Future School Facility Sites

Two New Sites Acquired

Future School Sites

Elementary School Planning

Shannon Ranch Site

Architect selected and design work underway – evolution of design from Annie R. Mitchell and Manuel F. Hernandez schools

Future School Sites

Middle School/High School Planning

Annexation of 160-acre site at Akers/Riggin is underway. All environmental work is complete.

Following completion of annexation, next step is to begin master planning of the full site, with design of individual schools likely to wait until next successful school bond.
