

FINDING CUT-POINTS FOR REPORT CARD PERFORMANCE BANDS

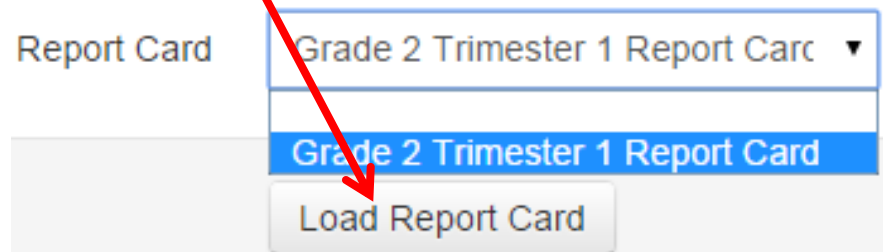

1. Although each section of the report card could have separate values that define each performance band, currently they are all the same. To find the minimum percent that defines each performance band, select the "Data Links" option under the "Grades" tab:

2. Accept the default grading period, and click on the "Load" button:

Select any report card, and click the "Load Report Card" button:

Hovering over, or clicking, any question mark located next to a field (a field reflects a section of the report card) reveals the minimum percent to reach the various performance bands.

Manual Field Links

To link specific report card fields to specific GradeBooks, GradeBook Assignments, and A

A screenshot of a 'Manual Field Links' dialog box. The dialog box contains the following information:

- Field Group:** Grade 2 History, Science, Technology & PE
- Field:** History Social Science
- Weight Category:** History Soc
- Standards:**
 - CS.SOC.2.2.1 - Students
 - CS.SOC.2.2.1.1 - Trace th
 - CS.SOC.2.2.1.2 - Compar
 - CS.SOC.2.2.1.3 - Place in
 - CS.SOC.2.2.2 - Students demonstrate map skills by USC
- Equivalent Value Scales:**
 - 4 >= 92
 - 3 >= 75
 - 2.5 >= 60
 - 2.0 >= 50
 - 1 >= 0.01
 - NE >= 0

A red circle highlights a question mark icon next to the 'Field' name, and a red arrow points from the text above to this icon.
