Visalia Unified School District

Summer Facilities Projects Report

2007

Each summer, as classrooms go dark and playgrounds become quiet, the Administrative Services Department swings into high gear to build, repair, replace, improve, enhance, and upgrade educational facilities throughout the district.

As students and staff leave the campuses for summer – contractors and VUSD Grounds, Maintenance, and Custodial staff rush in to complete as much work as possible while they are gone.

This summer our facilities projects affected at least 19 sites.

New Construction vs. Modernization

- Limited Funding Sources
 - Developer Fees (new facilities)
 - Deferred Maintenance Funds
 - Modernization Funds
- Lack of Bond Funding Severely Restricts Modernization Projects

Project Categories

- New School Construction
- New Classrooms and Accessory Structures
- ADA Accessibility Projects
- Addition of Relocatable Classrooms
- Recreation/Athletic facilities
- Paving
- Painting
- Roofing
- Flooring
- Electrical repairs and upgrades
- Air conditioning repairs and maintenance
