

# STUDENT PORTAL MANAGEMENT

As the district moves toward on-line testing of local assessments, users can manage the student long-in accounts through the “Manage Portal Access” link located under the “Students” tab:

Users may “add a student” if one does not already exist.

They may also “Disable” a student, which removes them from having access to on-line testing.

Students log into the Illuminate Home Connection site (<https://vusd.illuminatehc.com/auth>) to access their portal. It is at this portal where students access district-level on-line assessments. If using the Chromebook, the application link is found on navigation bar at the lower section of the screen:
