- This is the percent of students who graduate who started at LHS, including students who may have moved and did not enroll elsewhere. Data reflects the graduating classes of 2016 and 2017. We earned a component score of "B" for the second year with a 4-year graduation rate of 90.4% and a 5-year graduations rate of 94.5% as reported with ODE data. However, if we look at the graduation rate of students who attended Lakewood Schools for all four years of high school, the graduation rate increases to 97.1%. We continue to focus heavily on finding pathways to gradation for all students despite the challenging graduation requirements that have been set.

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

Prepared for Success-This measures whether students are training in a technical field or preparing for work or college. Data reflects the graduating classes of 2016 and 2017. Our District component grade for this measure dropped from a "D" to an "F" due to an increase in the benchmark. This measure awards credits for students who earn remediation-free scores on the ACT for English, reading and math exams, earn an honors Diploma or earn high marks on an industry-recognized credentialing test in one of 13 high-demand career fields. Districts get bonus points for students who achieve at least one of the above and earn a score of 3 or higher on at least one AP Exam or earn at least 3 credits in College Credit Plus (CCP) courses.

We use all of this data to develop our practice and guide our discussions. Before the final release of the report card, our district teams worked this summer to put plans in place to focus on areas of continued growth. Our building goals and Quality Profile are located on the District website under District Profile.

ECONOMIC CONDITION AND OUTLOOK

The District is located approximately 25 miles east from the metropolitan city of Columbus providing a wealth of opportunity for cultural, social and economic resources for its residents. Central Ohio Technical College and The Ohio State University of Newark share facilities and are located in the nearby City of Newark. Denison University is located in the adjoining Village of Granville. These colleges provide excellent educational opportunities for the Lakewood community.

The Villages of Hebron and Buckeye Lake offer excellent opportunities for business growth and expansion. Within the District's boundaries, an Industrial Park stimulates the economy through a diverse group of employers, from the small family operated business to major commercial/industrial and service corporations. The five largest employers in the District in terms of numbers of employees are: THK Manufacturing of America, Harry & David Operations, MPW Properties, Hendrickson, and RR Donnelley.

The District relies heavily on property tax revenues to maintain its educational programs. The District has two (2) temporary emergency operating levies. On November 7, 2017 the District passed a renewal of a five year emergency levy which generates \$2,353,259 per year. A ten year emergency levy was passed on November 2, 2010 and generates \$3,528,880 per year. These emergency levies represent 38% of the total tax related revenues for the District. The District anticipates returning to its voters for a renewal of the ten year emergency levy in November 2019. With the passage of this renewal levy, the District should be able to meet its operating expenses through fiscal year 2023 as projected on the District five-year forecast.

Long-Term Financial Planning

The District prepares a five-year forecast for use as a tool for long range planning. The five-year forecast projects local and state revenues, spending patterns within each area of the budget, and cash balances in the District's operating fund. The District uses the five-year forecast to provide a basis for making financial decisions, including the construction of the annual budget, adjustments to staffing levels, collective bargaining, and the placement of tax levies on the ballot.

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

The Board of Education approved a transfer of \$500,000 from the General Fund to the Capital Projects Fund each of the past two fiscal years. It is anticipated that the Board of Education will approve additional transfers of \$500,000 each fiscal year from the General Fund to the Capital Projects Fund for fiscal years ending June 30, 2019 and June 30, 2020. These monies will be used to assist in addressing the facility needs within the District.

The District was on the November 2018 ballot with a bond issue to build a new elementary school (grades Pre-K through 5) along with needed improvements for the middle school and high school. The bond issue attempt was unsuccessful and the District will go back to the voters in May 2019.

RECENT INITIATIVES/ACCOMPLISHMENTS

There were a number of District initiatives/accomplishments made during the fiscal year ended June 30, 2018. Some of those were as follows:

Financial

The District received an unmodified opinion on the Fiscal Year 2017 audit with no citations or recommendations noted.

The District received the Certificate of Excellence in Financial Reporting from the Government Finance Officers Association for the Lakewood Local School District Comprehensive Annual Report (CAFR) for Fiscal Year ending June 30, 2017. The Certificate of Achievement is the highest form of recognition in governmental accounting and financial reporting, and its attainment represents a significant accomplishment by a government and its management. This is the fifteenth consecutive year the District has received this award.

The District received the Award for Outstanding Achievement in Popular Annual Financial Reporting from the Government Finance Officers Association for the Lakewood Local School District Popular Annual Financial Report (PAFR) for the Fiscal Year ending June 30, 2017. This colorful easy to read document is a useful tool in educating the public and staff on the revenues and expenditures of the School District. This is the ninth consecutive year the District has received this award.

Instructional/Other

- Established a Business Advisory Council at Lakewood High School. To date, more than 50 businesses have provided input on curriculum/job skills needed, provided mentorship/internship opportunities for students and offered training and credentialing for students.
- Lakewood High School administrators led a drug testing task force made up of administrators, staff members, students, coaches and parents. They met numerous times to review the needs of our school, review drug testing policies from other local districts and to develop a random drug testing program that would fit the needs of the students at Lakewood High School and Lakewood Middle School. This program will begin implementation for the 2018-2019 school year.
- Received a \$30,000 grant from Making Middle Grades Work to implement key practices at Lakewood Middle School.
- As part of our districtwide Leaders & Learners initiative, the Middle School developed a daily block
 of time that is focused on character development and academic content writing aligned to state
 standards.

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

- Jackson Intermediate School partnered with the Village Network to bring on-site counseling for referred students to the school building.
- Teachers at Jackson Intermediate School participated on leadership teams (LEAD team) that focused on developing student leaders, increasing building morale, providing an effective learning environment and making family connections. The students participated in a building-wide incentive program that recognized students for good behavior.
- Lakewood Preschool earned a 5-star rating, the highest rate possible, for Step Up to Quality from the Ohio Department of Education.
- Teachers at Hebron Elementary used Project Based Learning as a strategy to hook students to learning, integrate subjects and provide students with opportunities to apply what they learned in authentic ways. Teachers also integrated design challenges into the classroom to teach students the problem solving framework and develop much needed 21st Century Skills.
- Hebron Elementary offered a Leaders in Training program for 2nd graders. Interested students completed an application (included writing an essay, getting recommendations from previous teachers and having an interview). Leaders met weekly with the school social worker and helped in various ways in the school.

MAJOR INITIATIVES FOR THE FUTURE

Financial

To receive the Certificate of Excellence in Financial Reporting from the Government Finance Officers Association for the District's 2018 Comprehensive Annual Financial Report (CAFR).

To receive the Award for Outstanding Achievement in Popular Annual Financial Reporting from the Government Finance Officers Association for the 2018 Popular Annual Financial Report (PAFR).

Instructional

The District continues to seek improvement in the areas measured by the Local Report Card. An overall "A" rating on the Report Card is the goal, in addition to engaging the students and providing opportunities for enrichment and intervention as needed. In working towards our district goals and an "A" rating on the local report card, we continue to review our curriculum, alignment and assessment practices.

We are working towards a balanced literacy framework for English Language Arts at the elementary levels. We have gradually implemented new programs pieces, Fundations and Lucy Calkins' Reading Units of Study, to the framework. Teachers are receiving ongoing professional development and are collaborating around best practices in the implementation of these programs.

The Engage New York math program continues to be used in the District. Our K-8 Math Instructional Coach and Title I Math teacher, along with building teacher leaders, continue to provide professional development to teachers on a weekly to biweekly basis, model best practices, do intervention with groups of students and create resources (i.e., pacing guides, assessments, spiral reviews, how-to videos for teachers, students and parents).

Teachers at the high school will continue to focus on teaching and learning best practices for the implementation of the 1:1 Chromebook program. Teachers will receive training and become Google certified.

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

Finally, we will be embarking on strategic planning in early 2019. In preparation for our strategic planning, the district will be working with consultants on a full curriculum audit that will explore ten components, including leadership, culture, teaching & learning and student assessment & data management.

FINANCIAL INFORMATION

ACCOUNTING SYSTEM – The District's accounting system is organized on a fund basis. Each fund is a separate self-balancing accounting entity. The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

INTERNAL CONTROLS – Management of the District is responsible for establishing internal controls designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The Internal Control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of cost and benefit requires estimates and judgments by management. Management believes the internal controls adequately meet the above objective.

MANAGEMENT'S DISCUSSION AND ANALYSIS – Generally Accepted Accounting Principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the management's discussion and analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Lakewood Local School District's MD&A can be found immediately following the Independent Auditor's Report.

RELEVANT FINANCIAL GUIDELINE – In January 2017, the Board of Education passed a resolution to adopt a General Fund Balance Guideline. The fund balance guideline is equal to 60 days operational cash as the minimum operational benchmark for determining the ending General Fund balance needs. The minimum benchmark should be reflected on the five year forecast in the current year and the next three (3) projected years of the forecast.

SINGLE AUDIT – As a recipient of federal and state financial assistance, the District is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to these programs. Internal controls are subject to periodic evaluation and audit by the Treasurer, Management Team and staff of the District.

As part of the District's single audit, tests are made to determine the adequacy of the internal controls, including that portion relating to federal financial assistance programs, as well as to verify that the District has complied with applicable laws and regulations. The results of the District's single audit for the fiscal year ended June 30, 2018, as of this writing, revealed no instances of material weaknesses in internal control or significant violations of applicable laws and regulations.

Letter of Transmittal For the Fiscal Year Ended June 30, 2018

BUDGETARY CONTROLS – The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the object level for the general fund and at the fund level for all other funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

INDEPENDENT AUDIT – This report includes an unmodified audit report regarding the District's financial statements. The audit was conducted by Julian & Grube, Inc. The Independent Auditor's Report on the basic financial statements is included in the financial section of this report.

AWARDS AND ACKNOWLEDGMENTS

AWARDS – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement of Excellence in Financial Reporting to the Lakewood Local School District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of State and local government financial reports. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report. The report must satisfy both generally accepted accounting principles and applicable legal requirements, with contents conforming to program standards. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition, the School District received the Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR) from GFOA for the year ended June 30, 2017. The PAFR is a condensed, more user-friendly financial report intended to provide highlights of the District's financial condition.

ACKNOWLEDGMENTS – The publication of this report is a major step toward the commitment to professionalizing the financial reporting of the Lakewood Local School District and significantly increases the accountability of the School District to the taxpayers. The accomplishment of this report would not have been possible without the assistance, support, and efforts of the Treasurer's office and various administrators and employees of the School District. We also would like to recognize Donald J. Schonhardt & Associates, Inc. for their assistance in preparing this report.

Letter of Transmittal

For the Fiscal Year Ended June 30, 2018

In closing, without the continued support of the Board of Education, who values quality financial information, the preparation of this report would not have been possible.

Respectfully submitted,

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Lakewood Local School District Licking County 525 East Main Street, P.O. Box 70 Hebron, Ohio 43025

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Lakewood Local School District, Licking County, Ohio, as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Lakewood Local School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Lakewood Local School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Lakewood Local School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Lakewood Local School District Licking County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Lakewood Local School District, Licking County, Ohio, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General fund thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, during fiscal year 2018, the Lakewood Local School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis* and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the Lakewood Local School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Lakewood Local School District Licking County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2018, on our consideration of the Lakewood Local School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Lakewood Local School District's internal control over financial reporting and compliance.

Julian & Grube, Inc. November 19, 2018

Julian & Sube, Elne.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

The management's discussion and analysis of Lakewood Local School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2018 are as follows:

- □ In total, net position increased \$14,021,022. Net position of governmental activities increased \$14,022,083, which represents a 111.8% increase from 2017. Net position of business-type activities decreased \$1,061 or 0.2% from 2017.
- □ General revenues accounted for \$24,576,035 in revenue or 85.5% of all revenues. Program specific revenues in the form of charges for services and sales and grants and contributions accounted for \$4,165,632 or 14.5% of total revenues of \$28,741,667
- □ The District had \$13,782,108 in expenses related to governmental activities; only \$3,228,156 of these expenses were offset by program specific charges for services and sales, and grants and contributions.
- □ Among major funds, the general fund had \$24,679,716 in revenues and \$24,945,819 in expenditures. During fiscal year 2018, the general fund's fund balance decreased from \$18,195,456 to \$17,533,945.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management's discussion and analysis and the basic financial statements, required supplemental information and an optional section that presents combining statements for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the District:

These statements are as follows:

- 1. The Government-Wide Financial Statements These statements provide both long-term and short-term information about the District's overall financial status.
- 2. The Fund Financial Statements These statements focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net-position (the difference between the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources) is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional nonfinancial factors such as the property tax base, current property tax laws, student enrollment growth and facility conditions.

The government-wide financial statements of the District are divided into two categories:

- Governmental Activities Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.
- Business-Type Activities This service is provided on a charge for goods or services basis to recover
 all of the expenses of the goods or services provided. The District's food service is reported as
 business-type activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

Governmental Funds – Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

Proprietary Funds – Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.

Fiduciary Funds – The District is the trustee, or fiduciary, for various student-managed activity programs listed as an agency fund. All of the District's fiduciary activities are reported in a separate Statement of Assets and Liabilities. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

The Statement of Net Position provides a perspective of the District as a whole. The following table provides a summary of the District's net position for 2018 compared to 2017:

	Governmental Activities		Business-type Activities		Total	
	' <u>-</u>	Restated		Restated		Restated
	2018	2017	2018	2017	2018	2017
Assets:						
Current and other assets	\$35,127,830	\$36,843,202	\$89,156	\$84,725	\$35,216,986	\$36,927,927

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

The implementation of GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," in fiscal year 2015, significantly revised accounting for pension costs and liabilities. For fiscal year 2018, the District adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which also significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or net OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's change in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows. As a result of implementing GASB 75, the District is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2017, from a net deficit of \$5,509,788 to a net deficit of \$12,541,686 in governmental activities and from a net deficit of \$199,309 to a net deficit of \$444,409 in business-type activities.

At fiscal year-end for governmental activities, capital assets represented 33% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, furniture, fixtures, equipment, and vehicles. Net investment in capital assets, at June 30, 2018 was \$7,250,065. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$853,153, represents resources that are subject to external restriction on how they may be used. Excluding the effect of GASB 68 and GASB 75, the District has approximately \$18.5 million in unrestricted net position which may be used to meet the District's ongoing obligations to the students and creditors.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

The information necessary to restate the 2017 beginning balances and the 2017 OPEB expense amounts for the effects of the initial implementation of GASB 75 is not available. Therefore, 2017 functional expenses still include OPEB expense of \$39,439 for Governmental Activities and \$4,169 for Business-type Activities computed under GASB 45. GASB 45 required recognizing OPEB expense equal to the contractually required contributions to the plan. Under GASB 75, OPEB expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of OPEB expense. Under GASB 75, the 2018 statements report negative OPEB expense of \$913,270 for Governmental Activities and positive OPEB expense of \$9,457 for Business-type Activities.

Consequently, in order to compare 2018 total program expenses to 2017, the following adjustments are needed:

	Governmental	Business-type
	Activities	Activities
Total 2018 program expenses under GASB 75	\$13,782,108	\$938,537
Negative (Positive) OPEB expense under GASB 75	913,270	(9,457)
2018 contractually required contribution	50,994	12,144
Adjusted 2018 program expenses	14,746,372	941,224
Total 2017 program expenses under GASB 45	24,756,444	984,409
Change in program expenses not related to OPEB	(\$10,010,072)	(\$43,185)

Governmental Activities

Net position of the District's governmental activities increased by \$14,022,083. This substantial increase can mostly be attributed to changes in the net pension and net OPEB liabilities. The negative pension expense for fiscal year 2018 is \$8,486,282. Total governmental expenses of \$13,782,108 were offset by program revenues of \$3,228,156 and general revenues of \$24,576,035. Program revenues supported 23.4% of the total governmental expenses. The primary sources of revenues consist of property taxes and grants and entitlements which total \$24,184,032 and represent 98.4% of total general governmental revenue.

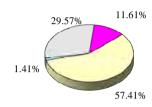

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. It increases as a result of new construction or collection from a new voted levy. Although school districts experience inflationary growth in expenses, tax revenue does not keep pace with increased expenses. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.00 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and the inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00 and the school district would collect the same dollar value generated in the year it passed. Thus, school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

The District passed a five year renewal emergency levy on November 7, 2017 that generates tax revenues of \$2,353,259 yearly. Voters also approved a new ten year emergency operating levy on November 2, 2010 for \$3,528,880. Fiscal year 2018 includes the total revenues generated from both these emergency levies. Property taxes made up 57% of revenues for governmental activities for the District in fiscal year 2018. The District's reliance upon tax revenues is demonstrated by the following graph:

		Percent
Revenue Sources	2018	of Total
General Grants	\$8,221,497	29.57%
Program Revenues	3,228,156	11.61%
Property Tax Revenues	15,962,535	57.41%
General Other	392,003	1.41%
Total Revenue	\$27,804,191	100.00%

Business-Type Activities

Net position of the business-type activities decreased by \$1,061. These programs had revenues of \$937,476 and expenses of \$938,537 for fiscal year 2018. Business activities receive no support from tax revenues; however, they have received support from governmental activities.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

The District's governmental funds reported a combined fund balance of \$19,385,602, which is lower than last year's total of \$20,125,422. The schedule below indicates the fund balance and the total change in fund balance by fund type as of June 30, 2018 and 2017.

	Fund Balance	Fund Balance	Increase
	June 30, 2018	June 30, 2017	(Decrease)
General	\$17,533,945	\$18,195,456	(\$661,511)
Debt Service	806,573	612,191	194,382
Other Governmental	1,045,084	1,317,775	(272,691)
Total	\$19,385,602	\$20,125,422	(\$739,820)

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

General Fund – The District's General Fund balance decrease is due to several factors. The tables that follow assist in illustrating the financial activities and balance of the General Fund:

	2018	2017	Increase
	Revenues	Revenues	(Decrease)
Taxes	\$14,767,637	\$13,351,315	\$1,416,322
Tuition	1,220,174	1,174,718	45,456
Investment Earnings	248,916	138,938	109,978
Extracurricular Activities	29,198	30,345	(1,147)
Class Materials and Fees	76,523	69,111	7,412
Intergovernmental - State	8,077,685	8,783,790	(706, 105)
Intergovernmental - Federal	101,217	144,277	(43,060)
All Other Revenue	158,366	129,520	28,846
Total	\$24,679,716	\$23,822,014	\$857,702

General Fund revenues in 2018 increased approximately 3.6% compared to revenues in fiscal year 2017. During fiscal year 2018, the District had an increase in Taxes due to an increase in Available Tax Advances at June 30, 2018. This was the result of an increase in taxpayers paying their property taxes prior to December 31, 2017 due to changes in the Federal Tax Code, and also because the County Treasurer reduced the dollar amount needed for the sale of delinquent tax liens from \$5,000 to \$3,000 which resulted in a large one-time increase in taxes revenue from the sale of those delinquent taxes. The decrease in Intergovernmental – State revenues resulted from the decline in Tangible Personal Property Reimbursement that is being phased out by SB 208.

	2018	2017	Increase
	Expenditures	Expenditures	(Decrease)
Instruction	\$13,948,780	\$12,772,527	\$1,176,253
Supporting Services:

Debt Service:			
Principal Retirement	33,062	37,828	(4,766)
Interest and Fiscal Charges	2,845	2,275	570
Total	\$24,945,819	\$22,269,020	\$2,676,799

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Unaudited

The expenditures increased by \$2,676,799 or 12.0% compared to the prior year. The District's budget is 76% personnel related. The District had a 2% increase in base salary for fiscal year 2018 and paid the negotiated step increase ranging from 0% to 3% based on the number of years of service and type of degree. The District health insurance premiums increased 6% for the January 2018 renewal. The District's instructional purchased service costs were up due to an increase in placement of students to outside instructional services and instructional supplies costs were also up for fiscal year 2018. The District's capital outlay is up because it has invested in several large capital improvement projects which included a new stadium, new safety vestibules at the middle and high schools, a student success center at the high school, renovated science and life skills labs, restroom renovations/additions and asbestos abatements at the middle school.

Debt Service Fund – The fund balance increased \$194,382 because the District had an increase in Taxes due to an increase in Available Tax Advances at June 30, 2018. This was the result of an increase in taxpayers paying their property taxes prior to December 31, 2017 due to changes in the Federal Tax Code, and also because the County Treasurer reduced the dollar amount needed for the sale of delinquent tax liens from \$5,000 to \$3,000 which resulted in a large one-time increase in taxes revenue from the sale of those delinquent taxes.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2018 the District amended its General Fund budget several times. The final budget did not change significantly over the original budget. The School District closely monitors its resources and uses and if necessary, modifies appropriations on a timely basis.

The final General Fund budget basis revenue of \$23.8 million increased approximately \$1.1 million over the initial revenue budget. This was the result of increases in property tax collections, tuition, interest income and open enrollment revenues.

Total original appropriations compared to the final appropriations did not change materially in total; however appropriations did change between the different expense object categories of the General Fund. The General Fund transferred \$500,000 to the Capital Projects Fund.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2018, the District had \$17,600,026 net of accumulated depreciation invested in land, construction in progress, buildings, equipment and vehicles. Of this total, \$17,497,218 was related to governmental activities and \$102,808 to the business-type activities. The following table shows fiscal year 2018 and 2017 balances:

	Governm Activit	Change	
	2018	2017	
Land	\$410,817	\$275,555	\$135,262
Land Improvements	3,679,255	1,181,259	2,497,996
Buildings and Improvements	25,006,804	22,844,466	2,162,338
Furniture, Fixtures and Equipment	4,140,116	3,964,419	175,697
Vehicles	2,528,484	2,344,212	184,272
Construction in Progress	326,871	(1,637,445)	
Less: Accumulated Depreciation	(18,595,129)	(17,719,047)	(876,082)
Totals	\$17,497,218	\$14,855,180	\$2,642,038
	Business-	• 1	a.
-	Activiti	Change	
	2018	2017	
Furniture and Equipment	\$408,863	\$426,200	(\$17,337)
Less: Accumulated Depreciation	(306,055)	(310,287)	4,232
Totals	\$102,808	(\$13,105)	

The change in capital asset additions/disposals was offset by depreciation as well as increases to capital outlay which included a stadium, new safety vestibules at the middle and high schools, a student success center at the high school, and renovated science and life skills labs, and restroom renovations/additions at the middle school. Additional information on the District's capital assets can be found in Note 9.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

Debt

At June 30, 2018 the District had \$42.9 million in bonds, notes, loans, and other long-term obligations outstanding, \$1,133,750 due within one year. The following table summarizes the District's debt and other long-term liabilities outstanding as of June 30, 2018 and June 30, 2017:

	2018	2017
Governmental Activities:		
General Obligation Bonds:		
School Improvement	\$7,484,151	\$8,220,168
Energy Conservation Bonds Payable	458,854	550,624
Net Pension Liability	25,885,284	35,595,957
Net OPEB Liability	5,612,244	7,071,337
Capital Leases Payable	2,366,934	2,545,082
Compensated Absences	339,498	281,087
Total Governmental Activities	42,146,965	54,264,255
Business-Type Activities:		
Net Pension Liability	495,151	560,509
Net OPEB Liability	225,165	249,269
Compensated Absences	10,498	4,622
Total Business-Type Activities	730,814	814,400
Totals	\$42,877,779	\$55,078,655

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total assessed value of real and personal property. At June 30, 2018, the District's outstanding debt was below the legal limit. Additional information on the District's long-term debt can be found in Note 12.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2018

CURRENT FINANCIAL RELATED ACTIVITIES

As the preceding information shows, the District relies heavily upon property taxes and grants and entitlements to provide the funds necessary to maintain its educational programs. The District passed a new ten year emergency operating levy on November 2, 2010. The total amount of revenue from this emergency operating levy is \$3,528,880 per year. The District also has a five year renewal emergency operating levy that was renewed on November 7, 2017. The total amount of revenue from this emergency operating levy is \$2,353,259 per year.

In January 2017, the Board passed a resolution to adopt a General Fund Balance Guideline whose purpose was to preserve financial stability. The cash reserve is equal to up to 60 days operational cash as the minimum operational benchmark for determining the ending cash needs for the General Fund. The minimum benchmark should be reflected on the five year forecast in the current year and the next three (3) projected years of the forecast. The current revenue, along with the District's cash balance, will provide the District with the necessary funds to meet its operating expenses in fiscal years 2019-2022. The District anticipates returning to its voters asking for a renewal of the ten year emergency operating levy in November 2019. With the passage of this levy, the District should be able to meet its operating expenses through 2023.

The Board of Education and administration of the District must continue to maintain careful financial planning and prudent fiscal management in order to preserve the financial stability of the District.

In conclusion, the Lakewood Local School District has committed itself to financial excellence for many years.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Glenna Plaisted, Treasurer/CFO, Lakewood Local School District, 525 East Main Street, Post Office Box 70, Hebron, Ohio 43025, or email at gplaisted@laca.org.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds To the Statement of Activities For the Fiscal Year Ended June 30, 2018

Net Change in Fund Balances - Total Governmental Funds		\$ (746,519)
Amounts reported for governmental activities in the statement of activities are different because		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		2,212,194
The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to increase net position.		429,844
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(113,343)
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		1,890,044
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension income/(expense) in the statement of activities.		8,486,282
Except for amounts reported as deferred inflows/outflows, changes in the net OPEB liability are reported as OPEB income/(expense) in the statement of activities.		913,270
The issuance of long-term debt (e.g. notes, leases) provides current financial resources to government funds, while the repayment of the principal of long-term debt consumes the current financial resources of government funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.		1,005,935
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, interest expenditure is reported when due.		3,064
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. Compensated Absences Amortization of Deferred Loss on Refunding	(58,411) (6,976)	
Change in Inventory	6,699	 (58,688)
Change in Net Position of Governmental Activities		\$ 14,022,083

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Lakewood Local School District, Ohio (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is governed by a locally elected five member Board of Education (the Board). Members are elected at-large for staggering four year terms. The District provides educational services as authorized by State statute and federal guidelines. The Board controls the District's instructional support facilities staffed by approximately 94 non-certified employees, 152 certificated employees and 15 administrative employees providing education to 1,878 students in grades K-12 and also to 62 preschool students.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," as amended by GASB Statement No. 39 "Determining Whether Certain Organizations Are Component Units", and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus" in that the financial statements include all organizations, activities, functions and component units for which the District (the reporting entity) is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. There were no potential component units that met the criteria to be included in the District's reporting entity.

The reporting entity of the District includes the following services: instructional (regular, special education), student guidance, extracurricular activities, food service, pupil transportation and care and upkeep of grounds and buildings.

Lakewood Local School District participates in three jointly governed organizations and one insurance purchasing pool. These organizations are the Licking Area Computer Association (LACA), META Solutions (META), Central Ohio Special Education Regional Resource Center and the Ohio SchoolComp Workers' Compensation Group Retrospective Rating Program. Information regarding these organizations is presented in Notes 14 and 15.

The accounting policies and financial reporting practices of the District conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of its significant accounting policies.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures/expenses.

The following fund types are used by the District:

Governmental Funds - These are funds through which most governmental functions typically are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is based upon determination of "financial flow" (sources, uses and balances of financial resources). The following are the District's major governmental funds:

<u>General Fund</u> - This fund is the general operating fund of the District and is used to account for all financial resources except those accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt Service Fund</u> - This fund is used for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Funds – The proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the proprietary funds are included on the balance sheet. The proprietary fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total position.

Enterprise Fund - This fund is used to account for operations that are financed and operated in a manner similar to private business enterprises in which the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The District's major enterprise fund is:

<u>Food Services Fund</u> – This fund accounts for the financial transactions related to the food service operations of the District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. <u>Basis of Presentation - Fund Accounting</u> (Continued)

Fiduciary Funds – Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the District's own programs. The District's agency funds account for various student-managed activity programs and tournament money for the Ohio High School Athletic Association. The agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operation.

C. Basis of Presentation and Measurement Focus – Financial Statements

<u>Government-wide Financial Statements</u> – The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

<u>Fund Financial Statements</u> – Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. <u>Basis of Presentation and Measurement Focus – Financial Statements</u> (Continued)

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the District is considered to be 60 days after fiscal year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Under the modified accrual basis, the following revenue sources are considered susceptible to accrual at year end: property taxes, tuition, grants and entitlements, student fees, and interest on investments.

The accrual basis of accounting is utilized for reporting purposes by the government-wide financial statements, proprietary funds and fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when incurred.

Revenues – **Exchange and Non-exchange Transactions** – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as unearned revenue.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year.

All funds other than agency funds are legally required to be budgeted and appropriated; however, only the General Fund and major Special Revenue funds are required to be presented as basic financial statements. The primary level of budgetary control is at the fund level for all funds except the General Fund for which it is at the object level. Budgetary modifications may only be made by resolution of the Board of Education.

1. Estimated Resources

Prior to March 15, the Board accepts by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2018.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

2. Appropriations

A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 through September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 through June 30. The appropriation resolution establishes spending controls at the fund level except for the General Fund which is at the object level. The appropriation resolution may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. During the year, several supplemental appropriations were necessary to budget the use of contingency funds. Administrative control is maintained through the establishment of more detailed line-item budgets. The budgetary figures which appear in the "Statement of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual-General Fund" are provided on the budgetary basis to provide a comparison of actual results to the final budget, including all amendments and modifications.

3. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

4. Budgetary Basis of Accounting

The District's budgetary process accounts for certain transactions on a basis other than accounting principles generally accepted in the United States of America (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting. Encumbrances are recorded as the equivalent of expenditures (budgetary basis) as opposed to reservations of fund balance (GAAP basis).

Adjustment to Fair Value of Investments	28,549
Perspective Difference-	
Budgeted Special Revenue Fund	
reclassified as General Fund	11,301
Encumbrances Outstanding	(259,213)
Budget Basis	(\$1,630,037)

F. Cash and Cash Equivalents

During fiscal year 2018, cash and cash equivalents included amounts in demand deposits, certificates of deposit and the State Treasury Asset Reserve (STAR Ohio). STAR Ohio is a very liquid investment and is reported as a cash equivalent in the basic financial statements.

The District pools its cash for investment and resource management purposes. Each fund's equity in pooled cash and cash equivalents and investments represents the balance on hand as if each fund maintained its own cash and investment account. See Note 5, "Cash, Cash Equivalents and Investments."

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the District records all its investments at fair value except for nonparticipating investment contracts (repurchase agreements and certificates of deposit) which are reported at cost, which approximates fair value. All investment income, including changes in the fair value of investments, is recognized as revenue in the operating statements. Fair value is determined by quoted market prices. See Note 5, "Cash, Cash Equivalents and Investments."

During 2018, the District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value. For 2018, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

H. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market using the first in, first out (FIFO) method and are expensed when used. On fund financial statements, inventories of governmental funds are valued at cost while inventories of proprietary funds are stated at lower of cost or market. Donated commodities are presented at their entitlement value. For all funds, cost is determined using the FIFO method, and are determined by physical count. Inventory in governmental funds consists of expendable supplies held for consumption. The cost is recorded as an expenditure at the time of purchase. Reported inventories in these funds are equally offset by a nonspendable fund balance, which indicates they do not represent available spendable resources. Inventories of proprietary funds consist of donated and purchased food. Inventories are accounted for using the purchase method on the governmental fund financial statements and using the consumption method on the government-wide and proprietary fund financial statements.

I. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2018, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Capital Assets and Depreciation

Capital assets are defined by the District as assets with an initial, individual cost of more than \$600 for capital assets acquired prior to July 1, 2015 and more than \$1,000 for capital assets acquired subsequent to July 1, 2015.

1. Property, Plant and Equipment - Governmental Activities

Governmental activities capital assets are those not directly related to the business-type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost (or estimated historical cost for assets not purchased in recent years). These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Position, but they are not reported in the Governmental Fund Financial Statements.

Donated capital assets are recorded at their acquisition value as of the date received. The District does not possess any infrastructure. Estimated historical costs for governmental activities capital asset values were initially determined by identifying historical costs where such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

2. Property, Plant and Equipment – Business-Type Activities

Property, plant and equipment acquired by the proprietary funds are stated at cost (or estimated historical cost). Donated capital assets are recorded at their acquisition value as of the date received. These assets are reported in both the Business-Type Activities column of the Government-wide Statement of Net Position and in the respective fund.

3. Depreciation

All capital assets are depreciated excluding land and construction in progress. Depreciation has been provided using the straight-line method over the following estimated useful lives:

Description	Estimated Lives (in years)
Land Improvements	10 - 15
Buildings and Improvements	12 - 40
Furniture, Fixtures and Equipment	5 - 15
Vehicles	7 - 10

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Long-Term Obligations

Long-term liabilities are being repaid from the following funds:

Obligation	Fund
General Obligation Bonds Payable	Debt Service Fund
Energy Conservation Bonds	Debt Service Fund
Compensated Absences	General Fund, Food Services Fund
Capital Leases	General Fund, Debt Service Fund

L. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation benefits are accrued as a liability when an employee's right to receive compensation is attributable to services already rendered, and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement. Supervisory personnel and classified exempt employees who work twelve month contracts are granted vacation leave based on length of service. Sick leave benefits are accrued as a liability using the vesting method. Employees may earn 15 days of sick leave per year. Upon retirement, employees will receive one-fourth of the accumulated sick leave up to a maximum of 55 or 65 days depending on the employee's position.

Compensated absences accumulated by governmental fund type and proprietary fund type employees are reported as an expense when earned in the government-wide financial statements. For governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not recorded. For proprietary funds, the entire compensated absences amount is reported as a fund liability. See Note 1K for funds liquidating compensated absences.

M. Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes is for extracurricular activities and career technology. None of the restricted net position reported at June 30, 2018 was by enabling legislation. The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted – The fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education. Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which policies includes giving the Treasurer the authority to constrain monies for intended purposes.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

P. Interfund Activity

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivables/payables". Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Interfund activity within governmental activities and business-type activities are eliminated for reporting on the government-wide financial statements.

Q. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

R. Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. There were no extraordinary or special items reported for fiscal year 2018.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

T. Bond Premiums, Bond Discounts, Gains/Losses on Refunding and Issuance Costs

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium and discount. Bond issuance costs are expensed. Bond premiums are deferred and amortized over the term of the bonds. Any gain or loss on refunding is allocated over the life of the old debt or the new debt whichever is shorter.

On the governmental fund financial statements, governmental fund types recognize issuance costs, bond premiums, and bond discounts in the current period. The face amount of the debt issue is reported as other financing sources. Premiums and discounts received on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

U. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. For the District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, for pension and for OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 10 and 11, respectively.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, pension, OPEB and unavailable revenue. On the government-wide statement of net position and governmental funds balance sheet, property taxes that are intended to finance future fiscal periods are reported as deferred inflows. In addition, the governmental funds balance sheet reports deferred inflows which arise only under a modified accrual basis of accounting. Accordingly, the item, unavailable amounts, is reported only in the governmental funds balance sheet. The governmental funds report unavailable amounts for property taxes, investment earnings, grants, and state levied shared taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position explained in Notes 10 and 11, respectively.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

V. Fair Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

NOTE 2 – CHANGE IN ACCOUNTING PRINCIPLE AND RESTATEMENT OF NET POSITION

For fiscal year 2018, the District implemented the Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions", Statement No. 81, "Irrevocable Split-Interest Agreements,", Statement No. 85, "Omnibus 2017", and Statement No. 86, "Certain Debt Extinguishment Issues." Other than GASB Statement No. 75, these statements had no effect on beginning net position.

Statement No. 75 replaces the requirements of GASB Statement No. 45 and addresses accounting and financial reporting for postemployment benefits that are provided to the employees of state and local government employers. In addition, it establishes standards for measuring and recognizing liabilities, deferred inflows and outflows of resources and expenses and addresses note disclosure and required supplementary information requirements.

The implementation of GASB 75 had the following effect on net position as reported June 30, 2017:

ernmental	Food Service
ctivities	Fund
\$5,509,788)	(\$199,309)
(7,071,337)	(249,269)
39,439	4,169
12,541,686)	(\$444,409)
	ctivities \$5,509,788) (7,071,337) 39,439

Other than employer contributions subsequent to the measurement date, the District made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 3 – FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General Fund	Debt Service	Other Governmental Funds	Total Governmental Funds
Nonspendable:				
Prepaid Items	\$296,414	\$0	\$10,273	\$306,687
Supplies Inventory	31,912	0	0	31,912
Total Nonspendable	328,326	0	10,273	338,599
Restricted:				
Career Technology Education	9,111	0	0	9,111
Local Grants	0	0	7,719	7,719
Extracurricular Activities	0	0	37,365	37,365
Debt Service Payments	0	806,573	0	806,573
Total Restricted	9,111	806,573	45,084	860,768
Committed:				
Building Maintenance and Renovation	204,164	0	0	204,164
Assigned:				
Services and Supplies	205,748	0	0	205,748
Projected Budgetary Deficit	246,334	0	0	246,334
Capital Improvements	0	0	1,000,000	1,000,000
Student and Staff Support	50,530	0	0	50,530
Total Assigned	502,612	0	1,000,000	1,502,612
Unassigned	16,489,732	0	(10,273)	16,479,459
Total Fund Balances	\$17,533,945	\$806,573	\$1,045,084	\$19,385,602

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 4 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government – wide statement of activities. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

Amount by which capital outlays exceeded depreciation in the current period:

Capital Outlay	\$3,376,102
Depreciation Expense	(1,163,908)
	\$2,212,194
Amount of loss on disposal of capital assets net of proceed	eds received:
Loss on Disposal of Capital Asset	(\$15,177)
Proceeds Received	(12,979)
Donation of Capital Asset	458,000
	\$429,844
Governmental revenues not reported in the funds:	
Decrease in Investment Earnings	(\$8,121)
Increase in Grants Revenue	38
Decrease in Delinquent Tax Revenue	(105,260)
	(\$113,343)
Amount of current year contractually required contributi	ons deferred:
Pension Contributions	\$1,839,050
OPEB Contributions	50,994
	\$1,890,044
Amount of bond and lease principal payments:	
Bond Principal Payment	\$705,000
Energy Conservation Bond Principal Payment	91,770
Premium on Refunding General Obligation Bond Proceeds	31,017
Capital Lease Proceeds	(84,914)
Capital Lease Payment	263,062

\$1,005,935

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash resources of several individual funds are combined to form a pool of cash, cash equivalents and investments. The District has adopted an Investment Policy that follows Ohio Revised Code Chapter 135 and applies the prudent person standard. The prudent person standard requires the Treasurer/CFO to exercise the care, skill and experience that a prudent person would use to manage his/her personal financial affairs and to seek investments that will preserve principal while maximizing income.

Statutes require the classification of funds held by the District into three categories. Category 1 consists of "active" funds - those funds required to be kept in a "cash" or "near cash" status for immediate use by the District. Such funds must be maintained either as cash in the District Treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of "inactive" funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of "interim" funds - those funds which are not needed for immediate use but, which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal
 government agency or instrumentality, including but not limited to, the federal national
 mortgage association, federal home loan bank, federal farm credit bank, federal home
 loan mortgage corporation, government national mortgage association, and student loan
 marketing association. All federal agency securities shall be direct issuances of federal
 government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 5 – CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).
- Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Protection of District cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. The District has no policy on custodial credit risk and is governed by Ohio Revised Code. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the District places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). Ohio law requires that deposits be either insured or be protected by eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

At year end the carrying amount of the District's deposits was \$3,064,551 and the bank balance was \$3,662,216. Federal depository insurance covered \$3,586,899 of the bank balance and \$75,317 was uninsured. Of the remaining uninsured bank balance, the District was exposed to custodial risk as follows:

	Balance
Uninsured and collateralized with securities held in	
the Ohio Pooled Collateral System.	\$75,317
Total Balance	\$75,317

Investment earnings of \$21,815 earned by other funds were credited to the General Fund as required by state statute.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 5 – CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

B. <u>Investments</u>

The District's investments at June 30, 2018 were as follows:

		Investment Matur	ities (in Years)
Fair Value	Credit Rating	less than 1	1-3
\$8,796,700	AAAm 1	\$8,796,700	\$0
933,501	AA+ ¹	274,853	658,648

2,551,996	$A-1/A-1+\frac{1}{2}$	2,551,996	0
\$16,132,770		\$12,462,435	\$3,670,335
	\$8,796,700 933,501 940,185 616,399 a 2,293,989 b 2,551,996	\$8,796,700 AAAm 1 933,501 AA+ 1 940,185 AA+ 1 616,399 a AA+ 1 2,293,989 b AA+ 1 2,551,996 A-1/A-1+ 1	Fair Value Credit Rating less than 1 \$8,796,700 AAAm 1 \$8,796,700 933,501 AA+ 1 274,853 940,185 AA+ 1 0 616,399 a AA+ 1 616,399 2,293,989 b AA+ 1 222,487 2,551,996 A-1/A-1+ 1 2,551,996

¹ Standard & Poor's

The District's investments in federal agency securities (FHLB, FHLMC, FFCB, FNMA) and commercial paper are valued using quoted prices in markets that are not considered to be active dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

Interest Rate Risk – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date. The District has no investment policy that limits investment purchases beyond the requirements of Ohio Revised Code.

Investment Credit Risk – The District has no investment policy that limits its investment choices other than the limitation of State statute for "interim" funds described previously.

Concentration of Credit Risk – The District places no limit on the amount the District may invest in one issuer. Of the District's total investments, 54.52% are in STAR Ohio, 5.79% are in FHLB securities, 5.83% are in FHLMC securities, 3.82% are in FFCB securities, 14.22% are in FNMA securities, and 15.82% are in Commercial Paper.

^a \$616,399 in securities are callable on October 29, 2018.

^b \$966,703 in securities are callable in October 2018, \$793,272 in securities are callable on November 28, 2018, \$222,487 in securities are callable on December 28, 2018, and \$311,527 in securities are callable on January 27, 2019.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 5 – CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)

B. Investments (Continued)

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District has no policy on custodial credit risk and is governed by Ohio Revised Code as described under Deposits.

C. Reconciliation of Cash, Cash Equivalents and Investments

The classification of cash, cash equivalents and investments on the financial statements is based on criteria set forth in GASB Statement No. 9. Certificates of deposit with an original maturity of three months or less are treated as cash equivalents. The classification of cash and cash equivalents (deposits) for purposes of this note are based on criteria set forth in GASB Statement No. 3.

	Cash and Cash	
	Equivalents	Investments
Per Financial Statements	\$9,161,251	\$10,036,070
Certificates of Deposit		
(with original maturities of more than 3 months)	2,700,000	(2,700,000)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the District. Real property tax revenue received in calendar year 2018 represents collections of calendar year 2017 taxes. Real property taxes received in calendar year 2018 were levied after April 1, 2017, on the assessed value listed as of January 1, 2017, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2018 represents collections of calendar year 2017 taxes. Public utility real and tangible personal property taxes received in calendar year 2018 became a lien December 31, 2016, were levied after April 1, 2017 and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The District receives property taxes from Licking County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2018, are available to finance fiscal year 2018 operations. The amount available to be advanced can vary based on the date the tax bills are sent. The assessed values upon which the fiscal year 2018 receipts were based are:

	2017 Second Half	2018 First Half
	Collections	Collections
Agricultural/Residential and Other Real Estate	\$398,698,788	\$431,277,342
Public Utility Personal	29,234,730	30,572,020
Total Assessed Value	\$427,933,518	\$461,849,362
Tax rate per \$1,000 of assessed valuation	\$54.20	\$53.20

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 6 - PROPERTY TAXES (Continued)

Tax Abatement

The District incurs a reduction in property taxes through tax abatement agreements entered into by other governments with property owners that reduce the District's taxes.

As of June 30, 2018, other governmental entities provided tax abatements through the Community Reinvestment Area (CRA) program. Under the authority of Ohio Revised Code (ORC) Section 3735.67, the CRA program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRA's are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing is desired. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity's property tax bill.

During fiscal year 2018, the District's property tax revenues were reduced under agreements entered into by other governments as follows:

Government Entering Into Agreement	-	District Taxes Abated	
Village of Hebron	\$	107,674	
City of Heath		23,616	
Licking County		16,082	
Total	\$	147,372	

NOTE 7 - RECEIVABLES

Receivables at June 30, 2018 consisted of taxes, accounts, interest and intergovernmental receivables.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 8 - INTERFUND ACTIVITY

A. Interfund Receivables and Payables

Following is a summary of interfund receivables and payables for all funds at June 30, 2018:

	Interfund Loans	Interfund Loans
Fund	Receivable	Payable
General Fund	\$3,162	\$0
Nonmajor Governmental Funds	0	3,162
Total All Funds	\$3,162	\$3,162

The Interfund Loan is a short-term loan to cover temporary cash deficits.

B. Interfund Transfers

Following is a summary of transfers in and out for all funds for fiscal year 2018:

Fund	Transfers In	Transfers Out
General Fund	\$0	\$500,000
Nonmajor Governmental Funds	500,000	0
Total All Funds	\$500,000	\$500,000

Transfers from the General Fund were used to provide additional resources for the nonmajor governmental funds. All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 9 - CAPITAL ASSETS

A. Governmental Activities Capital Assets

Summary by category of changes in governmental activities capital assets at June 30, 2018:

Historical Cost:

	Balance at			Balance at
Class	June 30, 2017	Additions	Deletions	June 30, 2018
Capital Assets not being depreciated:				
Land	\$275,555	\$135,262	\$0	\$410,817
Construction In Progress	1,964,316	326,871	(1,964,316)	326,871

Net Value:	\$115,913	(\$13,105)	\$0	\$102,808

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS

All of the District's full-time employees participate in one of two separate retirement systems which are cost-sharing, multiple-employer defined benefit pension plans.

A. Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

B. Plan Description

School Employees Retirement System (SERS)

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary. Effective January 1, 2018, cost-of-living adjustment (COLA) will change from a fixed 3% annual increase to one based on the Consumer Price Index (CPI-W), with a cap of 2.5% and a floor of 0%. HB 49 also provided the SERS Retirement Board with the authority to award or suspend the COLA, or to adjust the COLA above or below CPI-W; however, any adjustment above or below CPI-W could only be enacted if the system's actuary determines it would not materially impair the fiscal integrity of the system, or is necessary to preserve the fiscal integrity of the system.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

B. Plan Description (Continued)

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2018, the allocation to pension, death benefits, and Medicare B was 13.5 percent. The remaining 0.5 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$405,752 for fiscal year 2018. Of this amount \$25,032 is reported as an intergovernmental payable.

State Teachers Retirement System (STRS)

Plan Description –District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

B. Plan Description (Continued)

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2018, the employer rate was 14% and the member rate was 14% of covered payroll. The entire 14% was used to fund pension obligations. The statutory maximum employer rate is 14%.

The District's contractually required contribution to STRS was \$1,472,088 for fiscal year 2018. Of this amount \$256,836 is reported as an intergovernmental payable.

C. <u>Pension Liabilities</u>, <u>Pension Expense</u>, and <u>Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

C. <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)</u>

Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportionate Share of the Net Pension Liability	\$5,179,405	\$21,201,030	\$26,380,435
Proportion of the Net Pension Liability -2018	0.0866878%	0.08924790%	
Proportion of the Net Pension Liability -2017	0.0909524%	0.08812947%	
Percentage Change	(0.0042646%)	0.00111843%	
Pension Expense	(\$254,914)	(\$8,205,903)	(\$8,460,817)

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and			
actual experience	\$222,906	\$818,683	\$1,041,589
Changes of assumptions	267,832	4,636,898	4,904,730
District contributions subsequent to the			
measurement date	405,752	1,472,088	1,877,840
Changes in proportion share	109,154	262,530	371,684
Total Deferred Outflows of Resources	\$1,005,644	\$7,190,199	\$8,195,843
Deferred Inflows of Resources			
Differences between expected and			
actual experience	\$0	\$170,872	\$170,872
Net difference between projected and			
actual earnings on pension plan investments	24,588	699,658	724,246
Changes in proportion share	267,494	99,727	367,221
Total Deferred Inflows of Resources	\$292,082	\$970,257	\$1,262,339

\$1,877,840 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2019	\$139,240	\$976,426	\$1,115,666
2020	264,241	1,928,199	2,192,440
2021	25,071	1,407,226	1,432,297
2022	(120,742)	436,003	315,261
Total	\$307,810	\$4,747,854	\$5,055,664

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

D. Actuarial Assumptions

School Employees Retirement System (SERS)

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2017, are presented below:

Wage Inflation 3.00 percent

Future Salary Increases, including inflation 3.50 percent to 18.20 percent

COLA or Ad Hoc COLA 2.5 percent

Investment Rate of Return 7.50 percent net of investments expense, including inflation

Actuarial Cost Method Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2015.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

D. Actuarial Assumptions (Continued)

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate - The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	Current		
	1% Decrease Discount Rate 1% In		
	(6.50%)	(7.50%)	(8.50%)
District's proportionate share			
of the net pension liability	\$7,187,668	\$5,179,405	\$3,497,075

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

D. Actuarial Assumptions (Continued)

State Teachers Retirement System (STRS)

The total pension liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation

2.5 percent

Projected salary increases
Investment Rate of Return

Cost-of-Living Adjustments

(COLA)

2.5 percent at age 65 to 12.50 percent at age 20

7.45 percent, net of investment expenses, including inflation

0% effective July 1, 2017

Mortality rates were based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2017 valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

10-Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

D. <u>Actuarial Assumptions</u> (Continued)

Discount Rate - The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2017. The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2017. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2017.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	Current		
	1% Decrease	Discount Rate	1% Increase
	(6.45%)	(7.45%)	(8.45%)
District's proportionate share			
of the net pension liability	\$30,390,955	\$21,201,030	\$13,459,896

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS

A. Net OPEB Liability

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability represents the District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

B. Plan Description

School Employees Retirement System (SERS)

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

B. Plan Description (Continued)

In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2018, 0.5 percent of covered payroll was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2018, this amount was \$23,700. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2018, the District's surcharge obligation was \$48,108.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$63,138 for fiscal year 2018. Of this amount, \$57,048 is reported as an intergovernmental payable.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

B. Plan Description (Continued)

State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2018, STRS did not allocate any employer contributions to post-employment health care.

C. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	SERS	STRS	Total
Proportionate Share of the Net OPEB Liability	\$2,355,285	\$3,482,124	\$5,837,409
Proportion of the Net OPEB Liability-2018	0.0877614%	0.08924790%	
Proportion of the Net OPEB Liability-2017	0.0914765%	0.08812947%	
Change in Proportionate Share	-0.0037151%	0.00111843%	
Positive/(Negative) OPEB Expense	\$98,929	(\$1,002,742)	(\$903,813)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

C. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and			
actual experience	\$0	\$201,009	\$201,009
District contributions subsequent to the			
measurement date	63,138	0	63,138
Total Deferred Outflows of Resources	\$63,138	\$201,009	\$264,147
Deferred Inflows of Resources			
Changes of assumptions	\$223,504	\$280,496	\$504,000
Net difference between projected and			
actual earnings on OPEB plan investments	6,220	148,834	155,054
Change in proportionate Share	77,731	0	77,731
Total Deferred Inflows of Resources	\$307,455	\$429,330	\$736,785

\$63,138 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2019	(\$110,698)	(\$50,456)	(\$161,154)
2020	(110,698)	(50,456)	(161,154)
2021	(84,504)	(50,456)	(134,960)
2022	(1,555)	(50,456)	(52,011)
2023	0	(13,249)	(13,249)
Thereafter	0	(13,248)	(13,248)
Total	(\$307,455)	(\$228,321)	(\$535,776)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

D. Actuarial Assumptions

School Employees Retirement System (SERS)

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2017, are presented below:

Wage Inflation 3.00 percent
Future Salary Increases, including inflation 3.50 percent to 18.20 percent
Investment Rate of Return 7.50 percent net of investments
expense, including inflation

Municipal Bond Index Rate:

Measurement Date3.56 percentPrior Measurement Date2.92 percent

Single Equivalent Interest Rate, net of plan investment expense,

including price inflation

Measurement Date3.63 percentPrior Measurement Date2.98 percent

Medical Trend Assumption

Medicare5.50 to 5.00 percentPre-Medicare7.50 to 5.00 percent

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

D. Actuarial Assumptions (Continued)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

D. Actuarial Assumptions (Continued)

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2017 was 3.63 percent. The discount rate used to measure total OPEB liability prior to June 30, 2017 was 2.98 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.56 percent, as of June 30, 2017 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.63%) and higher (4.63%) than the current discount rate (3.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.5% decreasing to 4.0%) and higher (8.5% decreasing to 6.0%) than the current rate.

		Current	
	1% Decrease	Discount Rate	1% Increase
	(2.63%)	(3.63%)	(4.63%)
District's proportionate share			
of the net OPEB liability	\$2,844,307	\$2,355,285	\$1,967,855
		Current	
	10/ D		10/ T
	1% Decrease	Trend Rate	1% Increase
	(6.5 % decreasing	(7.5 % decreasing	(8.5 % decreasing
	to 4.0 %)	to 5.0 %)	to 6.0 %)
District's proportionate share			
of the net OPEB liability	\$1,911,138	\$2,355,285	\$2,943,123

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

D. Actuarial Assumptions (Continued)

State Teachers Retirement System (STRS)

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2017, actuarial valuation are presented below:

Inflation 2.50 percent

Projected salary increases 12.50 percent at age 20 to

2.50 percent at age 65

Investment Rate of Return 7.45 percent, net of investment

expenses, including inflation

Payroll Increases 3 percent

Cost-of-Living Adjustments 0.0 percent, effective July 1, 2017

(COLA)

Blended Discount Rate of Return 4.13 percent

Health Care Cost Trends 6 to 11 percent initial, 4.5 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

D. Actuarial Assumptions (Continued)

Also since the prior measurement date, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. Subsequent to the current measurement date, the date for discontinuing remaining Medicare Part B premium reimbursements was extended to January 2020.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

. GI	Target	Long-Term Expected
Asset Class	Allocation	Rate of Return *
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

^{* 10} year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total OPEB liability was 4.13 percent as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was not projected to be sufficient to make all projected future benefit payments of current plan members. The OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2037. Therefore, the long-term expected rate of return on OPEB plan assets was used to determine the present value of the projected benefit payments through the fiscal year ending June 30, 2036 and the Bond Buyer 20-year municipal bond rate of 3.58 percent as of June 30, 2017 (i.e. municipal bond rate), was used to determine the present value of the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 11 - DEFINED BENEFIT OPEB PLANS (Continued)

D. Actuarial Assumptions (Continued)

The blended discount rate of 4.13 percent, which represents the long-term expected rate of return of 7.45 percent for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 3.58 percent for the unfunded benefit payments, was used to measure the total OPEB liability as of June 30, 2017. A blended discount rate of 3.26 percent which represents the long term expected rate of return of 7.75 percent for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 2.85 percent for the unfunded benefit payments was used to measure the total OPEB liability at June 30, 2016.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB liability as of June 30, 2017, calculated using the current period discount rate assumption of 4.13 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.13 percent) or one percentage point higher (5.13 percent) than the current assumption. Also shown is the net OPEB liability as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (3.13%)	Current Discount Rate (4.13%)	1% Increase (5.13%)
District's proportionate share of the Net OPEB liability	\$4,674,695	\$3,482,124	\$2,539,603
	1% Decrease	Current Trend Rate	1% Increase
District's proportionate share of the net OPEB liability	\$2,419,230	\$3,482,124	\$4,881,016

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 12 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS

Details of the changes in long-term debt and other long-term obligations of the District for the fiscal year ended June 30, 2018 are as follows:

	Restated				
	Balance			Balance	Due Within
	June 30, 2017	Issued	(Retired)	June 30, 2018	One Year
Governmental Activities:					
(Energy Conservation Bonds Payable)					
Energy Conservation Project 3.55%	\$550,624	\$0	(\$91,770)	\$458,854	\$91,771
(General Obligation Bonds Payable)

School Employees Retirement System	2,358,150	0	(228,030)	2,130,120	0
Total Net OPEB Liability	7,071,337	0	(1,459,093)	5,612,244	0
Capital Leases Payable	2,545,082	84,914	(263,062)	2,366,934	254,364
Compensated Absences	281,087	224,220	(165,809)	339,498	62,615
Total Governmental Activities	\$54,264,255	\$309,134	(\$12,426,424)	\$42,146,965	\$1,133,750
Business-Type Activities:					
Net Pension Liability-					
School Employees Retirement System	\$560,509	\$0	(\$65,358)	\$495,151	\$0
Net OPEB Liability-					
School Employees Retirement System	249,269	0	(24,104)	225,165	0
Compensated Absences	4,622	7,533	(1,657)	10,498	0
Total Business Type Activities	\$814,400	\$7,533	(\$91,119)	\$730,814	\$0

The original amount of the Energy Conservation Bonds Payable \$917,707 was used to finance the cost of acquiring and installing energy conservation measures. The original amounts of the General Obligation Bonds Payable of \$9,999,991 were used to finance the cost of building a new high school facility.

The District pays compensated absences, pension and other postemployment benefit liabilities from the General Fund and Food Services Fund (Enterprise Fund).

The District's net pension liability and net OPEB liability are described in Notes 10 and 11, respectively.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 12- LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

A. Principal and Interest Requirements

A summary of the District's future long-term debt funding requirements, including principal and interest payments as of June 30, 2018, follows:

	Energy Co	nservation	General O	bligation
	Bonds Payable		Bonds F	ayable
Years	Principal	Interest	Principal	Interest
2019	\$91,771	\$14,851	\$725,000	\$190,394
2020	91,771	11,547	735,000	176,200
2021	91,771	4,941	750,000	159,350
2022	91,771	6,606	770,000	138,300
2023	91,770	3,303	800,000	114,750
2024-2027	0	0	3,425,000	209,325
Totals	\$458,854	\$41,248	\$7,205,000	\$988,319

NOTE 13 - CAPITAL LEASE COMMITMENTS

The District leases a stadium and copiers under capital leases. The cost of the stadium obtained under the capital lease is \$2,500,000; the accumulated depreciation is \$103,320. The cost of the equipment obtained under capital leases is \$147,684, the accumulated depreciation is \$52,184 and the net book value is \$95,500. These are included in the Governmental Activities Capital Assets and the related liability is included in the Governmental Activities Long-Term Liabilities.

The following is a schedule of the future minimum lease payments under the capital leases together with the present value of the net minimum lease payments as of June 30, 2018:

Year Ending June 30,	Capital Lease
2019	\$318,372
2020	316,843
2021	308,959
2022	304,771
2023	284,584
2024-2027	1,142,996
Minimum Lease Payments	2,676,525
Less: Amount representing interest at the District's	
incremental borrowing rate of interest	(309,591)
Present Value of minimum lease payments	\$2,366,934

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 14 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and injuries to employees. During fiscal year 2018 the District contracted with insurance providers for various insurance coverages, as follows:

Insurance Provider	Coverage	Deductible	Aggregate
Wright Specialty		\$500/Comprehensive	
Insurance Company	Fleet Insurance	\$500/Collision	\$1,000,000
Wright Specialty			
Insurance Company	Buildings and Contents	\$5,000	\$82,586,141
Wright Specialty			
Insurance Company	School District Liability	\$0	\$2,000,000
Wright Specialty	School Leaders Errors		
Insurance Company	and Omissions	\$2,500	\$1,000,000
Wright Specialty			
Insurance Company	Umbrella Policy	\$0	\$3,000,000
Travelers Casualty & Surety			
Co. of America	Employee Bond	\$0	\$100,000

There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages in any of the past three fiscal years.

The Ohio SchoolComp Workers' Compensation Group Retrospective Rating Program (Program) is a shared risk pool among school districts in Ohio. Section 4123.29, Ohio Revised Code, permits the establishment of employer group retrospective rating plans for workers' compensation rating purposes. The Program is governed by the Ohio School Board Association (OSBA) Executive Committee that consists of seven members as follows: the president of OSBA, Immediate Past President of OSBA, and five representatives elected from the participating school districts.

The Program, a Bureau of Workers' Compensation certified sponsor, established the program based upon guidelines set forth by the Bureau of Workers' Compensation (BWC). The Program created a group of school districts that will practice effective workplace safety and claims management to achieve lower premiums for workers compensation coverage than they would individually. The participating school districts continue to pay their own premiums and have the opportunity to receive retrospective premium adjustments based upon the combined performance of the group. Depending upon that performance, the participating school districts can receive either a premium refund of assessment. The Program's third party administrator (TPA), Comp Management, Inc., provides administrative, cost-control, and actuarial services to the Program. The cost of the TPA will be paid by each school district in proportion to its payroll to the total payroll of the group.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS

A. Licking Area Computer Association

The District is a participant in the Licking Area Computer Association (LACA) which is one of nineteen Information Technology Centers (ITC's) in the State of Ohio that make up the Ohio Education Computer Network (OECN). LACA is a non-profit organization, owned and governed by the schools it serves. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of LACA consists of twenty members made up of the twenty district superintendents. The continued existence of LACA is not dependent on the District's continued participation and no equity interest exists. The LACA constitution states that any school district withdrawing from the Association prior to dissolution forfeits their claim to the Association's capital assets. The District paid LACA \$122,292 for services provided during the year. Financial information can be obtained from their fiscal agent, the Career and Technology Education Centers of Licking County, Treasurer, at 150 Price Road, Newark, Ohio 43055.

B. META Solutions

The District participates in META Solutions (META), a jointly governed organization. The organization is composed of over 250 members, which includes school districts, joint vocational schools, educational service centers and libraries covering over 50 counties in Ohio. META helps its members purchase services, insurance, supplies, and other items at a discounted rate. The governing board of META is directed by 11 members which are composed of superintendents of the board of education of a participating school district. Financial information may be obtained from the META Solutions, Fiscal Officer, 2100 Citygate Dr., Columbus, OH 43219.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS (Continued)

C. Central Ohio Special Education Regional Resource Center

The Central Ohio Special Education Regional Resource Center (COSERRC) is a jointly governed organization operated by a Governing Board that is composed of superintendents of member school districts in Central Ohio (which comprise sixty percent of the Board), two parents of children with disabilities, one representative of a chartered nonpublic school, one representative of a county board of Mental Retardation and Developmental Disabilities, representatives of universities, and student and persons with disabilities representations. The District participates in the following services of COSERRC: Identification and Program Development Project, Regional Educational Assessment Programming Project, Instructional Resource Center Project, Early Childhood Services Project, and the Ohio Resource Center for Low Incidence and Severely Handicapped Project. These services are to assist the District in complying with mandates of Public Law 99-457 for educating children with disabilities. There is no financial commitment made by the districts involved in COSERRC. COSERRC is not dependent upon the continued participation of the District and the District does not maintain an equity interest in or financial responsibility for COSERRC. The District made no contributions to COSERRC during fiscal year 2018.

NOTE 16 – SIGNIFICANT COMMITMENTS

As of June 30, 2018, the District had the following commitments with respect to capital improvements:

	Remaining Construction
Capital Projects	Commitment
Middle School Improvement	\$112,699

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. Significant encumbrances outstanding at fiscal year-end in the General Fund are \$259,213.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 17 – STATUTORY RESERVES

The District is required by state law to set aside certain general fund revenue amounts for capital acquisition into a reserve. During the fiscal year ended June 30, 2018, the reserve activity (cash-basis) was as follows:

	Capital
	Acquisition
	Reserve
Set-aside Cash Balance as of June 30, 2017	\$0
Current Year Set-Aside Requirement	342,842
Current Year Qualifying Expenditures	(3,923,743)
Total	(\$3,580,901)
Set-aside Cash Balance Carried Forward to FY 2019	\$0

Actual capital expenditures in excess of current year or accumulated set-aside requirements from the capital acquisition reserve may not be carried forward to offset future years' capital acquisition reserve set-aside requirements.

NOTE 18 - CONTINGENCIES

A. Grants

The District receives financial assistance from federal agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2018, if applicable, cannot be determined at this time.

B. Litigation

The District is not a party to various legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects as of June 30, 2018.

C. Foundation Funding

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Traditional Districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2018 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

NOTE 19 - COMPLIANCE AND ACCOUNTABILITY

Deficit Fund Equities - The accumulated deficit at June 30, 2018 of \$445,470 in the Food Service Fund (Enterprise Fund) arose from the recognition of expenses on the accrual basis. The General Fund is liable for any deficits in this fund and provides transfers when cash is required, not when accruals occur.

Notes to the Required Supplemental Information For the Fiscal Year Ended June 30, 2018

NET PENSION LIABILITY

SERS

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for fiscal years 2015 - 2017.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014-2016. For fiscal year 2017, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the assumed rate of inflation was reduced from 3.25% to 3.00%, (b) payroll growth assumption was reduced from 4.00% to 3.50%, (c) assumed real wage growth was reduced from 0.75% to 0.50%, (d) rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females, (f) mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rate, and (g) mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

STRS

Changes in benefit terms: There were no changes in benefit terms from the amounts reported for fiscal years 2015 - 2017. Effective July 1, 2017, the COLA was reduced to zero.

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2015-2017. The Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75% to 7.45%, the inflation assumption was lowered from 2.75% to 2.50%, the payroll growth assumption was lowered to 3.00%, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience. See the notes to the basic financials for the methods and assumptions in this calculation.

Notes to the Required Supplemental Information For the Fiscal Year Ended June 30, 2018

NET OPEB LIABILITY

SERS

Changes in assumptions: Amounts reported for fiscal year 2018 incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:

Fiscal year 2018 3.56 percent Fiscal year 2017 2.92 percent

Single Equivalent Interest Rate, net of plan investment expense, including price inflation

Fiscal year 2018 3.63 percent Fiscal year 2017 2.98 percent

STRS

Changes in assumptions: For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Also for fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019.

Combining and Individual F_{UND} Statements and Schedules

 $m{T}_{HE}$ following combining statements and schedules include the Major and Nonmajor Governmental Funds.

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than amounts relating to private purpose trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

Public School Support Fund

To account for specific local revenue sources, other than taxes that are restricted to expenditures for specified purposes, curricular and extracurricular, approved by board resolutions. (The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are not presented because this fund is reported as part of the General Fund on a GAAP basis.)

Other Grant Fund

To account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

Student Activity Fund

To account for student activity programs which have student participation in the activity, but do not have student management of the programs. Typically this includes athletic programs, band, chorus, yearbook and other similar types of activities.

Early Childhood Education Fund

To account for state grants received to be used for preschool programs for three and four year olds.

Data Communications Fund

To account for monies received for the maintenance of the Ohio Educational Computer Network connections. (The Balance Sheet is not presented because there are no assets or liabilities at fiscal year-end.)

Miscellaneous Grants Fund

To account for various monies from State agencies which are not classified elsewhere.

Special Education Part B-IDEA Fund

To account for federal monies received in providing an appropriate public education to all children with disabilities.

Title I Fund

To account for federal revenues received to meet the special needs of educationally deprived children. (The Balance Sheet is not presented because there are no assets or liabilities at fiscal year-end.)

(Continued)

Special Revenue Funds

IDEA Preschool Grant for Handicapped Fund

To account for federal revenue funds to be used for the improvement and expansion of services for handicapped children ages three (3) through five (5) years. (The Balance Sheet is not presented because there are no assets or liabilities at fiscal year-end.)

Title II-A Fund

To account for federal monies received which are used to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced. (The Balance Sheet is not presented because there are no assets or liabilities at fiscal year-end.)

Miscellaneous Federal Grants Fund

To account for various monies from Federal agencies which are not classified elsewhere. (The Balance Sheet is not presented because there are no assets or liabilities at fiscal year-end.)

Capital Projects Funds

The Capital Projects Fund is used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary or trust funds.

Building Fund

To account for the acquisition, construction and improvement of capital facilities as authorized by Chapter 5705 of the Ohio Revised Code. (The Balance Sheet is not presented because there are no assets or liabilities at fiscal year-end.)

Capital Projects Fund

To account for the accumulation of funds for one or more capital projects.

Fiduciary Funds

Fiduciary fund types are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds.

Agency Funds

Student Managed Activity Fund

To account for resources which belong to the student bodies of the various schools for sales and other revenue generating activities.

Ohio High School Athletic Association (OHSAA) Tournament Fund

To account for athletic tournament monies held by the District in a custodial capacity.
