

Recommended Repair or Replacement Fees

If a student device has been defaced or damaged beyond the normal wear, families may be fined for repairs or replacements. Families may be charged for repairs and replacements if devices are damaged, lost, or stolen due to failure to secure the device. Damage may occur accidentally, and theft is possible, even under a watchful eye. Students should notify teachers or administration as soon as possible so an investigation may take place for negligence. Below are recommended repair costs for student devices.
